

PROP WORDS: “ONE(S)” and “THING”

1. Grundsätzlich gilt die Regel, dass ein zählbares Nomen (count noun) durch das “prop word” (= Stützwort) “one” (Plural: “ones”) ersetzt werden kann, wenn man z.B. eine Wortwiederholung vermeiden will. In der Mehrzahl dieser Fälle ist ein solches “one” sogar verpflichtend.

Im Deutschen ist das anders, weshalb hier die Gefahr von Germanismen besteht:

FALSCH ist z.B.: *This dress is quite pretty, too, but I liked the green better.* (RICHTIG: *I liked the green one better.*)

FALSCH: *In America, Santa Claus is only a commercial figure, not a religious.* (RICHTIG: *In America, Santa Claus is only a commercial figure, not a religious one.*)

FALSCH: *The best presents are the unexpected.* (RICHTIG: *The best presents are the unexpected ones.*)

FALSCH: *There were different answers, and I had to choose the right.* (RICHTIG: *There were different answers, and I had to choose the right one.*)

FALSCH: *The tough always wins.* (RICHTIG: *The tough one always wins.*)

FALSCH: *The decision to leave school is a personal.* (RICHTIG: *The decision to leave school is a personal one.*)

She bought a car, but it wasn't a new one. He lost his job and hasn't been able to find a new one. There was another mark exactly the same as the one on the wall. The new vacuum cleaner is more powerful than the one we had before. Their new car was much more comfortable than their old one. The balance of forces is a delicate one. Like all the best ideas, it's a simple one. Do you see that card there, the blue one? I think we should have a real Christmas tree this year, not a plastic one. What seemed like a paradox begins to look less and less like one. I'm looking for a book – I'd like one with pictures for my little daughter. {Jack: What kind of dog is that? – Joe: It's a police dog. – Jack: He sure doesn't look like one to me. – Joe: Of course not. He's in the secret service.} Don't worry about the watch, I'll buy you a new one for Christmas. The waiter preparing tables was not the one who had served them the day before. My immediate reaction was one of revulsion. The next step would have been a really long one. It would require a massive military build-up such as the one that preceded the Gulf War. I went through the records and found that the Rolling Stones one was missing. The worst civilian regime is better than the worst military one. Not all of these ideas are going to be ones you agree with. This judgement is indeed a harsh one. Few know of the benefits of a solar panel, let alone what one is. Our mission would be just another normal one. I hope this is only a friendly call and not a professional one. You give me a slice, a nice, large one, and I'll say nothing. The Commission's proposal is a good one. The calamity that ensues is an expensive one. I changed my number but even then, they quickly found my new one. There is a distinction between the healthfully round body and the overweight one. The clever person lives off the dumb one, and the dumb one off his work. {Medals, they're like haemorrhoids. Sooner or later very asshole gets one.} (Billy Wilder) After my parents' divorce I went from an excellent student to a borderline one. I do have a therapist now, but there was a time when I couldn't afford one. A study [by the University of California] found that women who sought an abortion and were denied one were more likely to live below the federal poverty line, more likely to stay with abusive partners, and more likely to suffer life-threatening complications during pregnancy and birth. Every birth in the UK produces 160 times more greenhouse gas emissions than one in Ethiopia. The day was an unusually hot and beautiful one. Most times the only thing we see is the one on the surface. A patriot is a man who loves his country; a nationalist is one who hates everybody else's. In American crooked noses don't make it past the age of sixteen, because every girl with one gets it fixed as a birthday gift from Dad. I missed the interview so I then emailed and asked for another chance and she gave me one. In Chile, anybody who performs an abortion or assists with one can face up to 15 years in prison. It's devastating to work and think you're going to have a pension and be told that you're not going to have one, or maybe three quarters of one. Having a father or not having one: How much difference does it make for an ordinary child in a developed society? His battle is increasingly a lonely one. A challenge that one can manage is a good one. We can all hope that the battle to defend democracy will be less costly in the 21st century than in the previous one. I come here to explain a crime and not to excuse one.

Bisher betrachteten wir nur Fälle, wo ein “one” eine stilistisch unschöne Wortwiederholung vermeiden sollte. Das zu ersetzende Nomen muss aber nicht schon da stehen, es kann sich auch sinngemäß ergänzen lassen:

I want to be the one (= person) that makes the decisions. She is the wounded one (= person). These memoirs will probably differ from the accounts of my colleagues, because they are the memoirs of a wounded one (= soldier). You're the one (= the person) with the problem. The one (= candidate) with the most votes wins. She's the one

(= *girl*) with the possessive boyfriend. Am I the only one (= *person*) who loves you? The only one (= *person*) who never saw them was our doctor. He is the professor in the family, and the one (= *person*) who knows everything.

1.2. Beispiele für das prop word "ones":

The newest ships could travel faster than the older ones. Airlines fly some very old airplanes, but new ones promise to save so much fuel that the old ones may be finally put out to pasture. Blackpool has always had to provide amusements for visitors on rainy days as well as on sunny ones. The arms moved from one hand to another until they fell in the wrong ones. Those people who have opinions have strong ones. This seems to be a common experience – many similar ones have been reported in the last few days. Small changes can have a big effect, if they are the right ones. {The houses were different. New ones had been built and old ones torn down.} Motivated students learn far more than unmotivated ones. Our financial problems are much greater than our practical ones. Those responses, too, were similar to the ones from 1995. A perfect God does not make mistakes, even little ones. Britain is considering replacing its ageing nuclear power stations with new ones. I saw at a glance that the last two months had been very trying ones for him. And if individual decisions can't solve the problem, the wrong ones can certainly compound it. There were certainly some exercises that I wasn't too happy with, but I know the tough ones can only make me better. Most people have phone cameras or small digital cameras and take a lot of pictures; still, finding the right ones can be a bit tricky. "The big shallots may be easier to peel, but the little ones are nicer to bake," he said. Normally when hybrids travel at slow speeds on electric power, they are silent, which safety advocates say poses a danger to pedestrians – particularly blind ones. Translations are like lovers- the beautiful ones are never faithful, and the faithful ones are never beautiful.

Beispiele für "ones" mit sinngemäß zu ergänzendem Nomen:

We old ones (= *people*) invest our future in you. The priests were the educated ones (= *men*). They are not the only ones (= *people*). It's not always the clever ones (= *people*) who know everything. They were the only ones (= *people*) who ever considered escaping. They are the ones (= *companies*) that are too big to fail. The younger ones (= *residents*) may not even speak French, but they are still Cajun. The young ones (= *people*) can see how the older ones (= *people*) make money. The younger ones (= *children*) may become so discouraged by having to live in their older siblings' shadow that they decide to give up on competition altogether.

1.3. Ungewöhnlich für Deutschsprachige erscheint "ones" als Subjekt eines Relativsatzes – eine Übersetzung mit "solche" bzw. "welche" scheint nicht ins System zu passen (manchmal passt allerdings auch "diejenigen"):

We should aim for the best structures, ones that facilitate healthy functioning as far as possible. There are pictures that wow you instantaneously, but there are also ones that bore you to death. If you are afraid or uncomfortable with piercings, you can always get ones that are fake and non-body piercing. We must achieve a situation where our punishments are ones which the public find acceptable. Shopping for a pair of shorts recently, I found ones mostly made in China. Many of these dangers are ones which parents are also responsible for. Military events can have unforeseen consequences, ones that may not become apparent at the time they happen. Now they are trying less rigid approaches – ones that allow for moderate drug use as a bridge to abstinence. Many of the deepest conflicts are now ones that men and women share. We have trees that we know are resistant, and we have ones that are not. It might also have stimulated research on new approaches – ones that would actually work. They believe that through them God can heal almost any ailment – especially ones thought to be essentially spiritual, like psychosis. The new system is helping us to find more cases, and sometimes we find ones we think we would've missed before. The best pilots were ones that hadn't had much success in other spheres and were determined to succeed. It was incredibly dangerous, but these were the stories he wanted to tell most – ones that were critically important but also difficult and dangerous to capture.

Diese Übersetzung mit "solche" bzw. "welche" (bzw. "diejenigen") findet man auch manchmal, wenn eine Präposition folgt:

Houses in which all the walls and ceilings are curved are easier to heat than ones with square walls and corners. My feelings were ones of complete indifference. {The best argument for Ibrahimovic's goal would be that there has never been one that looked quite like it. Bicycle-kick goals are a rare, delightful sight. Ones from such distances are simply not supposed to occur.} {'Feeling guilty about things I've done in the past,' he says. 'Ones from a long time ago, and recent ones. Every little thing kind of weighs upon my shoulders.}' They offer life vests in various sizes, even ones for children. And there have been trips to tournaments, ones without visa or money

problems. But after that, they are to be replaced by ones without creases. Clearly tourists don't turn up every day, certainly not ones without a hotel booking.

Steht ein "the" vor einem "ones" als Subjekt eines Relativsatzes, klingt die Konstruktion für Deutschsprachige schon annehmbarer; "die(jenigen)" überrascht viel weniger als "solche / welche":

They are the ones who wear read. Think about the ones who stayed on. He welcomes everyone, even the ones who are complaining. But what about the ones who don't? They believed that students should not be the ones who have to pay. They are the ones who can be trusted. The demonstration videos are the ones which people really respond to. The most perfect faces and bodies are not the ones which are desired the most. The only scenes he has filmed so far are the ones which conclude the Christmas special. Yet, the most important changes, the ones which made the transformation of Eastern Europe possible, took place elsewhere – in Moscow. Now, the ones that remain are shrinking. They were the ones that killed her. I know the ones that are overrated. They will be the ones that suffer. The most memorable love affairs are the ones that end in tragedy. (E. Hemingway). But the events that rupture the classroom routine, from President Kennedy's assassination to 9/11, tend to be the ones that stick with students forever. I take the ones I can afford. And these are just the ones I can count off the top of my head. "The ones I like are the ones I can understand," Mr. Rose said. Old people were the ones least able to get any food. The only people worth envying are the ones incapable of envy. The ones most surprised by this close contest were Won and his group. I think the ones found in barber shops are the best. They were the ones best able to cope. The facilities for downtown surface and rainwater drainage are missing, and the ones existing are in a poor state of repair due to the lack of maintenance. Are you among the ones rushing to complete your investment declarations – and tax-saving investments – before the March 31, 2021 deadline? Did the ones praying believe that He could do what they were asking? {Then the restauration team tested the most promising strains [of bacteria] behind the altar. All of the ones selected, said Monica Bietti, former director of the Medici Chapels Museum, were non-hazardous and without spores.}

2. Dagegen können nicht zählbare Nomen ("uncount nouns") NICHT durch "one" ersetzt werden:

Does it matter whether you use white sugar or brown when you bake? *FALSCH wäre hier:* Does it matter whether you use white sugar or brown one when you bake? *Man kann sich das so erklären, dass "one" ja auch ein Zahlwort ist, und dass man den Stoffnamen "sugar" nicht zählen kann.*

FALSCH ist also auch: I like the cheapest food as much as the most expensive one. (Denn "food" ist nicht zählbar.)

FALSCH ist ebenfalls: They had only dark bread, but they wanted white one.

FALSCH ist ebenfalls: I wondered which milk to buy, the organic or the non-organic one.

FALSCH ist ebenfalls: I prefer peanut butter to animal one.

FALSCH ist ebenfalls: {I have good news and bad news. Which one do you want to hear first?}

Es folgen Beispiele mit "uncount nouns", bei denen – korrekter Weise – auf "one" verzichtet wurde:

The bad news outweighed the good. You gotta get used to telling clients good news as well as bad. That is the good news, and what is the bad? It might be helpful to look at the conflict between visual media and the written as a battle between two technologies, each representing a different mode of communication. ("*Media*" ist nicht zählbar!) Good luck follows bad. Throwing good money after bad is not the way to solve the problem. Bad money drives out good. (Gresham's law) The advantages of pooling your money with others' are manifold. Are we talking about Indian tea or Chinese? "China tea or India?" she asked. (Saki) Professionally brewed coffee tastes better than instant. Before we get onto the question of whether experienced wine drinkers can actually tell the difference between red wine and white, I should probably tell you a little something about my background in the field. White wine and red are never to be mixed together. There are differences between American English and British. Brains evaluate everything in terms of potential threat or benefit to the self, and then adjust behavior to get more of the good stuff and less of the bad. Friendship: A ship big enough to carry two in fair weather, but only one in foul. (Ambrose Bierce) They had to do all their work outside, in fair weather and foul. The US military demanded a helicopter that could operate in any theatre of combat, day or night, in fair weather and foul. A President who promises unprecedented transparency must understand that a window shows the bad weather along with the good. I always use blue toilet paper because it matches my bathroom décor, but a friend told me that I should only use white, because coloured paper is more damaging to the environment. In many households, green lines are being drawn between those who insist on wild salmon and those who buy farmed. Malaysian hair

is similar to Chinese, very strong. Autumn brings cold, rainy weather to Normandy, and winter brings worse. The maggots ate the dead flesh, leaving the good. Kenya is already showing just how a new Africa might emerge from the old. You shall have salt fish to eat if you cannot eat fresh. (Pearl S. Buck) They believed that evil magic as well as good could be spread by water. Is it hot water or cold? There is good flattery and bad. In America military aviation definitely takes second place to civil. Fowler gives us one quotation illustrating the correct use of the word and a dozen of the incorrect. I like Wagner's music better than anybody's – it is so loud that one can talk the whole time without other people hearing what one says. (O. Wilde) Lord Goring: When one pays a visit it is for the purpose of wasting other people's time, not one's own. (O. Wilde) {French or German? Which is more useful?}

Es gibt Nomen, die in bestimmten Bedeutungen "uncountable", in anderen "countable" sind:

Most people prefer verbal communication to written. ≠ It may well be beneficial to follow up a verbal communication with a written one.

Fresh food is better than processed. ≠ It is often more expensive to buy stainless-steel or wood items instead of plastic ones, or fresh foods instead of packaged ones.

I like white chocolate better than dark. ≠ I like my home-made chocolates [= Pralinen] better than the expensive ones you can get in the shops.

3. Das prop word "one" entfällt in vier Fällen meistens auch dann, wenn von "count nouns" die Rede ist:

3.1. "One/ones" entfällt fast immer nach besitzanzeigenden Pronomen oder Nomen:

My sentence was afterwards commuted into the same as the others'. (C. Doyle) He had his hand under the other's as they entered. (C. Doyle) When a young man complains that a young lady has no heart, it is a pretty certain sign that she has his. (G. D. Prentice) A woman's mind is cleaner than a man's; she changes it more often. (Oliver Herford) Kids are like husbands – they're fine as long as they are someone else's. (Marsha Warfield) He poured the water into the mugs and brought mine over to me. Dozens of countries in the world would gladly exchange their problems for America's. The military muscle of the People's Republic of China is not behind the U.S.'s any longer. Americans feel that English is as much their language as anyone else's. It is not in my room, it is my sister's. My claims are older than Peter's. {It could scarcely be an impossibility to give one thing another's name, to name it after the other – whatever the other's name.} The fault was the other driver's. He took her hands in his. I slipped on what clothes I could find – some of my own and some of George's and Harris's. A man's track was visible beside the horse's. After the wedding she moved from her parents' house to her husband's. Her hands were as dirty as a little girl's. Her face was the image of her brother's. Their horns are as long, twisted and curved as an antelope's. Howie's first marriage, like his sister's, had not lasted. The sins of Stalin's era are silenced in Putin's. Herr Koch led the way into the flat that had been Harry's. A patriot is a man who loves his country; a nationalist is one who hates everybody else's. Never judge a man by his umbrella – it may not be his. (Notice in Eton master's schoolroom) Sexual-assault cases often boil down to the victim's word against the accused's. His ugly face was like an animal's. I hadn't given the hospital my phone number, so they had just my aunt's. I trusted my instincts as much as I trusted my dog's. Today's opinions may not be the same as yesterday's. There were many people who had children the same age as ours. Though every major economy has been expanding lately, Britain's barely grew during the first three months of 2018. The atmosphere on Venus is over 60 times denser than Earth's. In today's world, if the global yield curve says one thing and America's says another, go will the global. They see their own good intentions as praiseworthy while discussing others' as inconsequential. The other's name was Boland.

Das besitzanzeigende Wort kann noch durch "own" verstärkt werden:

Tolerance means treating with respect people whose positions are fundamentally different from your own. Some parents use the tactic of praising another child in order to point out the true path to their own. There is no dictionary which lists all those expressions – you'll have to start compiling your own. The room was exactly like her own. Both for her sake and his own there must be no scandal. His boots were much like my own. Ultimately, health care providers can't save your life if they can't protect their own. Commendation: the tribute that we pay to achievements that resemble, but do not equal, our own. Scribbler: A professional writer whose views are antagonistic to one's own. (Ambrose Bierce) Their opinion differed from his own. They are exposed to a culture completely different from their own. Zsa Zsa Gabor, when asked how many husbands she'd had: You mean apart from my own? He loves cats and can't wait to buy his own. Their horses look like our own. Heaven: A place where

the wicked cease from troubling you with talk of their personal affairs, and the good listen with attention while you expound your own. (A. Bierce)

Many:

Though many have relatives in the highlands, few have visited them. His aggressive style reminds many of past Austrian greats like Toni Sailer or Franz Klammer [= ski aces]. He didn't win gold in Albertville in 1992 – as many expected he would. If you steal from one author, it's plagiarism; if you steal from many, it's research. (Wilson Mizner) {I have records that I bought and listened to once back in the 80's. As for the crackles, you won't get many if you've taken care of (or not played) the LP's.} We found the drinks expensive and didn't buy many. Big names such as J.P. Morgan Chase, Morgan Stanley and Goldman Sachs rub shoulders with many that are less familiar. The teachers, many from top universities, are all volunteers. They may languish there for months, many without passports. The young soldier was one of many on the train. Gay couples, many with arms wrapped around each other, cheered.

Any:

When I looked for them in the garden, I couldn't find any. If you have any that you'd like to offer our readers, please send them to ... {What kinds of stories are you drawn to? Are there any you steer clear of?} Are there any you already own? She can talk about any of the following points. To my knowledge they did not interview any black candidates, didn't even publicly talk about any. Well, we didn't see any the week we were there! Hence perhaps the winter of 1783-84 was more severe than any that had happened for many years. In January of this year, Pakistan opened an offensive into South Waziristan that was far fiercer than any that had come before. If you buy bananas, avoid any with soft spots. Wash the oysters in cold water and discard any with gaping shells. "But you wouldn't want to consume any from around here," he said. I did not send photos to him or receive any from him. I still remember that he knew words from both of my languages and I did not know any from his.

Some: I cooked some in the broth, but they emerged spongy and tasteless. Most sat quietly, smiling, some in wheelchairs. Then neighbours turned up, some in pyjamas. Unusual pieces include some with written messages. We suggested several words for the slogan, and some with too many syllables were rejected. People were armed, some with guns, some with machetes. Murray, though, would have answers, and laid out some for the committee. Rooms, some without their own bathroom, don't match the chic lobby's style. I already have 100 ballets in my mind, some with music, some without. There are some that are difficult, and some that are less difficult. Rooms, some without their own bathroom, don't match the chic lobby's style. They found rifles stacked on top of one another, some without identifying tags. Most pictures were by European photographers, some by Africans. So some people liked to call me by my first name, some by Mister, and some by my military grade.

Several:

I'm always looking for Prince Charming, and I've already found several. {Tried something a bit different for lunch today: fresh halibut filet from my neighbor, who is an avid fisherman. He brought me several the other day.} At the briefing, Police Commissioner Raymond W. Kelly said that while there were no vendors of chlorine in New York, there were several in New Jersey. This is the first entry of what will hopefully be several in a series about how we've architected this new responsive 'Guardian' and where we see it developing. One other death has been reported in the United States, along with several in Europe. The congregation includes 29 people sick with SARS, with several in critical condition. The lawsuit is one of several on the subject recently. The defection was one of several from Taliban territory. The six interns, several from Minnesota, were chosen from the finalists. Because it

was the only project, among several, without a deadline, it always seemed to fall off the to-do list entirely. Talking of consequences, there were several for Ethan this week.

Most:

{No more than the maximum number of people had turned out. And of those, most had paddled before.} {Adults had begun to look like children, children like adults. Most had given up scavenging for food.} {Few people knew that the country's thirty-second President was paralyzed. Most knew that he'd had polio, but they remained unaware that he could not walk. Franklin Delano Roosevelt managed to hide the extent of his condition from the majority of the voting public with a simulated walking technique.} {Mr Mugabe boasted that the peasants whom he settled on formerly white-owned farmland would produce a bumper crop, but they did not. Most knew little of farming, and the government gave them no help.} By the time Seward's friends arrived, most couldn't get into the hall because all the spaces were taken. A survey found many residents identified stroke symptoms of as those of a heart attack, and most could not identify a correct first response to a heart attack. Each year 2.7 million women are diagnosed with cancers, and more than a million die, most from developing countries. The company has about 20 workers, most with handicaps.

Other nutritional studies, including several ones focused on body weight loss, have found DNA methylation changes of similar magnitude. I think it should be scrapped because there's not one problem with the proposal but several ones. {We went there and asked for a car. We were offered several ones until we chose one.} All of the compounds were tested for the inhibitory activities against six human tumor lines in vitro, and several ones showed moderate cytotoxic activities.

3.3. "Ones" entfällt nach (Grund)zahlen:

I have two hamsters, and my friend has three. So that's seven books I have written – not bad for someone who has only read three. (George Burns) In one day he covered as much ground as one of my men would have in two. The journey from Charing Cross to Canterbury took three hours instead of the normal two. Some days later a bomb went off in a bus, killing one person and injuring eight. He had always considered her to be the stronger-willed of the two. Five guys out of our original fifty didn't show up. Out of 300 cows, he had lost eight. He owns about five hectares of land but can afford to farm only about two. The decisions we make in the next ten years will determine the direction of the next 10,000. By early this year, there were fewer than five. Most people struggle at more than three. There were probably not more than ten. Can he win two, three, perhaps as many as five? The frequency of attacks across Europe reached as high as ten a week. Were there two killers or as many as six, as some rumors have suggested? In November, there were six fatalities, and in December, there were eight. Our lead had shrunk from ten points to three. My uncle has three children, and my aunt has four. I thought I had to wait four weeks, but I got an answer after two.

3.4. "Ones" entfällt nach "these, those":

No tights were ever tighter than these. Some of those ads were arguably more revealing than these. You can't get better conversation pieces than these. I've had a lot tougher days than these. Improvements like these raise costs. Exposés like these stopped appearing. Moments like these are rare. Interactions like these happen frequently. With friends like these, what can happen? Desserts after meals as sweet as these might be superfluous. Objects such as these demonstrate more than craftsmanship, however. It is encouraging to see developments such as these. But not every appointment is quite so divisive as these. It's voters like these who are giving Obama his cushion. {Among many questions left unanswered about the count tonight were these: Who will do the counting? How much will it cost? How long will it take?} But it isn't actors like these who direct feature films for studios. Sutherland's heroes are authors like these. These who showed up to watch were largely players'

friends and relatives. {It really is impossible to fit anything but a lipstick and a mobile phone in the season's ultra-cute mini-purse. There's a jewel-like quality to these that is irresistible.}

Those who took bribes were expelled. It's difficult for those who are left behind. It does not produce images quite as sharp as those. Are classes as rigorous as those offered on campus? When did Chelsea last have stats as bad as those? Older people are defined as those 65 years and older. Other parameters are the same as those in section 3. This led to answers such as those shown below. The notations are the same as those used in text. Other variables are the same as those in Equation 22. Are they better than those in New York? Downstate homeowners paid more than those upstate. People who are depressed have more medical illnesses than those without depression and make greater use of healthcare services. These values are remarkably larger than those previously reported. They were much more specific than those published previously. His favorite charities are those which help children.

"These ones / those ones" ist nur umgangssprachlich gebräuchlich (B.E.):

So we found these ones that just stay on. These ones are finished. That one was clean; these ones weren't. Well, these ones taste of chilli. Me, I like these ones here. They can stay on and live in houses like these ones, or worse. These ones are nothing to what we'll find later.

I bet those ones make less money. You know – one of those ones with a dough hook, like a KitchenAid. Puu, those ones are useless. Efficient, those ones. "No, not those ones, others," Emilia says. You always wish you can have those ones back. Teachers are generally forgiving of those students who forget their homework on rare occasions; they get mad at those ones who repeatedly forget.

4. Darüber hinaus gibt es einige Fälle, wo das prop-word "one" ausgelassen werden kann bzw. häufig ausgelassen wird:

4.1. Nach Komparativen:

It was a curious way of managing it, but it would be difficult to suggest a better. (C. Doyle) Of the two evils, wouldn't repression have been the lesser? The second question is the more difficult. Young people are abandoning traditional pronunciation in favour of Americanisms, while older remain loyal to the Queen's English. Among the more interesting of his observations are these: ... The older of the two men spoke to the crowd. Here are some words with two syllables; in each case, the first is the louder. Frank was the elder, by a couple of minutes. Matour is a pretty village, but there are many prettier in this part of Burgundy. He must have been a clever fellow, but I think I know a cleverer. Of two evils chose the prettier. (Carolyn Wells) He threw a glance over his shoulder at his pursuers – the nearer was now rather more than a mile away. He had always considered her to be the stronger-willed of the two. You would hardly forget such a face, would you, sir, for I've seldom seen an uglier. (C. Doyle) We don't want the older child to resent the younger. He urged the latter course as the quicker and surer.

Es geht aber auch mit "one/ones":

This assignment is among the odder ones. The Vonegar family were among the luckier ones. I saw a lot of birds in the trees near me, and I decided to shoot one of the larger ones. The implication is that a larger collection of retail businesses is better than a smaller one. The ancient Greeks believed that heavier objects fall faster than lighter ones. New members of the group leave it for the older ones. Most studies – especially the larger, newer, more carefully done ones – find no difference between ... The younger students spend an hour on homework and the older ones may enrol in a Kaplan college exam course. Small asymptomatic fibroids need not be treated; the larger ones may be treated by hormone therapy. "If you read the newspapers, you can't imagine how they are going to survive," he said, "and probably some of the weaker ones may close.

Of all the birds in the British Isles, the white-tailed sea eagle is among the most impressive. Grenada is the most prosperous of the Windward Islands. His last year was one of his least successful. In his comments, Larsen describes this move as the most difficult in the [chess] game. Such a method is one of the most effective. There are many types of phobia – one of the commonest is agoraphobia. We were now battling our way through the February storms, the severest of the winter. The US has intelligence agencies galore; the best-known are the CIA and the National Security Agency. Glenfiddich was the first Scottish distillery to offer guided tours and remains one of the most popular. Of the various current misuses of “with” we treat the most easily corrigible. The last five years of Henry III's long reign were the most peaceful of all. In the churchyard, the south and east sides were considered the most holy and so the most coveted. Elizabeth I's reign was one of the longest in English history. Such sacrifices are the most beautiful and noble. {Inventions fall into three categories: scientific-technological, socio-political and humanistic. The latter are the least recognized and explored, although they are as important for cultural evolution as technological inventions are for material progress.} Russia's roads are among the world's deadliest. When the tide is right, the most daring dive off the rocks. Dorincourt Castle was one of the most beautiful in all England. All relationships have their physical highs and lows, but prolonged sexual indifference can undermine even the best. American health care is the most expensive in the world, and yet American health is among the worst among rich countries. The Empire State Building reigned for 42 years as the world's tallest. They feed some of the most desperate among the refugees. The meeting was one of the most successful I've ever had. When you have a number of disagreeable duties to perform, always do the most disagreeable first. (Josiah Quincy) The most efficient technologies are not always the most economical. He was the best player but also the most stubborn. India's cities are the world's most polluted. Many say this past year has been the bloodiest. Uttar Pradesh is India's most populous state and one of the country's most politically influential. Those first four years were some of my most pleasant and productive. (Jimmy Carter) My last year in office was the most stressful and unpleasant of my life. Frustratingly, the words I could not translate were always the most interesting. Hate, among all our base instincts, is the most distinctly human. The footprints, estimated to have been created 13,000 years ago, may be North America's oldest. Heidelberg's 1.6 kilometer long pedestrian zone is said to be Germany's longest. The auto market in China is the world's largest. {There are many reasons to apologize, whether on your own behalf or your nation's. Perhaps the most important is to put the past to rest in order to move on.}

The nearly 500 regional comprehensive universities in the United States have the potential to play as vital a role in the 21st century as they did in the 20th. Here are some words with two syllables; in each case, the first is the louder. The ninth victim was killed on Wednesday evening, and the tenth the next morning. In America, they give you a second chance but not a third. I didn't care for either alternative, the first in the short, the second in the long term. He was the first to talk with them as equals. Mrs Danners worships the memory of the first Mrs de Winter and does all she can to drive away the second. {In Dr Johnson's famous dictionary 'patriotism' is defined as the last resort of a scoundrel. With all due respect to an enlightened lexicographer I beg to submit that it is the first.} (Ambrose Bierce) The explosion resulted in the deaths of four men, besides inflicting serious injuries on a fifth. He lit a cigar – his first for a month – before he started to read. I'd prefer not to be the first to leave. A new British survey has revealed that 9 out of 10 people like chocolate; the tenth lies. (Robert Paul) The dining car was the sixth from the rear. The answer to the second question depends on the answer to the first. The first thing an entrepreneur must have to start a business is vision; the second is determination. Another study found that people in their first marriages had more sex than people in their second. The French carried out the attack with six divisions in the first wave, and six more in the second.

The new revue at The Establishment (Greek Street) is an improvement on the first one. Then a second optical beam, perpendicular to the first one, is switched on. Then a second layer was deposited on the first one. The process is more like a pipeline, they say, with projects expected to emerge one by one for consideration, with the first ones more likely to be approved than the last. Televised election debates are still a relatively new concept in the UK, with the first ones taking place in 2010. The third model was similar to the second one. It is unknown whether the company will try to restart drilling at the first well, move on to the second one or drop the project entirely. It's taken since 2002 to get to the first million, but it might be rather less time to get to the second one. The first exhibition was in Holborn; I went to the second one, in Chiswick. The first step is linked to the second step, the second step linked to the third one, and so on.

Other:

One half of the world cannot understand the pleasures of the other. (Jane Austen) One hinge snapped, then the other, and down came the door with a crash. (C. Doyle) If I had not my wife upholding me on one side and Captain Widdecombe on the other I should make a poor show. (C. Doyle) On the one hand, I had a hundred pounds in my pocket; on the other, the look of the officers had left a bad impression as to the position of my employer. (C. Doyle) "A jerk on one end waiting for a jerk on the other." (Folk definition of fishing) He had a cloth in one hand and a glass of beer in the other. One lung was almost gone, and the other was very much affected. For this reason and no other we are disappointed that we were not invited. He stood there with a cup of coffee in one hand and a newspaper in the other. {On the one hand there is the clear imperative to give shelter to people who are in need of it. On the other, the pure massiveness of the current influx will doom any attempt at meaningful integration.} The controversy is between Washington on the one hand and corporate America on the other. There are a noisy commuter train line on one side and apartment blocks on the other. Members of one village seldom meet anybody from the other. We were on one side of the river and the Germans were on the other. It goes in one ear and out the other. Each side tries to pin moral responsibility on the other. There are two wings to the house; the servants live on one side and the family on the other. The man held a clipboard in one hand and a parcel in the other. The meat was burnt on one side and raw on the other.

One of them is still missing without a trace, while the two other are under house arrest. "Four Indian navy women officers have been deployed recently on warships in recent times. Two of them are posted on the aircraft carrier INS Vikramaditya while two other are deployed on the tanker ship INS Shakti," an Indian Navy spokesperson told ANI on International Women's Day. "Eleven of our policemen were injured and three other have been killed," the spokesman said. {As many as five tourists from West Bengal were killed after their vehicle fell into a gorge in Katarbotey near Reshi Baz in West Sikkim. Three other have been reported to be in a critical stage.} In the remaining weeks these questions, and many other, will be addressed.

Reactions to microwave exposure vary from one person to another. TB bacteria are spread through the air from one person to another. In engineering, a subsidiary wheel driven by another is an epicyclic or planetary wheel. If they regard our meeting today as a provocation we shall hold another next week. When one Ranger fell, another would take his place. No sooner had one ship left than another arrived. I don't like this glass – haven't you got another? A synonym is a word that means the same thing as another. He killed one guard and assaulted another. If we find one route unsafe, are we at liberty to choose another? Preference: A sentiment induced by the erroneous belief that one thing is better than another. (Ambrose Bierce) Henry, John and myself were placed in one room together, Charles and Harry in another. There is one law for the rich and another for the poor. The country goes from one extreme to another.

Same:

The smart always make new mistakes, the dumb always make the same. Our thoughts must have been exactly the same. The first time I was told to call a different number (but they gave me the same that I had called to). The

sound is not the same, but it's similar. The scenario was the same that I had seen many times before. Two of the complaints were the same that had already been received. The arguments were the same that had already been considered and rejected. The new account number is the same, but without the letter. The procedure is the same, but without the wait time or much of the test anxiety. We bought one of your hampers last year and have bought the same again this year.

Either:

{We tested the Avalon XL and top-of-the-line XLS. Either is excellent for long-distance travel without promoting fatigue.} He describes both theories, but he is not convinced that either is of much use. Jackie bought two new dresses; either is suitable for the festival. But neither of the kittens had passed its leukemia test, a prerequisite before either could be let go. You can use either of two tests. {Cats and dogs are both hard to take care of. So, I don't have either.} {Online classes are not easier or harder than on-ground classes. The amount of time and effort required for either will be about the same.}

Neither:

There are two ways out but neither looks promising. As he turned to leave, he smiled at Margaret and Elizabeth, but neither acknowledged him, as they both seemed to be preoccupied. Both sides were hopeful, but neither could feel competent. (Saki) Unfortunately, they were both out of the tournament before the final table and neither had a chance to win the €125,000 first prize. They ended up in the living room, watching a baseball game in which neither had any interest. {The Espionage Act, like the draft, were war measures, tolerated and approved as such. Neither is in the least likely to become a permanent policy of peace.}

Former:

When the groups were divided into right- and left-handed subjects, the former had a significant disadvantage. {An Austin 1300 and a white Nissan Sunny are the only two cars I've ever owned. I remember the former had a permanent oil leak reminiscent of the Angel Falls and that the latter was simply indestructible.} Both [insurance] coverages have their pros and cons, but the former is significantly cheaper than the latter. {President Biden or Trump? On paper, the former could be better for Africa.} She changed her name from Fannie to Frances, thinking the former might subject her to ridicule.

Latter:

{Inventions fall into three categories: scientific-technological, socio-political and humanistic. The latter are the least recognized and explored, although they are as important for cultural evolution as technological inventions are for material progress.} Hippopotamuses and crocodiles inhabit most lakes and rivers, although the latter are not found in Lakes Edward and George. There is live music and you get to wander around the exhibits with refreshment in hand (the latter are not free, but not that expensive). Between Apple Computer's iTunes music store and space flights, the latter might be the easier challenge. The former scenario will become evident in the next several months, the latter could take years.

Next:

{Every time one individual speaks up against injustice it sends a tiny ripple of hope out in the world. It inspires the next to speak up.} It's either this world or the next. The transfer of leadership from one generation to the next was clearly underway. The next of these missions is likely to occur in February. {The year is best forgotten. Yet the next could prove even uglier.} The stage floor was a rotating platform divided in two by a backdrop curtain, so that while one group was playing the next could be warming up. One scene moves seamlessly into the next, so that the past is continually carried into the present.

Each:

Hostel offers accommodation in five rooms, where each has a TV/ SAT, WIFI, shower and toilet. All apartments are newly decorated, each has a comfortable double bed and a single bed. All five bedrooms are very spacious and each can be accessed separately. The settings are Low, Medium, and High; each can be turned off. This exercise regiment consists of 5 exercises and each will be performed for 1 minute. To keep applications focused, each will be limited to a single site. A multiple choice test has 30 questions, and each has four possible answers, of which one is correct. Although there are seven new condo projects slated for Tampa, each has unique attributes that differentiate one from another.

Which:

You can choose between several books – which would you like to have? They were not sure which way was up and which was down. Of the three hotels, I simply can't tell which has a better beach. And of those forces and influences, which can we actually change? {Experiential cuisine loves seasonal ingredients! Which can we expect in the spring?} Which is the better, the old version or the new? {Can't decide which you would rather have? Give us both contacts and you will get a brief text and a more detailed email.} Debit Card Or Credit Card: Which Is Better? {I can recommend both books by Alison Smith. The sewing book is by way of an overview, but 'Dressmaking' is devoted to garment making. There is some overlap, so you need to decide which is more useful to you.}

Let's consider the difference between such sentence pairs and the following: ... The two further assumptions are the following: ... There are some striking examples of widely held but inaccurate beliefs about people and things; the following are just a few. In such cases, one of the following might be more appropriate: ... The following are edited excerpts. The following are some of our favourites. All of the following have been approved as safe by the Food and Drug Administration. It's possible some of the things you wish for, like the following, have already been invented and are just waiting for mainstream popularity. Of the companies under our coverage, the following have the means to seek out potential acquisitions: ...

Few:

While many products scare the consumer away due to their fibrous, almost woody consistence, there are only few which can convince with their quality. In Europe, many schools with innovative architecture and many with innovative pedagogical concepts can be found; but only few which combine these two aspects. He became the first Labour Prime Minister, the first from a working-class background and one of the very few without a university education. Bob gave Tina almost all the stamps he had collected, and kept only a few for himself. Friendships are really life's best souvenirs; you keep a few from high school, a few from college, a handful from summer camp.

Es funktioniert aber auch mit "one/ones":

It was possible that his order might lead to other ones. (C. Doyle) Except for the outer sock, all the other ones can have holes in them. If one computer goes down, we've got the other one as backup. The girls doubled up in one bed, and the mother slept on the other one. It's a pretty dismal kind of sex in which one person's pain is the occasion for the other one's pleasure.

You can easily replace the damaged section with another one. The selected standard and size remains active until you select another one. More than one toolbar can be docked alongside another one in the same row. When the first cat died, we bought another one.

He collects ties, and rarely wears the same one twice. Practice different problems rather than doing the same one again and again – what you want to learn is the skill you apply to solve all sorts of problems, not just one. I cannot equate the doctor described in the article with the same one I know and respect.

One design is simple, the other slightly more advanced; you may choose either one to begin work. We, women, can be fickle-minded and can't really decide if we like guy A or guy B, but we can make it work with either one if we want to. We cannot say that either one is more important than the other.

{The Democratic Party has only two paths to follow from here. Neither one looks promising.} This is a bit of a difficult choice, because neither one is preferred strongly to the other. The European Union and the United States blamed each other, but in practice neither one is prepared to cut agricultural export subsidies on cotton straight away.

Just now Lang has published another book on algebraic numbers which, in my opinion, is still worse than the former one. I had another ultrasound scan, and compared this scan to the former one. He points out that the new programme is reduced in comparison with the former one by an amount of € 9.2 million.

The first case was referred to as terrorism, while the latter one was referred to as a violation of human rights. Johansen and Osborn noticed something curious: a bug in one extension often allowed them to hijack the

communications of a second extension, even when the latter one had no identifiable security flaws. {Other closed systems for storing thermal energy are Tank Thermal Energy Storage (TTES) or Pit Thermal Energy Storage. While the latter one can only be constructed underground, the former one can be constructed above ground as well.}

Choreography is the created tension in the opening of space between one step and the next one, between one gesture and the next one, between one glance and the next one. Every meeting ended with a plan for the next one. Today's crisis is no exception; nor will the next one be.

Geology has shaped the mountains as rocky personalities, each one with a unique profile, each one a new challenge. Support for the proposed change dropped with each one of these alternatives. If you have more than one activation key add each one separately.

You have no clue which one of your long-lost buddies you can trust and which one is trying to kill you. I look at a list of products and have no idea which one to pick. Advantages and disadvantages of each model are presented to help you decide which one best suits your needs.

The previous games don't influence the following ones. Among these measurements, the Government wants to quote only the following ones: ... You can almost always evade the first pothole, but not necessarily all the immediately following ones.

I checked out quite a few ones before ordering my medicine from them, and they do seem to be the best pharmacy in the industry. This company is one of few ones in Kosovo that produce also for the export markets. Most of the songs I have written alone, a few ones I and David wrote together, some I recorded alone and some with the band.

[Researchers found that people use a set of mental shortcuts for measuring danger. And they tend to do it unconsciously, meaning that instinct can play a much larger role than they realize. The world is full of risks, big and small. Ideally, these shortcuts help people figure out which ones to worry about and which to disregard.}

{What are the things we need the most? Which ones are nice, and which can we do without?}

4.6. Weiters kann das prop-word "one" bei Gegensätzen entfallen:

[Anyone who wished to become a good writer should endeavour, before he allows himself to be tempted by more showy qualities, to be direct, simple, brief, vigorous and lucid. This general principle may be translated into general rules in the domain of vocabulary as follows:

* Prefer the familiar word to the far-fetched.

* Prefer the concrete word to the abstract.

* Prefer the single word to the circumlocution.

* Prefer the short word to the long.

* Prefer the Saxon word to the Romance.}

(Sir Ernest Gowers: The Complete Plain Words, London 1957, p. 55)

Wir beginnen mit Beispielen für die beiden am häufigsten vorkommenden Gegensatzpaare (good ≠ bad und new ≠ old) und setzen dann fort mit weiteren Beispielen in alphabetischer Reihenfolge:

There are always men who want to make money in bad times as in **good**. In both good times and bad, the world loves an optimist. The good times outnumbered the bad. The quality of a relationship depends on the way two people treat each other, in good times and bad. We love and support each other in good times and bad. Good times breed bad, and vice versa. There are always men who want to make money in bad times as in good. Hitler had many reasons, good and bad, for holding back his panzers at Dunkirk. With security procedures growing exponentially, bad airport experiences seem to outnumber the good. While I admit his good points I can also see his bad. There were good days and bad, laughter and tears. I remember the good things as well as the bad. It's difficult to tell the good guys from the bad. I think it's really important to have friends or siblings, like I have in my sister, see every side of me, the good and the bad, and the part that nobody sees, and lift that up. He had already formed strong opinions about the chasms between good businesses and bad. It is often my lot to bring ill tidings and seldom good. (C. Doyle) We had good teachers and bad.

Here is where the old world meets the **new**. Only late in World War I was Woodrow Wilson finally forced to send a New World expeditionary force to rescue the Old. The new world [...] steps forth to the rescue and the liberation of the old. (W. Churchill) In many respects the new story is the same as the old. Is this the end of an old adventure, or is it the beginning of a new? The new one is an improvement on the old. Even the most radical and innovative thinkers, after pioneering new systems of thought, never completely break with the old. While striving to attract the notice and favour of his new masters, he must also retain the approval of his old. Every generation laughs at the old fashions, but follows religiously the new. (H. D. Thoreau) It was not an easy business, integrating old men with new. Lord Lucan's method of solving the problem was characteristic: the troops were to discontinue using the new drill and return to the old. It was inevitable that at one stage in this war the new ways of mechanized fighting would be pitted against the old. The new generation, he thought sadly, did not make love like the old. (Dorothy Sayers) According to Quincy Adams, providence had charged America with the task of making a new world, not reforming the old. Now the old life has ended, and the new begins. A farmer could see with his own eyes how much better the new seeds were than the old. Which is the better, the old version or the new?

All of these misconceptions help to estrange the so-called "pure" sciences from the **applied**. (Peter Medawar)

She issued a volley of instructions concerning the weekly exchange of soiled sheets for **clean**, the hours of hot water, the operation of the radiator ...

In hard times or **easy**, he never stopped thinking about ways to make money.

Water polo involves teams of seven swimmers trying to score goals using fair means and, not infrequently, **foul**. One man hurries to squander every penny he has, another hoards everything by fair means or foul. (Erasmus)

Napoleon had just scattered the Russians from Rheims with 6.000 enemy casualties and less than 700 **French**.

In today's world, if the global yield curve says one thing and America's says another, go will the **global**.

After the long journey by caravan, merchants had to go through each lot of spices to separate the **good** from the bad.

But, as Disraeli once said, "the **inferior** must go down before the superior race". In a paternal relationship, the superior party is more powerful than the inferior and is therefore able to provide protection, benefits or honors to the inferior party in exchange for obedience. If a society's hierarchy is inherited, the superior party has total ownership of the inferior.

"It's the first time I have ever been in the club," said Yeovil, "and I fancy it will be the **last**." (Saki)

His right leg is an inch shorter than his **left**. It's the ability not to let our right hand know what the left is doing. While most of the shots had been coming from the right side, this one had come from the left.

The illegitimate child has a very much worse chance of survival than the **legitimate**.

The attack upon Mr. Warren further shows that the enemy, whoever they are, are themselves not aware of the substitution of the female lodger for the **male**. (C. Doyle) There are fewer female politicians, scientists and creative artists in the Western world than there are male.

Unmanned missions are much less expensive than **manned**.

Time is the friend of the wonderful business, the enemy of the **mediocre**. (Warren Buffett)

Celibacy did not seem so ghastly a privation to the medieval mind as it does to the **modern**. {In addition comes the problem of the lack of contact between the old and the new women's organisations. The traditional ones do not understand feminism, and the modern have little respect for the old groups.}

We are better at remembering the good things we have done than the bad, and the positive attributes we possess rather than the **negative**. The positive outcomes outnumbered the negative four to one.

The inner wall was built of bricks, 12 ft high, with a row of iron spikes upon the top; the **outer** I had only caught a glimpse of once or twice.

Active verbs are more common than **passive** because we are accustomed to the actor – action – goal pattern of expression.

I felt adequately informed for the written examination although I made a terrible mess of the **practical**. (Peter Medawar)

The US spends 2.6% of its gross domestic product on tertiary education – 1.4% from private sources and 1.2% from **public**.

If the front tyres of your vehicle are significantly more worn than the **rear**, should you rotate them knowing that the rear are more critical for traction performance?

A survey found that poor people were much less likely to worry about nutrition than **rich**.

Homemakers were anxious to know whether they should have square sofa cushions or **round**. (Bill Bryson)

Comparing steeper than planned deliveries [hier: Bombenabwürfe aus Flugzeugen] against **shallow** reveals that being shallow results in nearly three times as large an error.

We were aware of the gap separating the written word from the **spoken**. One can claim it is more difficult to learn how to understand the spoken language than the written.

The weak man, the loser, could still sometimes triumph over the **strong**.

The observant reader soon loses faith in them [...] and the **unobservant** is the victim of false security.

That temperature change isn't drastic, just a couple of degrees, but it's enough to discourage hurricanes during the cold years and empower them during the **warm**.

The army crossed the eastern pontoon; the baggage train the **western**.

There are more black victims of violent crime than **white** in South Africa. There is much higher unemployment among black school leavers than white. In California in 2011, a black man was 11 times more likely than a white to be jailed for a marijuana felony.

I believe that for once the fellow is on the right track and we are on the **wrong**. (C. Doyle)

In der Regel wird nur ein "one/ones" (von zwei) ausgelassen, manchmal allerdings auch beide:

I don't think it's right to condemn the technology itself, which can be used for many purposes, **good** and **bad**.

The two worlds stood face to face: the **barbarian** and the **civilised**.

These two principles – the **collective** and the **individualist** – don't always sit comfortably together.

Both styles have their place in our lives – the **formal** and the **informal**.

The rain it raineth every day / upon the just and unjust fella / but mostly on the **just** because / the **unjust** has the just's umbrella. (Anonymous)

There are only two classes of pedestrians in these days of reckless motor traffic – the **quick** and the **dead**. (Lord Dewart)

{Very many accounts have come back to us, **verbal** and **written**, detailing the experiences of those who have passed on. The verbal are by trance mediums, whose utterances appear to be controlled by outside intelligences. The written from automatic writers whose script is produced in the same way.} (C. Doyle)

Es gibt aber auch Beispiele von Gegensätzen, wo "one/ones" verwendet wird:

On one side of the conference table are the people from my old life; on the other, those who represent my new one. "When I moved my office, the problem was that my old e-mail system was incompatible with my new one," she said. The new models sell twice as well as the old ones. How can one be sure that a new idea is valid, especially if the old one is apparently working? I recall fondly how that trip was the start to my journey of leaving my old business and launching my new one.

The law will separate bad non-governmental organisations from good ones. Is it a good quality or a bad one? (G. Greene) When you put down the good things you ought to have done, and leave out the bad ones you did – well, that's Memoirs. (Will Rogers) I regret my bad actions, you regret your good ones – that is the

difference between us. (O. Wilde) Disasters happen randomly, to good people as well as bad ones.

Big companies swallow little ones every day. The big ones ate the little ones. Their conscious motives were absolutely sincere, their subconscious ones were guilt and fear. He uses his energy in a destructive way rather than in a constructive one. We know of no human community which has a written language without a spoken one. The "gustatory cortex" helps guide the animal toward the right foods and away from the wrong ones. Never use a long word where a short one will do. (G. Orwell) Sometimes a smaller exhibition is better than a big one. Do female historians look at history through a different lens than male ones? U.S. policymakers increasingly viewed problems elsewhere in the world through a military lens rather than a diplomatic one. They have substituted illegal crops with legal ones. It is a shocking fact that a closer count was kept of livestock losses than of human ones.

Sogar Mischungen innerhalb eines einzigen Satzes gibt es:

Each wing [*hier: Geschwader*] had tough missions and easy ones, good leaders and bad, aggressive crews and timid ones. In one study, happy people were equally persuaded by a strong and a weak argument, whereas sad ones were only swayed by the strong.

4.7. Auch bei Vergleichen und Aufzählungen kann das prop-word "one" entfallen:

{It was called Deptford and lay on the Thames River about fifteen miles east of Pittstown, our country town and nearest big place. We had an official population of about five hundred, and the surrounding farms probably brought the district up to eight hundred souls. We had five churches: the Anglican, poor but believed to have some mysterious social supremacy; the Presbyterian, solvent and thought – chiefly by itself – to be intellectual; the Methodist, insolvent but fervent; the Baptist, insolvent and saved; the Roman Catholic, mysterious to most of us but clearly solvent, as it was frequently and, so we thought, quite needlessly repainted.} (Robertson Davies)
There are three varieties of Dachshunds, the long-haired, the wire-haired, and the smooth-haired.
The Germans were fighting on four fronts, the Eastern, Western, Southern and Home. On a long run, the faster runners move toward the front as the lame, tired and out-of-condition fall back.
We want to hear your stories, the good, the bad and especially the surprising about self-isolation and social distancing.

Es folgen Beispiele für "right" und "left"; man vergleiche sie mit den Einträgen unter "left" im Absatz 4.6. und wird sehen, dass die Zuordnung (Aufzählung oder Gegensatz?) manchmal Interpretations-Sache ist:

I have two doctors, my left leg and my right. (French adage) I gladly accepted her advice and henceforth she became my right hand as well as my left. (Peter Medawar) My policeman shone his torch ahead with his left hand, and carried his gun in his right. (G. Greene).The airplane touched smoothly down on its right wheel, then its left, and last of all, the nose wheel. I have lost all useful function in my right hand and a lot of the function in my left. In this experiment, a circle was presented on the left side of a computer screen and a box was presented on the right. First the current drives you on to the right bank, and then on to the left. She tugged at me with her left hand, while she held a candle in her right. (C. Doyle) He was waving with his left hand and drinking with his right.

Only the other day a well-known author made the Volga flow into the Black Sea instead of the Caspian. (Saki)

We remember such schools of chess creativity as the romantic and the positional.

The judge is not expected to hang the criminal with his own hands, as he would be if the legal profession were as unorganized as the medical. (G. B. Shaw)

There are actually four different definitions to what we see as the North and South Pole – the geographic pole, the magnetic pole, the geomagnetic pole and the pole of inaccessibility – but the geographic, where all lines of latitude convene, is the one to visit.

Hormonally, the mature male brain is becoming more like the female.

What is so breathtaking about the phenomenon of synchrony is that it occurs at every scale of nature, from the subatomic to the cosmic.

Es funktioniert aber auch mit "one/ones":

Some clubs had almost as many Scottish players as English ones. The British aircraft industry in 1940 was in fact more productive than the German one. The battle of Okinawa claimed 50,000 American lives and 100,000 Japanese ones. The Persian fleet [at Salamis] was five times larger than the Athenian one. To the satirical stage Nestroy is what Shakespeare is to the dramatic one. Two bathing dresses, a scarlet one and a dark blue one, were hanging from the balcony, drying in the sun. There are two problems in my life: the political ones are insoluble and the economic ones are incomprehensible. (Sir Alec Douglas-Home) For the Nazis the Luftwaffe was as much a political weapon as a military one. Red fruits are, on average, sweeter than green ones, and it doesn't take long for kids to start preferring red foods to green ones.

Sogar eine Mischung ist möglich innerhalb eines einzigen Satzes / Kontexts:

There were pink hollyhocks and red ones, but there were no blue amongst them. (A. Christie) {I only had three pairs [of shoes] in the world – the new brown, the old black and the patent leathers which I am wearing. Last night they took one of my brown ones, and today they have sneaked one of the black.} (C. Doyle) {The Manor House, with its many gables and its small diamond-paned windows, was still much as the builder had left it in the early seventeenth century. Of the double moats which had guarded its more warlike predecessor, the outer had been allowed to dry up, and served the humble function of a kitchen garden. The inner one was still there, and lay forty feet in breadth, though now only a few feet in depth, round the whole house.} (C. Doyle)

Die Trennlinie zwischen und "Gegensatz" (4.6) und "Vergleich / Aufzählung" (4.7.) ist nicht immer klar zu ziehen, man vergleiche z.B. die Einträge für "right / left" in beiden Abschnitten. Es folgen Sätze, die man (nach Ansicht des Verfassers) sowohl zu 4.6 als auch zu 4.7. rechnen könnte:

They reclined side by side, one in green bikini pants and one in yellow. She was born with one green eye and one brown. {Even if scientists agree that race is, at most, a social construct, any cursory search of the internet reveals that the broader public is not convinced of this. After all, if an Asian person looks so different from a European, how could they *not* be from distinct groups?} According to historians, pandemics typically have two types of endings: the medical, when the incidence and death rates plummet, and the social, when the fear wanes. And what was true of the official world was true also of the commercial. (G. Orwell) All the girls came to church – evening service as well as morning. (A. Christie) In the old Soviet bloc, communism was the political system and

socialism the economic. There is one in the Southern Hemisphere and another in the Northern. The war games pitted the Blue Army against the Red. You will observe, Watson, the alternative use of the long 's' and the short. (C. Doyle) An unexpected affection, partly for the medieval place, partly for the modern, had slid its way into my heart. *Who* is the subjective case and *whom* the objective. (Sir Ernest Gowers)

Einleitend stehen Beispiele mit drei oder mehr solcher Nomen in einem Satz:

Always I hear the self-righteous, the arrogant, the mighty, the haughty, the privileged, the lucky decrying even the smallest of our gifts. The old, the sick and the poor will remain behind. Abstract art: a product of the untalented sold by the unprincipled to the utterly bewildered. (Al Capp) Jesus helped the poor, the needy, the weak and the down-trodden. Those that remained were the less enterprising, the conservative, the unmaterialistic, the cautious and the contented. Keynes thought that unfettered capitalism, by favouring the already wealthy, the greedy, the sly and the unscrupulous, only leads to an ever-increasing concentration of wealth. "Fits" characterised the mad, the damned, the possessed and the holy. The troubled, the hopeless, the poor, the deprived, the rural and the damned are of greater educational need, yet the public system that is obligated to school them is provided lesser resources with which to do so. {No demographic is left unprotected. Indeed, from across all spectrums — the unknown and the well-known, the well-off and the poor, the paranoid and the pretentious, the intelligent and the idiotic — "Who Is America?" reveals people to be utter dunces.} {Last week I was in Iraq and an Iraqi said to me: 'You've got to see ISIS in Iraq like this: it's the good, the bad and the ugly.' The good are the Sunni tribesmen, rising up against the sectarian Government in Baghdad, the bad are the foreign jihadis, and the ugly are people from the former Ba'athist regime whom my regiment fought in the first gulf war.} The young and ambitious flee the towns, leaving behind the elderly, the incapable and the drunk. Only the shortsighted, the stupid, the coddled, and the unprepared would turn against it. Let Britain stand up for the displaced, the persecuted and the oppressed. It was the poor, the black and the oppressed who missed Robert Kennedy the most. God is present when and where the oppressed are liberated, the sick are healed, the outcast are invited in. Hornblower thought about the rich, and the great, and the powerful, who frequented courts, and knew he would be out of place there. The Queen now gives higher priority to events involving ordinary people, including the sick, the homeless and the underprivileged. The parasite is dangerous to the undernourished, weak or very young. The old believe everything, the middle-aged suspect everything, the young know everything. (O. Wilde) Titles distinguish the mediocre, embarrass the superior, and are disgraced by the inferior. (G. B. Shaw) The next House of Commons will be composed of the usual blend of the high-minded and the low-motivated, the idealistic and the cynical, the decent at heart and the grubby of hand. Vast throngs of people, the young, the old, the brash, the solemn and the bland packed the avenues and main streets in a celebration of Earth Day. The space program claims the lives of our best, brightest and bravest. The meek and humble suffer, while the bold and unscrupulous flourish. History keeps memorials of the great, the saintly or the vicious. In many ways, Pythagoras preferred the ignorant to the learned and great. {Adventures, according to the proverb, are to the adventurous. Quite as often they are to the non-adventurous, to the retiring, to the constitutionally timid.} The weak and feeble were at the mercy of the strong and ruffianly. Women are expected to care for the young, the sick and the old. We the unwilling led by the unknowing are doing the impossible for the ungrateful. (Bumper sticker) How often he asked the leaders of nations to pay more and more concrete attention to the people for whom they were responsible, especially the weakest, *the lowliest* and the poorest! {The author was influenced by

a statement a teacher made in his classroom: "There are three kinds of people in the world - the satisfied, the dissatisfied, and the unsatisfied. The satisfied don't do anything, the dissatisfied are always complaining, and the unsatisfied are the ones who get the work done."} Fiction preaches that violence is acceptable only under defined circumstances – to protect the good and the weak from the bad and the strong. We the unwilling led by the unknowing are doing the impossible for the ungrateful. (Bumper sticker)

The able-bodied would have to walk.

Most of the accused never go to court. The accused are almost certain to appeal. The accused were eventually hanged. The accused are unlikely to get a fair hearing. The accused deserve exemplary punishment.

We also cater for the more adventurous and organize Jeep Safaris to certain locations. These were magical places, discovered only by the adventurous.

The divide between the affluent and those in need grows daily. The traditional high-profit consumer market consisted of the affluent.

The skies are not for the most powerful or the most aggressive, they are for everyone.

Other selfish traits of the alcoholic are their seeming to want to hog all the attention when they are 'socialising'. Experiencing their own pain helps the alcoholic hit an emotional bottom and hopefully start recovery!

Opportunities like this are like gold dust for the ambitious among us. In large part, the regime of a city dictates the channels through which the ambitious will seek to rise. (Machiavelli)

Both the overweight and the anorexic have distorted body images in both extremes of the weight-spectrum. The anorexic are usually good students.

The newly arrived today can be divided into two camps.

Even the mighty and the arrogant must finally succumb to God's will.

The politically astute know that the art of governing is easy to talk about but difficult to perform.

Every single wall was an impediment to the assailants, and a rampart for the attacked.

Why is it more acceptable to sneer at the attractive but idiotic than to sneer at the intelligent but ugly? When submitting work the attractive will be praised for average work and the unattractive will have to submit a high standard to get the same level of praise. The logic of the human race is that the attractive will breed together whilst the unattractive die out.

Such is the law of the exploiters – to beat the backward and the weak.

The best of men cannot suspend their fate: the good die early, and the bad die late. (D. Defoe)) I don't think now that people can be divided into the good and the bad as though they were two separate races or creations. (O. Wilde)

The innocent and the beautiful have no enemy but time. (W. B. Yates)

The world sympathizes with the bereaved in the Virginia Tech killings. People offer their condolences at the cemetery when the bereaved are standing in a line after the burial.

The besieged were led by a soldier and a clergyman.

Only the best succeed. London lures the brightest and best. The best and brightest in Washington didn't always know what they were doing.

The new wealth [in Uganda] has favoured the better-off, while the poorest 20 per cent have become poorer.

Abstract art: a product of the untalented sold by the unprincipled to the utterly bewildered. (Al Capp)

He plays on a baseball team for the blind. Kindness is a language which the deaf can hear and the blind can read. (Mark Twain) In the country of the blind the one-eyed man is king. (Erasmus)

Fortune favours the bold (Audentes fortuna iuvat).

Punctuality is the virtue of the bored. (Evelyn Waugh)

The future does not belong to the faint-hearted; it belongs to the brave. (Ronald Reagan, 1986) Fortune indeed favours the brave. Standing ovations await the brave. The gods are kind to the brave. Only the brave or the foolhardy would attempt that. They were, as parliament recently acknowledged, the bravest of the brave.

Wall Street used to be the place where the best and brightest came and earned more than anywhere else. The brightest and the best want to be in medicine or the hi-tech industries. London lures the brightest and best. The best and brightest in Washington didn't always know what they were doing. The children were subjected to tests intended to divide the bright from the comparatively dull.

Granny told me that the souls of the buried are still lurking around.

Most of the captured had never seen a white man, had never seen the ocean, had never left their families before, and were in shock.

There are many traps for the careless.

The cautious know that it is impossible to be in firm control.

It be difficult to tell the cheaters from the cheated.

In Florence the chic and beautiful swarm in jewels and fur. Heroin is the choice of the chic as well as the junkies.

These cubicles are not for the claustrophobic.

If we create a nation of Yes people and banish the non-compliant to low-paid jobs or unemployment, our reputation for innovation will soon end.

The condemned were packed into a large waiting room. The condemned were photographed before execution. Large white posters bearing the names and crimes of the condemned were pasted in public places across the country. Many of the condemned were soon released. The condemned were all hanged.

The conquered and the conquerors must have understood each other.

For the health-conscious, he offers high-fibre mixtures such as oat rice.

Walt Disney enjoyed being a hero to the culturally conservative. The conservative are angry because the corporations are going for corporative interests rather than conservative interests.

The contented have time to worry about trivialities; often to the extent that they never achieve anything worthwhile. (Jules Eckert Goodman)

A number of popular critics have suggested the obvious: that this film will only be seen by old lefties and therefore merely preaches to the converted.

The "Innocence Project" works to free the wrongly convicted.

Such phrases are rarely perceived as erroneous except by the hyper-correct.

The party has to be cleansed of the corrupt. The new economy has favoured the quick and the corrupt.

Heaven may be a fantasy for the credulous.

The iron and coal valleys were no resorts for the leisured or the cultivated. (C. Doyle)

The curious can check out the stereoscopic version on Blu-ray. Those looking to simply cool off can take a dip in the natural pool, while the more curious can hire scuba gear to explore the submerged rock formations and aquatic life found further below. The theatrically curious will have a chance to see early glimpses of some new experimental plays at the fourth annual Prelude festival, Sept. 27 to 30.

At the entrance to the Underworld proper in most religions there is a trial of sorts, in which the damned are separated from the not-so-bad. Hell is gone, but the damned have been let loose among us.

Two men walked behind the cart, picking up the dead from the streets. On the third day after his death on the cross Jesus rose from the dead. The dead outnumbered the living. In some societies the burial of the dead has been accompanied by human sacrifice. Let the dead rest in peace. It would be hard to find an easier way to save lives than by taking more organs from the dead. The Soviet dead of the Second World War amounted to 19, 014 a day every day between 22 June 1941 and 11 May 1945. Memorial Day has become a day on which the dead of all wars and all other dead are remembered the same way. The sight of the dead shocked him. Several days elapsed before the mutilated dead could be brought in and buried. I hear the shells bursting among the trees, see the dead scattered on the ground.

He went to a school for the deaf. There is no programme designed specifically for the deaf. His early paintings featured the sign language of the deaf. Kindness is a language which the deaf can hear and the blind can read. (Mark Twain) A remarkable sign language has been developed for use by the deaf. They met in a church camp for the deaf.

We're here to mourn the deceased. They keep basic records of the deceased. Some hold conversations with the deceased.

Gerhard Schröder, Mrs Merkel's predecessor as chancellor, has called for an "uprising of the decent". {They make it clear that the vast majority of Germans want to live in a cosmopolitan, tolerant country and that those who

share another ideology are a minority that is louder than you wish. But then the chorus of the decent must simply be louder than it has been before.} A coalition of the decent must arise and wash this filthy cabal away.

Their esprit de corps meant that only the dedicated were welcome.

They chose their victims from among the most defenceless. Our neglect of these obligations increases the suffering of the innocent and defenceless. (Jimmy Carter)

{Rugby is a game for the mentally deficient. That is why it was invented by the British. Who else but an Englishman could invent an oval ball?} (Peter Pook)

{It's a change in thinking after being told for many, many years that the more conservative side of the spectrum must continually tolerate and give way to all manner of degeneracy. This doesn't mean that the degenerate can't speak their minds, but ...} A most important factor is heredity; the families of the degenerate are apt to be afflicted with various forms of nervous disorder, such as alcoholism, insanity, idiocy, paralysis, or epilepsy.

On the other hand, there are the simply deluded: despite evidence to the contrary they believe they are considerably more intelligent than they are.

The demented wandered about, but other patients looked out for them.

Let us pray for the souls of the departed. These days the departed are more present than ever. There is an assisted living facility and a graveyard for the departed.

It used to be the migration of the hopeful, now it is the migration of the despairing.

There was a lot of money to be made from the desperate and gullible.

The rich and powerful cannot ignore the voices of the destitute and the disenfranchised.

You will never be able to stop the determined. These considerations alone would have deterred all but the most determined.

The deprived are taking matters into their own hands. The most socially and economically deprived have up to 10 times greater alcohol-related mortality and admissions to hospital.

He's told his story to the desperate in cancer support groups around North America and used it to sell natural health products.

Too often the newly destitute end up on the streets.

It was enough to rattle the faith of even the most devout.

The plan is meant to help the disabled and elderly. Society heavily stigmatizes the disabled.

He later became a prominent spokesman in China for people with physical disabilities, and he still has an active role in supporting the disadvantaged. In Bangladesh, women constitute the majority of the poor, the underemployed and the economically and socially disadvantaged. That's bad news for the socially disadvantaged. At the time, Adolf Hitler ruled Germany and had instigated systematic persecution of Jews, gays, gypsies, the mentally and physically disadvantaged, as well as political and religious dissidents (such as Jehovah's witnesses).

At times the protests in Bangkok could be described as flash mobs of the disaffected. The party has already begun to address issues important to the disaffected. The disaffected on the left believe her budget cuts were a betrayal of her election promises.

They didn't know where the disappeared were and what had been done to them. "Missing" (1982), a big budget, big star movie, brought the horror of the disappeared in 1970s Latin America to a huge US audience. We don't get any news of the disappeared. The relatives of the disappeared are speaking of their loved ones for the first time. The last of the disappeared remained alive.

Only the discerning know the value of hand made. After all, wisdom is not readily apparent – or we would not call it "wisdom" – but the discerning know it as the revelation of God.

Sometimes, you have to follow the discontent. Where will the discontent go next?

The ranks of the disenfranchised are growing.

For Al Gore, the disenfranchised are middle-class parents having trouble paying their kids' college loans. The disenfranchised have a lot more power than they think.

{Give a chance to the dishonest to be honest with grace. It will work!} Secondly it provides an opportunity to the dishonest to earn easy money. The problem is that the dishonest are never punished to the full extent of the law.

\$100 is a fortune in a region where the disinherited survive on less than one dollar a day.

This chapter examines the notion that a library could be a "site of horror for the dyslexic".

Finding new houses for the dislocated is the most immediate challenge. {We have reached a point where large economic restructuring is necessary. Restructuring creates dislocations. Providing help to the dislocated can shorten the time needed to restructure and create more wealth in the system.} The dislocated must fight for whatever little public and private assistance they can obtain to begin life anew.

The displaced carry their sadness with them. The displaced often become the forgotten people. Aid agencies have started providing humanitarian assistance to the displaced. He has been a powerful friend to the displaced and downtrodden.

That is what happened with the debate over the divorced and remarried: the German bishops sought a formal path for remarried Catholics to receive the Eucharist.

Smoke alarms and reading glasses were once thought of as solely for the dodderly. [*Dodderly = doddering = "tattering, senil"*] Certain users obviously had difficulty negotiating the steep steps in the middle, whilst the sloping floor at the front [of the bus] made the exit much easier for the dodderly and mums with young children. Access to the island platform for the dodderly was a little problematical at times.

Outnumbered, they fought with the desperation of the doomed.

Rent-a-Center and Aaron Rents lease appliances and furniture to the down and out. As a result, Mr Legrand says, shelter is no longer a problem just for the down and out. She ran two rooming houses in Lackawanna, N.Y., along Lake Erie, opening their doors to the down and out.

The majority of the down-trodden are non-white. Sympathy for the underdog meant sympathy for the down-trodden. He has been a powerful friend to the displaced and downtrodden.

The laws of this country protect both the drunk and the sober. This is Halloween, and the drunkest of the drunk are back. In a drunken world, only the drunk are sober. (Alexandria Manzano)

The children were subjected to tests intended to divide the bright from the comparatively dull.

Only the dumb can't understand that. The dumb can't tell the deaf that they are missing out on information. The dumb always pay the highest price.

Live music comforts the dying in hospice. I went to talk to doctors whose working lives are with the dying. Around them they heard the shrieks and screams of the injured and the dying.

The educated had access to such information. Those who have left include the citizens the country needs most – the talented and the educated. The educated were all killed. The risk factors are more common among the less educated. The poorly educated are not so lucky. It's easier for the college-educated to get married and stay married. The better educated are seeking opportunity elsewhere.

She spends her afternoons checking on the elderly and the sick and dispensing preventive medical advice to the healthy. We admire the resilience of the elderly. Where is the respect for the elderly? The elderly have a lot more buying power. Respect for the elderly here comes naturally. Loneliness among the elderly is certainly a massive problem. One of the diseases endemic among the elderly was rheumatism. In public transport etiquette, should the elderly get up for the pregnant? The House of Lords is a model for how to care for the elderly. (Quentin Crisp)

The elderly and the chronically ill will find that their insurance company does not give them much insurance at all. The sweltering heat could be deadly to the sick and elderly.

We are a free-market nation, though the electors and the elected sometimes forget it.

The gap between the employed and the unemployed widens.

The enslaved and indentured were shipped across the globe to work on plantations.

The enterprising have found clients, investors, employees and employers in the oddest of settings – chance meetings on the subway, supermarket checkout lines or even after a fender-bending collision.

It is a way to reduce the social isolation experienced by the socially excluded. Charities supply a range of services to help the socially excluded.

The liberation of the exploited is tied to the struggle against imperialism.

It's not a place for the faint of the heart.

This is not an experience for the faint-hearted. The future does not belong to the faint-hearted; it belongs to the brave. (Ronald Reagan, 1986) The faint-hearted might tremble at such a prospect. Journalism never was, and never will be, a profession for the faint-hearted.

The faithful are keeping vigil. This it is a place of pilgrimage and prayer, which attracts not only the faithful but also travelers from all over the world. The bells called the faithful to prayer. The fervour of the faithful grows with every day their leader evades capture. When the muezzin calls the faithful to prayer, everything stops.

The stream was coloured red from the blood of the fallen. World War II has to be remembered forever to pay tribute to the fallen and make sure this will never happen again. The Taliban rarely left the bodies of the fallen on the battlefield.

Books by the famous make money. Flying the oceans was still mostly for the rich and famous.

This idea can only survive among the fanatical and the ignorant.

For the ultra-rich few, Britain is now a virtual tax haven. It should work for all of us, not just the well-connected few. Democracy substitutes election by the incompetent many for appointment of the corrupt few. (O. Wilde) For me, the rights of the few do not trump the standards of the many.

Moses gives the Israelites, and therefore us, further explanation why all the firstborn are to be consecrated to the Lord. The firstborn are always the ones to ascend to the throne.

Only the brave or the foolhardy would attempt that. Only the foolhardy would take this as a chance. He laid down set hours for writing in which only the foolhardy would telephone or knock on his door.

Education: That which discloses from the wise, and disguises from the foolish, their lack of understanding. (A. Bierce)

I was raised to believe that America was the land of the free.

Life peers are drawn largely from the ranks of the great and the good. The great and the good were there, even the President. As one reads history one is absolutely sickened, not by the crimes that the wicked have committed, but by the punishments that the good have inflicted. (O. Wilde) Heaven: A place where the wicked cease from troubling you with talk of their personal affairs, and the good listen with attention while you expound your own. (A. Bierce) The best of men cannot suspend their fate: the good die early, and the bad die late. (D. Defoe) I don't think now that people can be divided into the good and the bad as though they were two separate races or creations. (O. Wilde)

Governments derive their just power from the consent of the governed. British imperialism had long justified itself with the pretense that it was conducted for the benefit of the governed. The best way to change a government is to change the minds of the governed. That to secure these rights, governments are instituted

among men, deriving their just powers from the consent of the governed. (From: [American] Declaration of Independence, 1776)

It was a pretty awesome experience to be out there, walking through those doors, being where the great have been. Would you put him among the really great?

The greedy will always want more.

We want to punish the guilty. The hands of the guilty don't necessarily tremble. (G. Greene) The world is faced with the task of bringing the guilty to justice. Which is worse: allowing the innocent to be punished or letting the guilty go free? Anonymity can protect the innocent as well as the guilty.

Only the gullible can believe Ed's or any other politician's copywritten slogans. Links used to direct the gullible to a site selling counterfeits. No matter what marketers might lead the gullible to believe, pores cannot be shrunk permanently.

The handicapped need more job opportunities.

The only happy are the wise. Learn what the happy know that you don't. Bavaria is the planet of the happy.

The strong must not crush the weak, the haughty must not oppress the humble.

We do not have enough for the healthy, let alone for the sick.

Though not overweight myself, I have a great deal of sympathy for the heavysset. Even very thin people can have comparatively deep-set bellybuttons, while the heavysset can sometimes have very prominent navels.

By converting the naturally helpful into the excessively patriotic, a dictator can easily persuade them to kill strangers.

They provide a shelter for the helpless. A society made of sentiments and popular appeals ends by oppressing the helpless or the unappealing. Manfred's determination to defend and preserve the helpless never wavers.

Humour can incite clumsy reactions from your opponents – the high and mighty can't take a joke.

What the majority of the homeless want more than anything else is jobs.

The military's adverse policies regarding treatment of the homosexual are steeped in history.

Only the hopeful will survive in this hell. It used to be the migration of the hopeful, now it is the migration of the despairing.

The city centre is crowded with the hopeless and the homeless.

Blessed are the humble, for they shall inherit the earth. (Mathew 5:5)

The humiliated have long memories.

They never turn away the hungry. After the earthquake the hungry and the homeless looted grocery stores. We can feed the hungry and clothe the naked. The numbers of the hungry are growing. There will be more uprisings of the hungry and dispossessed. She had bread for the hungry, clothes for the naked, and kind words for every sick person.

Almost overnight, the hunters had become the hunted.

When advice is given to the idiotic, will it make any impression? Only the ignorant and the idiotic will assume that government and the medical establishment alone can protect them from another version of that global plague.

"The Virginia Company had sent the idle to teach the idle," he wrote in "American Slavery, American Freedom," describing the doomed Jamestown colony. Tourists and the idle gawked, while pickpockets and cut-purses swarmed.

He was criticised by the ignorant. That is a black hole for the ignorant to fall into. Only the ignorant and the idiotic will assume that government and the medical establishment alone can protect them from another version of that global plague. The court ruled that it was "a clear case of exploitation of the ignorant".

The mentally ill are socially disadvantaged. The law bans minors and the mentally ill from owning guns. It is not just the long-term mentally ill who suffer. Ten patients died in a fire at a home for the mentally ill in Siberia. Do we really want to take away from the terminally ill that last gasp of control over their own lives? Paul worked in a hospice where he sat among the terminally ill and watched them die. The terminally ill have no constitutional right to physician-assisted suicide. The terminally ill are forced to linger on beyond what they can bear. The drugs were administered to the most severely ill. For the seriously ill, the chances of surviving may depend on leaving Haiti entirely. Should doctors abandon the critically ill? The mortally ill get plentiful pain killers. Pensioners and the chronically ill receive major concessions. The elderly and the chronically ill will find that their insurance company does not give them much insurance at all.

The point is that if the illegal can't find work and can't get government welfare they will go back to their countries.

I'd like to work with the visually impaired.

Once the impoverished were scattered over the countryside, now they are in the big cities.

By the late 1840s most workhouses outside London and the larger provincial towns housed only "the incapable, elderly and sick".

There is a saying that violence is the last resort of the incompetent.

The rise in interest rates could break the financial backs of the severely indebted.

The enslaved and indentured were shipped across the globe to work on plantations.

The special effects were dramatic enough for the inexperienced. With the ignorance of the inexperienced, all I could see was a grand adventure.

According to the principles of evolution, the more powerful must always win while the inferior are eliminated. The inferior must believe themselves superior.

Thus resolved, they wrap their faces in scarves and seek to fight the infidel. To many Muslims, it seemed that Kashmir had fallen under the thumb of the infidel.

The gap between the scientifically informed and misinformed continues to grow.

The injured were taken to hospitals. Xi Jinping, the Chinese president, "urged all-out efforts to save the injured and minimize casualties". Rescue services arrived to tend to the injured. {All phases of care of the spinal cord injured are covered. The book is well written and indexed so the reader can rapidly turn to the desired chapter.} Around them they heard the shrieks and screams of the injured and the dying.

It was the popular image of London's streets filled with serial killers who stalked the innocent and struck at the unwary for no reason. In war there is no glory in the deaths of the innocent. The innocent are scorned and despised. As always, it is the innocent who die. Which is worse: allowing the innocent to be punished or letting the guilty go free? Anonymity can protect the innocent as well as the guilty. Our neglect of these obligations increases the suffering of the innocent and defenceless. (Jimmy Carter)

Broadmoor was a hospital for the criminally insane. But only the insane actually do it. The only authentic community he found was among the insane.

Luck has a way of favouring the intelligent and showing its back to the stupid. (John Dewey) The trouble with the world is that the stupid are cocksure and the intelligent full of doubt. (Bertrand Russell)

To date orphans, children and the invalid have received these allowances in addition to their monthly disbursements for March. {The old and the invalid have the choice of staying or moving out. If they stay, they have a further three choices.} By 1856 the aged and the invalid were housed in the Imperial Depot at Impression Bay, the General Hospital in Hobart and in the Cornwall Hospital in Launceston.

We will not rescue the unscrupulous or irresponsible.

Benedict ended the dispute by issuing a bull, *Benedictus Deus* (1336), in which he formulated the church's teaching that the souls of the just are granted the vision immediately after death. The reading, from the Apocryphal Book of Wisdom, says that the "souls of the just are in the hand of God, and no torment shall touch them".

The majority of the killed were women. Officials have said that at least two of the killed were lecturers at the Alberoni University. Colonel Weedon of the 22nd Alabama, a very gallant officer, was among the killed on that day. After that came a long newspaper story about how a miners' camp had been attacked by Apache Indians, and there was my Frank's name among the killed. (C. Doyle)

Mr. da Silva has contributed to raising the expectations of the landless.

The iron and coal valleys were no resorts for the leisured or the cultivated. (C. Doyle)

A year ago, the young and the liberal were set on leaving, according to polls and political conversation, but the thinking changed over the winter when tens of thousands demonstrated, first in favor of free elections, then against President Vladimir Putin.

For the living know that they will die, but the dead know nothing; they have no further reward, and even their name is forgotten. (Ecclesiastes 9:5) Too many teachers love the dead more than the living. We wondered if we were still in the land of the living. Cemeteries, after all, are for the living. So our thoughts turn from the dead to the living. Literature was read by the living, he wrote, not by the dead.

My line of work means that the only ones I meet are the misfits, the lonely, the sad.

The despair of the lost was in his eyes. Jesus tells us of things and people who were lost, he also tells us how they were found and how even the angels sang with joy when the lost were found.

Being an introvert can feel taxing – especially in America, land of the loud and home of the talkative.

I would start my career as the lowliest of the low.

Administrative tasks would be delegated to the luckless.

The unlucky believe that the world is full of evil and is conspiring to do them harm, but the lucky see the world full of benevolence and planning to do them good.

The mad are mad because their behaviour isn't like a sane person's. The mad are unpredictable, irrational and potentially violent.

The manipulative prevail; the hopeful and decent merely subsist.

The actions of a few do not tarnish the good work of the many. Democracy substitutes election by the incompetent many for appointment of the corrupt few. (O. Wilde). For me, the rights of the few do not trump the standards of the many.

The marginalized have only a weak voice in shaping political decisions affecting their lives. The call was for a coalition of the marginalized and the working classes. The Church helps the marginalized.

The unhappily married had higher daytime blood pressure.

Poking and prodding and provoking the materialistic can be great fun, and even better, it's all for a worthy cause.

Blessed are the meek: for they shall inherit the earth. (Matthew 5:5) Only the meek are blessed, not the pugnacious. (Erasmus)

If the middle aged are the biggest, richest and most influential segment of the population, why do so many middle aged women report feeling marginalized by society? Cosmetic surgery used to be confined to the middle-aged and the privileged.

{The mighty and the splendid have taught me little. I have learned more from my dog than from all the great books I have read.} Even the mightiest are sometimes ignored. People like to see the mighty humbled.

The gap between the scientifically informed and misinformed continues to grow.

The missing are all presumed dead. My husband was not among the missing. One of the missing made it home; the other three were dead.

The distinctive politics of the moderate are characterized by rhetorical ambivalence. The moderate are not usually the most sincere, for the same circumspection which makes them moderate makes them likewise retentive of what could give offence. (W. S. Landor)

Most of the murdered were also murderers. The Vietnamese were also building an ossuary, a memorial to the murdered. I'm here to say I'm on the side of the murdered.

Only the most naive believe that a child's academic performance is a simple function of his innate ability.

We can feed the hungry and clothe the naked. She had bread for the hungry, clothes for the naked, and kind words for every sick person.

The money is directed to the needy. They demand better health care for the needy. The money would be distributed by priests to the needy on St Stephen's Day.

Even for the quick and the nimble, driving in Rome has never been anything but a chore.

It will perhaps make it easier for the obese to lose weight. So-called "enhanced" annuities are for smokers and the obese. More recent studies have found that the obese, particularly white women, are paid less. For years, the advice to the overweight and obese has been that we simply need to eat less and exercise more.

Some readers choose classic authors, while others opt for the obscure.

Increased spending on health care has tended to benefit the old, who use the NHS more than the young. Only the old and the very young were left in the villages. Deep down the young are lonelier than the old. Support for the old and sick has dwindled. What is cowardice in the young is wisdom in the old. Throughout most of American history, the old were the poorest age group in the population. The young have aspirations that never come to pass, the old have reminiscences of what never happened. (Saki) Of course, the old have always complained about the young.

According to Karl Marx, the social function of religion is to distract the oppressed from the truth of their oppression. Robin Hood became a champion of the oppressed. Gossip is the opiate of the oppressed. (Erica Jong) Freedom is never voluntarily given by the oppressor; it must be demanded by the oppressed. (M. L. King) There was a gulf between the teachers and the taught, the oppressors and the oppressed.

Be like Christ: identify with the outcast. God is present when and where the oppressed are liberated, the sick are healed, the outcast are invited in. The outcast are welcomed into God's kingdom first.

These results might not apply to the overweight. No, it won't help the overweight shed pounds. The social opprobrium dished onto the overweight is relentless. He is also said to have followed online content demeaning women, the religious and the overweight. For years, the advice to the overweight and obese has been that we simply need to eat less and exercise more.

We live in the age of the overworked, and the under-educated. (O. Wilde)

"Only the paranoid survive," he insists.

It is the chosen spot, on which the patriotic must take their stand in defense of the institutions and liberty of the country.

It is not the perfect but the imperfect who have need of love. (O. Wilde)

It was this faith which sustained the persecuted and the martyred during the strenuous and dangerous first three Christian centuries. The powerful were now the persecuted. The Jewish state was founded as paradise for the persecuted.

Even for the pious, money talks. Rituals and fasting were for the pious. But it was supposed by the pious to be a sacrifice for the greater good.

Manners are especially the need of the plain; the pretty can get away with anything. (Evelyn Waugh)

The poor will suffer the most. The U.S. is not on the side of the poor and downtrodden. The poorest in society have even less freedom. Many of the poorest live in tiny shacks. Budgetary troubles meant home construction was delayed, pushing some of the poor to join the demonstrations. There is one law for the rich and another for the poor. Distance: The only thing that the rich are willing for the poor to call theirs and keep. (A. Bierce)

In many cases, exorcisms often entail vomiting, cursing and violent outbursts by the possessed. It has been noted that women constitute the majority of the possessed.

Mr. Lewis moved easily among the powerful. Free trade increases the profits of the powerful and pushes the weak out of the market. He liked the company of the powerful and the famous. Wealth is concentrated in the hands of the rich and powerful. The powerful were now the persecuted. In that fear was included the hostility of the powerless against the powerful. Even the most powerful cannot rule without the cooperation of the ruled. (M. Gandhi) Our criminal justice system comforts the powerful and afflicts the powerless. His priority was protecting the powerless from the powerful.

At times there is no one more powerful than the powerless. In that fear was included the hostility of the powerless against the powerful. Our criminal justice system comforts the powerful and afflicts the powerless. His priority was protecting the powerless from the powerful.

In public transport etiquette, should the elderly get up for the pregnant?

Chance favours the prepared.

Photography books are traditionally the preserve of the pretentious. It's a rest home for the overprivileged and the pretentious. To some listeners, it became less a programme for lively minds than a refuge for the pretentious.

Manners are especially the need of the plain; the pretty can get away with anything. (Evelyn Waugh)

And every time a new life saving test, treatment or vaccine has been developed, wealthy nations and the privileged have gained access while the poor and marginalized have been excluded. Under this Government it's an economy of the privileged, by the privileged, for the privileged.

But after insisting for so long that the profligate must pay for their sins, Ms. Merkel will need political cover from her fellow leaders.

For the seasick-prone, the train is an alternative. The patch lasts three days, making it convenient for the seasick-prone on a Caribbean cruise.

In his hometown he was in the circle of the prosperous and respected.

Only the meek are blessed, not the pugnacious. (Erasmus)

All but the most puritanical would admire your initiative.

The brave new economies that have sprung up from Kiev to Kyrgyzstan have favoured the quick and the corrupt. Even for the quick and the nimble, driving in Rome has never been anything but a chore.

The quiet are not simply quiet out of appreciation, they are also quiet out of caution.}

Princess Diana had other causes to tend to – her sons, the sick, the war-ravaged.

I'm told the rebellious have strong leadership skills.

For now, let the recalcitrant have their way.

The religious among us endeavour to see each and every human being as created in the image of God. In sermons and on television, ministers blast the non-religious. The religious know this better than most of us. With the religious you can hardly negotiate.

That is what happened with the debate over the divorced and remarried: the German bishops sought a formal path for remarried Catholics to receive the Eucharist.

A visit to a Chinese dentist would stretch the nerves of even the most resolute.

In his hometown he was in the circle of the prosperous and respected.

Alabama does not bar the execution of the mentally retarded. Some of them ended up in institutions for the mentally retarded. There are humans -- infants, the severely retarded, the demented -- whose mental function cannot match that of a chimpanzee.

The unemployed included the retired, women on maternity leave and participants temporarily or permanently sick. The retired were the chief victims of inflation.

Is there any country in the world where the rich are getting poorer and the poor are getting richer? It was the time when the automobile was still considered a toy of the rich. Some of the rich and famous certainly think so. Such legal protection should not be confined to the rich and famous. Hornblower thought about the rich, and the great, and the powerful, who frequented courts, and knew he would be out of place there. Monaco is the playground of the rich, beautiful and powerful. The new rich in Moscow often spend more in one night than I earn in a whole year. He was referring to the widening gap between the richest and the poorest. There is one law for the rich and another for the poor. Distance: The only thing that the rich are willing for the poor to call theirs and keep. (A. Bierce)

I slept the sleep of the righteous that night.

Theories of legitimacy, that is, entitlement to decide in the name of others and claim the loyalty of the ruled, are numerous. The morality and mentality of rulers and the ruled are not measured by the same moral and mental yardstick. Even the most powerful cannot rule without the cooperation of the ruled. (M. Gandhi) The law applies equally to the rulers and the ruled.

The self-righteous can have or show an exaggerated opinion of their own importance, merit, ability, etc.

Doctors and nurses treated the sick and wounded on Sunday in a shack that passed for a clinic. Do they feed the poor or heal the sick? The priests visit the sick and pray with them. The doctor frequently made house calls to check on the sick. The study shows no difference in survival rates, except among the very sickest.

The happy and the sad are often so close together. And that is why, extraordinary as it sounds, there is a sense in which the sad are happy.

Obsessions, for the scrupulous, can feel deeply shaming and fearful.

He has some advice for the overly self-absorbed: Stop thinking about winning all the time.

The short-sighted among us have not yet realised the grave consequences of their actions. To the shortsighted, it looks like an elephant.

The sick require immediate treatment. We take care of the sick. The sick are more dangerous to people nursing them than to almost anybody else. The sheer number of the sick makes those precautions all but impossible. The sweltering heat could be deadly to the sick and elderly. The priorities during a pandemic are absolutely to look after the sick.

She is a voice for the silent.

This gossip appealed only to the simple or the truly sophisticated.

These old tricks have been used for centuries to fool the simple-minded.

Ignore me if you want, but know this – you're going to need to steel yourself for battle because otherwise the sly will prevail, I assure you.

To the sober, it is always intriguing to see what drunken people are convinced they can do when under the influence.

This gossip appealed only to the simple or the truly sophisticated.

It is definitely not a test for the squeamish. This video is not for the squeamish.

{Today most classrooms no longer have sharpeners. Pencils have often been relegated to the art and math classes. The stalwart have switched to thicker leads and mechanical casings.} Only the stalwart have persisted.
{Beautiful weather and longer days mean more people out and about. Children are playing, couples are strolling, and the stalwart are jogging or biking.}

They even denied food to the starving.

It was Bob who'd taught her that only the strong can win, that weakness should be mercilessly exploited. Only the strong can keep the pace. They look to government to defend the weak against oppression by the strong.

The stupid are deaf to the truth; they hear, but think that the wisdom applies to someone else." (Heraclitus) The trouble with the world is that the stupid are cocksure and the intelligent are full of doubt. (Bertrand Russell) Luck has a way of favouring the intelligent and showing its back to the stupid. (John Dewey) The trouble with the world is that the stupid are cocksure and the intelligent full of doubt. (Bertrand Russell) There is one benevolent force that protects the stupid.

Iron handrails are built into the stone walls for the less sturdy among us.

London is a city which attracts the rich and the successful. You find such stories in the biographies of the successful.

Is the Shroud of Turin a practical joke on the superstitious? The red light would have alarmed the superstitious.

It's a race that is won by the swift and the strong.

In this system the talented and industrious are rewarded. Those who have left include the citizens the country needs most – the talented and the educated.

Being an introvert can feel taxing – especially in America, land of the loud and home of the talkative.

There was a gulf between the teachers and the taught, the oppressors and the oppressed.

The future of this movement may reach far beyond the tech savvy. Certain groups, such as young people, the tech-savvy, and the wealthy, surely avoid more advertisements than others. It is still months away but already there are predictions that, for the tech-savvy, the only gift this Christmas will be a wearable band.

When the going gets tough, the tough get going. (Supposed motto of the Kennedy family)

Such perspectives will provoke outrage among the traditional and pious.

They worked steadily to fight fires, rescue the trapped and care for the injured.

{The troubled will get relief and the troublers will get trouble. God is just. He keeps full and accurate records.} Counsellors, the curious, and the troubled will all find this book immediately useful and enlightening.

The more timid soon joined their bolder pals.

This does not mean the ugly are doomed to poverty, since other factors matter a lot in determining income.

We are moving towards a Europe that is a combination of the unable and the unwilling.

A society made of sentiments and popular appeals ends by oppressing the helpless or the unappealing. Well, the murder is solved, the wicked are punished and the unappealing are redeemed.

Kenya's banking revolution: The use of mobile technology to reach the unbanked has made Africa an innovation hotspot.

He strongly believes in the rights of the unborn. Zika is a virus that is largely transmitted by mosquitoes and can lead to serious deformities in the unborn in the form of abnormally small heads. The blood of the unborn is on your hands.

The Romans began the impossible task of civilising the uncivilisable.

An example may help to persuade the unconvinced.

Then there are the undecided. The undecided should pay heed. The ranks of the undecided diminished today. "You like short stories?" she says to the undecided. Depending on how one counts, the undecided may still decide the outcome. You can choose between six colors (black, blue, red, white, the inevitable pink and mixed for the undecided).

We live in the age of the overworked, and the under-educated. (O. Wilde)

The welfare system deals poorly with the underemployed.

The parasite is dangerous to the undernourished, weak or very young.

The Queen now gives higher priority to events involving ordinary people, including the sick, the homeless and the underprivileged.

The young and uneducated are deeply frustrated by the lack of opportunities.

Unemployment obliterates the world of the unemployed. There are occasional clashes with the local unemployed.

He made a particular point of weeding out the incompetents or emotionally unfit.

The unfortunate have claims upon the hearts of those whom God has blessed with affluence. (Eliza Parsons) What started as a personal mission to bring help to the unfortunate has turned into a larger initiative. We've all had gross roommates, but one who practices poor excrement management is something only the very unfortunate have experienced.

A riot is at bottom the language of the unheard. (M. L. King)

Doctrine is the last refuge of the unimaginative.

To the uninitiated, these tactics sound crazy. To the uninitiated, there is no discernible difference. These expressions are completely unintelligible to the uninitiated. For the uninitiated, it was disorienting. The book includes translator's notes and explanations for the uninitiated. Computer handbooks are largely incomprehensible to the uninitiated.

But the uninstructed are there to be persuaded, "educated" if you will, by the better disciplined intellects.

The uninsured are waiting for a system to see a doctor regularly. The uninsured tend to wait until they are very sick to seek treatment.

The irrigation channels made access for the uninvited even more difficult.

In the meantime, states need to provide the resources to help the unprepared succeed after high school. Many mushrooms change color when bruised, and when this particular mushroom blushes during cooking, it can surprise the unprepared. While militaries find chemical weapons hard to control, given the vagaries of wind and weather, they can be effective against the unprepared, and especially deadly to unsuspecting civilians.

Abstract art: a product of the untalented sold by the unprincipled to the utterly bewildered. (Al Capp)

Because the unsatisfied are vocal, their numbers are probably smaller than they appear. Among the unsatisfied are the ranchers in the Western United States.

New immigrants are an easy target for the unscrupulous. Lack of proper regulation will leave loopholes for the unscrupulous. But losing savings or a home to the unscrupulous also can be a severe blow to health and well-being. We will not rescue the unscrupulous or irresponsible. The modern flagging system, which allows ships to buy the right to fly the flag of a country as long as it promises to follow its laws, provides good cover for the unscrupulous.

It is the unskilled who are losing jobs. The system shuts out the unskilled.

We want to keep guns away from children, criminal lunatics, the unstable and other dangerous elements.

The opacity of Teilhard's writings leads the unsuspecting to regard him as profound.

Abstract art: a product of the untalented sold by the unprincipled to the utterly bewildered. (Al Capp)

Either way, traps await the unwary. The potential pitfalls for the unwary are even greater.

We are moving towards a Europe that is a combination of the unable and the unwilling.

History is written by the victors, not the vanquished.

Only the versatile need apply.

Our apparently egalitarian society is kept going by the labour of the voiceless and the vulnerable.

We do everything in our power to ensure that aid reaches the most vulnerable. Millions of the most vulnerable still die from preventable causes. Our apparently egalitarian society is kept going by the labour of the voiceless and the vulnerable.

{The weak cannot forgive. Forgiveness is for the strong.} (Mahatma Gandhi.) The Greeks like to think that they have a history of siding with the weak. Refugees say that the weakest have already died. The parasite is dangerous to the undernourished, weak or very young. They look to government to defend the weak against oppression by the strong.

It's a meditative spot where the weary can seek shelter from the Mexican sun.

Will cloning be a technology of the very wealthy? The sons of the wealthy quickly bought exit visas. The newly wealthy have been buying multi-unit properties and turning them into single mansions. President Kennedy defended the principle of reducing the tax rates for the wealthy. The urge to be "green" is an emerging phenomenon even among the wealthiest in society. Giving birth in a private hospital is only for the wealthy. Boating was traditionally the pastime of the wealthy. International travel in the 1930s was the prerogative of the wealthy. Globalisation favours the wealthy.

And one of the real tragedies of this changing focus in health care, evaluating the well [= "die Gesunden"] instead of taking care of the sick, has been for physicians to have full clinic schedules of routine exams while the sick must fight to get into clinics or seek care elsewhere.

{The well-bred contradict other people. The wise contradict themselves.} (O. Wilde)

in China, commercial disputes can easily become criminal matters, especially when the politically well-connected use the country's malleable legal system to bludgeon rivals. Many Chinese economists argue that the biggest conglomerates, especially banks and the leading oil and telecommunications companies, have grown so large that they swallow a large part of bank lending, crowd out more creative small companies and line the pockets of the politically well connected.

Dr Keys observed that the affluent had much higher death rates from heart disease than the less well-off. Labour noted that selective schools remained dominated by children of the well-off.

These islands are great tax shelters for the well to do. These were houses for the well to do. Whenever innovation comes along, the well-to-do are much quicker at adopting it.

The laws are designed to punish the wicked and the rebellious. As one reads history one is absolutely sickened, not by the crimes that the wicked have committed, but by the punishments that the good have inflicted. (O. Wilde) Heaven: A place where the wicked cease from troubling you with talk of their personal affairs, and the good listen with attention while you expound your own. (A. Bierce)

The wise are active; the virtuous are tranquil. The wise are joyful; the virtuous are long-lived. Education: That which discloses from the wise, and disguises from the foolish, their lack of understanding. (A. Bierce)

Fashion: A despot whom the wise ridicule and obey. (A. Bierce)

The workshy and the downright idle were not to be tolerated.

The wounded were taken to area hospitals. The most severely wounded had limbs blown off. The Hospitallers treated the wounded and sick on their way back from the Crusades in the Holy Land. We turn our attention to the wounded; they are all still unconscious. A sharp ravine lay between their position and the wounded.

The young always think they know better. AIDS takes its toll not so much among the very young and the elderly, but among young professionals. Only the very young are slim and beautiful. The parasite is dangerous to the undernourished, weak or very young. Increasingly, neither the young nor the elderly can afford to live here. The young think that they know better than the old. Animal Kingdom offers distractions for the very young. The young have aspirations that never come to pass, the old have reminiscences of what never happened. (Saki) Of course, the old have always complained about the young.

In dieser (unvollständigen) Liste von "able-bodied" bis "young" wurden Adjektive und Partizipien beschrieben, die sich bereits zu eigenständigen Nomen verselbständigt haben. Wie so oft im Sprachgebrauch gibt es aber auch hier nicht ein striktes Entweder-Oder, sondern auch eine Grauzone. Googelt man beispielsweise "not the only who", so erzielt man respektable 1,5 Millionen Treffer. Heißt das also, dass sich "only" zu einem Nomen verselbständigt hat? Auf den ersten Blick ja – bis man weiter googelt: "not the only one who" ergibt nämlich 80 Millionen Treffer (Stand Juni 2021). Dazu muss man noch rechnen "not the only ones who" (8 Millionen Treffer). Fazit: Mit der Verselbständigung von "only" ist es doch noch nicht so weit her, im Sprachgebrauch überwiegen bei weitem Sätze wie diese:

I was the only one who went on strike. You are the only one who understands me. You're not the only one who saw something. I'm not the only one involved. Apparently I'm the only one.

You are the only ones who can. We're not the only ones who lied. It is clear that we're the only ones who can finish this mission. They are not the only ones. We were the only ones on the beach.

Daneben allerdings auch:

One of the most surprising benefits of joining the Australian Boys Choir can be discovering that you're definitely not the only who likes to sing! I'm sure I'm not the only who's noticed that. Once I started talking about period pain, I learned I'm not the only who puts up with this discomfort and confusion.

In der obenstehenden Liste von "able-bodied" bis "young" wird das Nomen, welches eine Gruppe von Personen bezeichnet, mit dem bestimmten Artikel verbunden. Das ist der häufigste Fall. Möglich sind aber auch andere "determiners" als Begleiter:

Relatives searched the rubble for the bodies of their beloved.

For India's best and brightest, a technology career was an irresistible draw to the United States. It's a society whose best and brightest are leaving.

Even their dead were brought back rather than abandoned on the field where they fell. Today we remember our dead. Did you see the monument to our war dead? President Bush paid homage to his country's war dead on the beaches of Normandy. They handed over the bodies of our dead. They had to leave behind five of their dead and some of their wounded. The families want to know where their dead are buried.

We shall have failed, and the blood of our dearest will have flowed in vain, if the victory does not lead to a lasting peace, founded on justice and good will.

Grozny mourns for its disappeared.

Back in 1959, India's disenfranchised were not aware of the power of their numbers. She represented the hopes of the country's poor and disenfranchised.

These are my humble thoughts this Memorial Day to recognize the sacrifices not only of our fallen but also of all our wounded and of all those who are still missing. Some people criticize the risks we Americans take on the battlefield to recover our fallen.

The world's great and famous almost line up to get on "Larry King Live".

During their two years with Oahu's homeless, the documentary crew sometimes took days and weeks gaining their trust before turning on the camera.

The Nuba are a small minority of Sudan's hungry. Every year the U.N.'s World Food Program feeds tens of millions of the world's hungriest.

Our injured had their wounds dressed.

Our troops broke the Yankee line Sunday evening and drove them pell-mell back to Chattanooga, leaving their killed and wounded and a vast amount of arms on the field. We buried each of our own killed.

The girls were placed in convents by their nearest and dearest. She had invited her nearest and dearest.

The US can easily look after its old and poor. The Bedouins don't put their sick or old in hospitals.

The rich and powerful protect their own.

Our economic system has enslaved the world's poor to the greedy rich. That hardly matters to Bihar's [= Indian province] poor. Pierre Toussaint dedicated himself to New York's poor. Jamaica's poor believe that a lighter complexion may be a ticket to upward social mobility. Baghdad's new poor are worrying about their daily bread. She represented the hopes of the country's poor and disenfranchised. The US can easily look after its old and poor.

It refers to the status symbols that Russia's newly rich tend to flaunt. Moscow's rich are keeping their children under lock and key as fears of social unrest grow. The village is now a housing estate for Moscow's super-rich. The Bedouins don't put their sick or old in hospitals.

Cameras scan train stations for China's most wanted.

Some of Shanghai's newly wealthy dined on caviar and champagne. Mobile phones are no longer reserved for Pakistan's wealthy.

Napoleon left his wounded and most of his Grand Army in Russia. They not only murdered our wounded but also abandoned their own. He didn't lose a single one of his wounded. They even looked after the enemy's wounded. They carried their wounded with them. I was beginning to be very concerned about our wounded. In Selly Oak Hospital, Birmingham, many of Britain's was wounded are treated. We picked up our wounded and started down the hill. We could not get to our wounded. Both sides tended to their wounded.

"The Russians deported all our young to Siberia," the old woman said. Europe's young do not consider themselves European; they are Danish, Italian, Polish or Welsh. We cannot pack millions of our young into the concrete boxes of our cities without expecting them to lash out in pain and anger and violence. A bird will not excrete in its own nest and will also clean up the waste of its young. Wild boars can be ferocious when protecting their young. Countries which fail to meet their targets in providing education have a higher mortality rate than countries which teach their young better.

Ein Sonderfall ist "loved": "loved" alleine ist nicht idiomatisch, es muss immer heißen, "loved one(s)", häufig verbunden mit einem besitzanzeigenden Wort:

Are our loved ones safe? Some lost their loved ones. The relatives of the disappeared are speaking of their loved ones for the first time. He was determined to spend as much time with his loved ones as possible. The relatives hope that their loved ones might still be alive. They and all of Elizabeth Hale's loved ones are in our prayers. There is always the fear of hurting loved ones. Both are deprived of the company of loved ones. They fear they might have lost loved ones.

He has to explain to a victim's family members what precisely happened to their loved one. The arrivals hall of the airport in Israel was crowded with people eagerly waiting for some loved one. Few things are more difficult to talk about than death or dying, particularly with a loved one. In the Jewish religion, the Kaddish is recited each year on the anniversary of a loved one's death, and a candle is lighted.

An appeals court acquitted six accused.

Conditions became progressively more unpleasant for both besiegers and besieged.

If Israel had existed earlier, there wouldn't have been six million dead. The Second World War claimed 55 million dead. The attack on the city cost many dead. I have seen so many dead that my eyes no longer react. More innocent dead remain to be counted. For the loss of only eight dead and 30 wounded, they seized a vital point. About 10 injured fighters and two or three dead are brought in every day. In the fortress, there were more dead than living, but they had held the place all day. Hundreds of unclaimed dead lay at the morgue. We have received 196 wounded and 25 dead. The nearly 3,000 war dead testify to the peril of those fighting in Iraq. Memorial Day has become a day on which the dead of all wars and all other dead are remembered the same way. We also had to check for any dead and wounded. Even in Auschwitz I hadn't seen so many dead. During the first days after the liberation of Bergen-Belsen the British buried thousands of dead. All the dead were collected in one spot. There were a number of dead that couldn't be recovered. The aircraft that survived brought back four dead and nine

men who required hospitalization.

Hate crimes and a clampdown on social welfare payments are making life hell for some disabled in Britain, she said.

There were bodies floating in the surf and many dead and dying on the sand.

Many elderly are spending more, too. Among the victims were many elderly.

In the USA there are an estimated 2 million homeless. No homeless can sleep there unless they are going through the one-year program. Not every homeless is a victim of poverty. No one knows how many homeless there are.

The remaining six injured were left behind.

Many jobless are facing round trips of 30 km or more to register for benefits.

For the loss of 20 killed and 50 wounded, the whole of Monte Torrero was captured.

When machines and business mergers are wiping out thousands of jobs, many middle-aged are being shelved in the prime of life.

To put it mildly, this did its hundreds of millions of poor no good at all. New buildings sprout like mushrooms across Kigali's skyline, but this splash of modernity in a once rundown capital city belies a grimmer reality:

thousands of poor have been pushed out to make way for these structures and still await resettlement.

Gandhi dreamed of a world where there were no rich or poor, master or slave. As a teenager in Caracas,

Venezuela, during the 1970s, I never felt comfortable in a population made up of 5 percent ultra-rich and 60 percent utterly poor.

The platoon now had four wounded. We had six wounded in our crew. There were three seriously wounded who subsequently died. The English soldiers, along with a handful of walking wounded, now scattered in the

surrounding fields. He was evacuated with a bunch of other wounded. There were a few wounded in other

sections. There were no wounded. As he passed groups of wounded, he noticed that some of them still carried

their weapons. They retreated, carrying off as many wounded as they could. They sent away seventeen wagon

loads of wounded. In the battle the Spaniards suffered many wounded. It was a big tent with a lot of wounded

lying about on cots. Check your position and see whether we have any wounded. The area was big enough to

handle a large supply helicopter and to evacuate any wounded. The lieutenant explained that he had many

wounded who needed evacuation. I saw hundreds of wounded, and I could do nothing. Then a jeep arrived with more wounded. They took the two most seriously wounded aboard.

Sharks produce relatively few young.

{During the year, 14,986 prostheses and orthoses have been manufactured for 10,221 disabled. A large majority of these disabled have been injured by mines.} {Disabled people from Hyderabad, Larkana and Naushahro Feroze

have been living under a small tent on a pavement outside Karachi Press Club since March 1, waiting for the acceptance of their demands. These disabled have demanded jobs, as the Sindh government has reserved a two

percent employment quota for people with disabilities.} {In its regional profile released in 2011, the Namibia Statistics Agency (NSA) revealed the Zambezi Region has close to 4.000 people living with disabilities, but this

figure could be higher, given an increase in the population growth and those not registered. The majority of those disabled are found in remote areas where they are further subjected to poor care, negative community

perceptions and are completely cut off from the mainstream society and from mainstream services.

{The lack of data on the displaced has had tragic consequences for those who remain off their land. Most of these displaced have drifted to other areas of the country to become agricultural day laborers or to urban areas in

search of work.} The absence of a monitoring and reporting function meant that there was no sustained follow-up or means of identifying those displaced who were expelled from identifiable camp-like situations.

We already know Los Angeles has a homeless problem, but how many of these homeless are vets, and how many of them have shelter? {*The 2019 Greater Los Angeles Homeless Count Report* revealed that LA County hosts over

50,000 homeless people every night. Even more staggering is the fact that 64% of these homeless are unsheltered — meaning they have no place to go!} However, while a growing number of these stereotypes concerning the

homeless have influenced our views, society may begin to discover that those homeless have generally turned out to be someone's former friend, neighbor or even a family member. We have a lot of homeless in the community

here and a lot of those homeless have pets, and so the pets are homeless, too.

{I do not wish to see any religious state rising anywhere in the world. These ignorant have no concept of a civil state and personal freedom.} {It's a disgrace and unacceptable to see certain groups of people coming up to

defend racism. Those ignorant must not be allowed to succeed with their evil agenda and hatred.}

{In Brazil, 4.5% of landowners have 81% of the farmland whilst 70% of rural families are landless. Unless these landless have satisfactory employment, they have little choice but to clear the forest.} {The milk co-operative has over 14 per cent of its membership from among the landless farmers. And although some of those landless have access to others' farms, either as relatives or as sharecroppers, a large proportion in this category also consists of the landless labourers.}

{The hypocritical, less fat, less overweight stare in wonder at the mountain of flesh accumulating on obese bodies. These obese have made themselves into a voyeur's playground.} {The risk factors for Type 2 diabetes are well known, particularly the link to obesity and overweight. Those obese are seven times more likely to develop the condition while being overweight increases the risk three times.}

{“But white resettlement to the inner cities -- sociologists call it gentrification -- creates problems for minorities, the elderly, and the poor,” he says. “When more affluent whites move in, these underprivileged are pushed out and priced out of their communities. They become displaced persons.”} These underprivileged are lucky to have people like Shruti Bansal as their care-takers. {He said lack of financial resources must not prevent children from poor families from getting higher education. Also, those underprivileged must be provided with an opportunity of medical treatment for cardiovascular and oncological diseases.}

To reduce in Napoleon's eyes the considerable number of wounded which the battles of Lützen, Bautzen, and Würschen had caused, a few people accustomed to veiling the truth made him understand that many of these wounded had voluntarily mutilated themselves to escape the service, and all those who had their fingers cut off or their hands pierced through by bullets were included in this group. Along the roads in Pemba, members of the security forces turned away cars carrying wounded people or else arrested those wounded, but denied them medical treatment.

New Hampshire sharpshooters littered the beach with British dead. The attackers struggled over a rampart of dead and wounded. The orchard was full of dead and wounded. The real number of dead is higher. There are no accurate figures for Vietnamese war dead. The total number of dead and injured is unknown. They forced a path over piles of dead and wounded. The seven deaths raised the number of British war dead to 111.

The streets were filled with dying and wounded. By the time the fight was over, the battery was a hideous, confused mass of dead and dying.

Save for a few islands in the Caribbean, Uruguay has the highest percentage of elderly in the hemisphere. What we are left with is a new generation of elderly whose wants, needs, and offerings differ from those of their ancestors 50 years ago. We need a higher participation of women and elderly in the labour force.

Two developments have increased the number of homeless in this country. The real number of French homeless is closer to 200,000. A community of homeless scavenges the garbage dump for food to eat.

Emergency response teams have begun combing through the wreckage, searching for injured who might still be saved. The number of injured was not recorded.

The bigger the pool of insured, the more risk is spread.

The losses in killed and wounded were astonishingly few. While our loss in killed and wounded was very heavy, I think we inflicted a much heavier loss on the enemy. Each day's fighting took a mounting toll of killed and wounded.

In dead, wounded or missing the Germans lost 282,000 men.

At the time of the First World War, Dublin had the greatest number of poor per capita in Europe.

The Neolithic period saw the start of violence between rich and poor, and between rival communities. As far as outward appearance goes, the clothes of rich and poor, especially in the case of women, differ far less than they did thirty or even fifteen years ago. (G. Orwell) In China the growing gap between urban rich and rural poor is the greatest threat to the stability of the country.

The basement was filled with wounded. They made their way across the island, frequently falling over wounded whose cries of anguish were partially drowned by the howl of a rising wind. Entering the building, he found it full of wounded, of all nationalities. Some wagons of wounded passed them. The ground was covered by a struggling mass of wounded. He saw the crowds of wounded and deserters making for the forest. The queue of wounded stretches around the building. Sporadic musketry, the rumble of wagons and the hauntingly unnerving cries of wounded filled even the most still night hours. He continued to organise the collection and evacuation of wounded. A steady stream of wounded were making their way down the hill. This was his first experience in combat with wounded. The camps were crammed with refugees and wounded. It was a hospital full of wounded and sick. Nurse W. describes dealing with the wounded men who were being transported from the train station at Dunkirk back to Britain, noting, "in Dunkirk Station itself were trains full of badly wounded, lying in stretchers – some were slung from the ceiling ... a big pile of uniforms all soiled and stained and cut up, sleeve out, etc., was heaped up against the wall." The seats were designed for quick conversion to litters for wounded. His efforts on behalf of wounded brought him a Silver Star.

There are wounded on that boat and she is sinking. When he wasn't handing out ammunition, he was dragging wounded to the first-aid station. He asked if the downed helicopter had wounded on board. The Germans asked for time to remove wounded from the hillside. An ambulance carrying wounded was attacked by a Spitfire. {When we reached the main road we were stopped by police. "Where are you going?" We told them that we were taking wounded to the hospital.} Various methods of evacuating wounded from tanks had been evolved. Military ambulances were now picking up wounded from the field. He had spent much of the past eight months doctoring wounded aboard hospital ships. We had wounded and needed medics. Wounded could not be treated properly, and fresh water was non-existent. The aid station became a field hospital, accumulating wounded. His idea was to use dog sleds to evacuate wounded in the snow.

She was an alcoholic arrested more than 40 times. It is a romance between a charity shop worker and a troubled alcoholic. My cousin is 52 and was a beautiful, intelligent child and young adult, but he became an alcoholic and has been for the past 25 years. If alcoholism is a disease, then the alcoholic is absolved of blame.

Given the extent to which eating disorders, especially anorexia, are popularly constructed as a response to the pressure of mediated bodily ideals, the anorexic often emerges as not simply vain and narcissistic, but also unable to separate image from 'reality', or self from media object. The parents of the anorexic have failed to provide the necessary nurturance and strength to their child. Thus, the 'pathological' self-conduct of the anorexic is viewed as a result of his, or her, psychological 'deficits and dysfunctions'. The anorexic, intensely fearful of becoming obese, considers herself to be fat—no matter what her actual weight.

Ms. Park, a conservative, is to be inaugurated next month. A conservative is someone who cherishes & protects a people's inheritance to pass it on to new generations. To gain a majority in the next general election, Prime Minister Stephen Harper, a Conservative, must find significant electoral success in Quebec. A fiscal conservative can't really say, 'Oh, I really love George W. Bush.' The best weapon to use against the conservative is his own argument.

The deceased had been detained for breaching his visa conditions. The deceased began his career as a teacher shortly after the war. The first charges on the estate were the deceased's debts. The deceased was seen to enter the building shortly after ten last night. There was nothing to show by what means the deceased had come to his death.

"Look who's talking," slurred the drunk. The mugger poked the drunk in the ribs, and the drunk handed him his wallet. The drunk picked up his drink and came over. The drunk reaches across the table and grips my shoulder. {A man is stumbling through the woods, totally drunk, when he comes upon a preacher baptizing people in the river. He proceeds to walk into the water and subsequently bumps into the preacher. The preacher turns around and is almost overcome by the smell of alcohol, whereupon he asks the drunk, "Are you ready to find Jesus?" The drunk answers, "Yes, I am." So the preacher grabs him and dunks him in the water. He pulls him up and asks the drunk, "Brother, have you found Jesus?" The drunk replies, "No, I haven't found Jesus." The preacher, shocked at the answer, dunks him into the water again for a little longer. He again pulls him out of the water and asks again,

"Have you found Jesus, my brother?" The drunk again answers, "No, I haven't found Jesus." By this time the preacher is at his wits' end and dunks the drunk in the water again – but this time holds him down for about 30 seconds, and when he begins kicking his arms and legs, he pulls him up. The preacher again asks the drunk, "For the love of God, have you found Jesus?" The drunk wipes his eyes and catches his breath and says to the preacher, "Are you sure this is where he fell in?"}

I'm not an intellectual. He was a polymath and an intellectual. You don't consider yourself an intellectual? The problem truly exists for the artist or the intellectual who does not have a revolutionary attitude to life. It explores the complicated—even contradictory—position of the intellectual who takes a stand against political policies and ideologies. Virtually non-existent is the intellectual who in today's political set up can stand for election and win. An intellectual is a person who's found something that is more interesting than sex. (Aldous Huxley)

The features of the invalid were beautiful, and in the smile there was something peculiarly melancholy and touching. And he left the room, followed presently by his wife, who lingered only until she had made sure that all the wants of the invalid were fully supplied.

Eine definierte Trennlinie gibt es nicht; manchmal entscheidet die Idiomatik bzw. der Kontext darüber, ob eine Gruppe oder ein Individuum gemeint ist:

The accused was found guilty. The accused denies the offences. He should be the accused. An accused's past actions cannot legally be held against him. The judge said the accused was motivated by greed. ≠

The accused all deny wrongdoing. Many of the accused are jailed. The accused deny the charges.

Unklar (ob Singular oder Plural gemeint ist) ist ein Satz alleine ohne Kontext: The accused must have heard about this. In that case, one of the main points in favour of the accused disappears. A fresh jury found the accused guilty. We knew the accused. She confirms that she helped the accused.

Until the newly arrived has studied the subtleties and difficulties of communication and learns how to manipulate and overcome them, he or she will not be able to transmit anything in the way of writing or giving a longer message. {The arrivals hall of the airport in Israel was crowded with people eagerly waiting for some loved one. When the new arrival came, loud whoops of delight resonated in the hall, the newly arrived was hugged by all their friends, the small groups continued to dance and hoisted the loved one onto their shoulders while still dancing.} ≠

It is especially valuable for poor people, young people, the newly arrived and the otherwise unqualified. Social service agencies have proliferated to help the poor and the newly arrived, as have predominantly Haitian church congregations. I supposed he was one of the newly arrived. I supposed he was one of the newly arrived.

Unklar (ob Singular oder Plural gemeint ist) ist ein Satz alleine ohne Kontext: For the newly arrived, relief is frequently replaced by frustration. To avoid deportation, the newly arrived must then disappear.

The prison Chaplain entered the condemned's cell for the last time. (Saki) {Surgeons had to adopt a penal choreography when they received the body from the hangman. They first checked that the condemned could not be resuscitated. In an era when it was easy to mistake extreme hypothermia for death, it was essential to make sure the condemned was a corpse and not someone in extreme hypothermia.} [About cruxifixion:] The condemned is then forced to push up on his pierced feet and pull up with his arms sufficiently to raise and lower his body in order to breathe. When a governor or the President of the United States pardons a prisoner, including one condemned to death, no one else is required to take the condemned's place. ≠

Until recently, the condemned were hanged in public, from cranes. Some of the condemned appealed to him in heartrending terms. And it's not just the condemned who suffer. He says ruefully that he would testify that he assaulted the condemned to make them talk. For instance, it is not even clear whether the condemned are university students. The condemned, who live in solo cells, are allowed knitting needles. It was customary to allow the condemned to go to confession before they died.

Unklar (ob Singular oder Plural gemeint ist) ist ein Satz alleine ohne Kontext: The condemned may be mentally retarded. He feels no hatred for the condemned, only sorrow. Capital punishment's worst affront is not to the dignity and humanity of the condemned. Even several victims of the bombing have spoken up in defense of the condemned.

The conservative knows that any healthy society is influenced by two forces, which Samuel Taylor Coleridge called its Permanence and its Progression. Mr. Campbell is a self-described fiscal conservative who supports abortion

rights and same-sex marriage. As a conservative who mixes conviction and civility, he is a member of a vanishing breed. ≠

The Conservatives know that Clinton is a popular President and they would have trouble getting the support of the American people against Clinton. There were the conservatives that voted Conservative and the conservatives who voted Ukip. Now it's conservatives who indignantly denounce the filibuster as undemocratic. But the young conservatives who oppose same-sex marriage — unlike most of their generation — remain undaunted.

Unklar (ob Singular oder Plural gemeint ist) ist ein Satz alleine ohne Kontext: The conservative and the liberal are often at odds with one another, smearing the rhetoric of those on the other side of the political aisle as propaganda or “fake news.”

Many times he looked over the people's heads to where his son's wife sat alone, and he saw the fair face the unforgiven dead had loved. (F. H. Burnett) {An offering must be prepared to bury with the body. This offering consists of herbs, corn leaves, vegetable coal ash and a crushed head of a black chicken. This offering is placed in a jar to be buried with the body. When the grave has been dug, the jar must be thrown in the head of the grave and the dead is then buried while there is chanting.} Embalming fluid was only used when the dead couldn't be buried right away, such as when the burial had to wait for a wayward daughter to return home from the other side of the country. ≠

In Pakistan and other Muslim countries, the dead must be buried within 24 hours. The dead must be appeased or they will hang around and bother the living. Ancestor gods abound, and thus the ghosts of the dead must be placated, often with the performance of elaborate rites. Among the dead were newborns. The dead included two congressmen. The dead can't speak for themselves

Unklar (ob Singular oder Plural gemeint ist) ist ein Satz alleine ohne Kontext: Where was the respect for the dead? The search for the dead will continue. The dead can't talk.

She says she didn't know the deceased very well and only saw him two or three times. The deceased was not wearing a helmet. Police were eventually able to gain entry into the deceased's bedroom and found the deceased lying face down on his bed. The deceased's bride was also present. The deceased's children have not been told the cause of death. The deceased had requested that she be cremated. Were you present when the body of the deceased was found? ≠

We spoke to families of the deceased. In some villages, all the deceased were women. Memory-of.com is a Facebook for the deceased. In some villages, all the deceased were women. Meanwhile, the families of the deceased will be offered £2,000, and hospitalised victims will be offered £500. We are now able to confirm that the deceased have been identified as a 36-year-old woman and a 16-year-old girl, who were mother and daughter.

Unklar (ob Singular oder Plural) ohne Kontext: Can you tell us anything more about the deceased? The deceased requested no services. We're here to mourn the deceased. They hold conversations with the deceased. The tiny store sells incense and other ceremonial items like fake money and paper houses, which are burned at Chinese funerals so the deceased will have a place to live and money to spend in the afterlife.

But then the hunter was also the hunted. We always want to be the hunter, not the hunted. On the island, he is no longer the hunted; he's a gatherer of prey. As a rule, the hunted remains clueless until it's all over. {The hunted always has the advantage over the hunter. There are so many places to hide; so many ways to dodge.} {A million years before man, horses grazed the vast empty plains, living by voices only they could hear. They first came to know man as the hunted knows the hunter, for long before he used horses for his labours, he killed them for meat.} ≠

And thus the hunters become the hunted. No longer the hunted, the Yankees would face a new sense of urgency with each game. The hunted have numbers to their advantage, so not everyone can be caught. It seems the hunted have successfully evaded the hunters. Dr. Uhl says animals that are among the hunted have a race to sexual maturity so they don't become extinct.

Unklar (ob Singular oder Plural) ohne Kontext: The hunter could not be told from the hunted. The reader, of course, sides with the hunted. Were we meant to feel sympathy for the hunted, or the hunters?

Accident near Lutín: Renault on the roof, the injured was pulled out by firefighters. At the time of accident the injured had no valid driving licence. The injured has lost partial eye sight and is completely dependent on others. Quite clearly, the injured had no role in the causation of the accident. Immediately, the injured was taken to OP

Hospital at about 6.00 PM. ≠

The priests began collecting the injured. Baghdad's hospitals struggled to treat the injured. The state's hospitals nursed the injured. Count the dead and the injured. One of the injured later died. The injured were lying on the ground. The injured were taken to hospitals. He said people started out trying to help each other, but then it was everybody for themselves: "The injured had no chance."

Unklar (ob Singular oder Plural) ohne Kontext: I was unable to assist the injured. The injured later died.

I would start my career as the lowliest of the low. The lowliest is the nearest to God. (Andrew Murray) Every compatriot, even the lowliest, is a part of Russia. Even the lowliest has some rights. Among wild wolf packs, even the lowliest has a right to defend food already in his possession, even if the thief is higher ranking. ≠

They look down on strikebreakers as the lowliest of the low. {In all sport confidence is the mysterious ingredient that makes the difference. The best will falter without it, and with it, even the lowliest can force themselves to the top.} This was all done by people society considered the lowliest of the low. During her stay in Rome, St. Bridget also showed herself to be a caring mother for the lowliest. When we do that, we come to know Jesus is a king who personally and compassionately identifies with each one of his subjects, especially the lowliest and most afflicted.

Then the newborn is whisked away. The newborn receives nevirapine and other medicine. The newborn, Qianci, recently turned two months old. The newborn was hospitalized for 32 days. If a pregnant woman is HBsAg positive, the newborn will be given the appropriate vaccination. Why does the newborn have more rights than the dog? ≠

The female bears the next litter sometimes only after some years since the newborn are dependant on her until autumn, but often the whole first winter. In contrast to older infants, children and adults, the signs of sepsis in the newborn are vague and nonspecific. All staff undertaking initial examination of the newborn are expected to undertake appropriate training as per Trainings Needs Analysis. Viral infections of the newborn are a serious concern; such infections result in significant morbidity and mortality each year.

Unklar (ob Singular oder Plural) ohne Kontext: Finally, the genetic background of the newborn must be considered. The newborn may be asymptomatic. This enhanced barrier may protect the newborn from infection. Respiratory problems may be present in the newborn. A variety of ventilation modes are available for the newborn. What problems did the newborn have? {This [breastfeeding] position is only to be used temporarily. Once the mother and the newborn have more experience, it is possible to switch to more comfortable positions.}

And so the outcast is welcomed back into the fold. He became the outcast, the rebel, the fallen angel. I was always the outcast as I got older, so I created a separate group. It's the image of the outcast, the rebel against the dangerous world. The weak, the misfit, the outcast are theoretically welcome. If he loses, he's again the outcast.

≠ We are the outcast of the 21st century. The interests of the outcast and the excluded of the earth remain. The poor and the outcast had no voice in the way the society that sheltered them was run. The poor and the outcast have no confidence in themselves.

Unklar (ob Singular oder Plural) ohne Kontext: Be like Christ: identify with the outcast.

Unborn human life is a prerequisite for any precept of person and personality, whatever the concrete definition may be, and is a possession worth protecting, even though the unborn is yet not able to represent and articulate its own interests. She says the unborn is like a child, a human life, and should be treated as such. We cannot confer that choice on the unborn because the unborn is still part of the mother to whom it belongs. ≠

We believe that the unborn have a right to life. Only the unborn can be blameless and incorruptible. Loving the unborn more than the born is politically convenient, as the unborn do not have to be housed or educated or parented. The unborn have property rights protected by law. I am pro-life, but not only for the unborn. He dedicated his life to the Blessed Mother and to the protection of the unborn.

Unklar (ob Singular oder Plural) ohne Kontext: Any broken ties, even to the unborn, may haunt the descendants. I can hardly think of a better gift to the unborn. What about the rights of the unborn?

Beim Gebrauch des Singulars ist Vorsicht geboten, denn die englische Sprache akzeptiert ihn nicht automatisch bei Nomen, die aus einem Adjektiv oder Partizip gebildet werden. Es kann dabei leicht zu Germanismen kommen:

A modest man is usually admired – if people ever hear of him. (E. W. Howe)

The corpse of the murdered man was exposed to public view. They have established a serious case against the son of the murdered man. (C. Doyle)

The reasonable man adapts himself to the world; the unreasonable one persists in trying to adapt the world to himself. Therefore all progress depends on the unreasonable man. (O. Wilde)

A wise man should have money in his head, but not in his heart. (J. Swift)

I had never seen a wounded man before. The medevac helicopter was on its way to pick up the wounded man. He ran through fire to rescue a wounded soldier. I never found out who that wounded guy was. Finally our platoon reached the wounded man. If the medic could get to the wounded man in time to stop the bleeding, his chances for recovery were excellent. The wounded man might have provided a useful description of the assassins. Sergeant Jackson ordered the wounded soldier to cease talking on his radio, for it was leading the enemy to him. They got their wounded man out. Could I befriend a wounded man whom I had never before seen? We threw the one wounded man who was still alive on the truck. They sent a jeep to pick up a wounded man. Our medic was inside the bunker tending the wounded man. Two soldiers carry a stretcher bearing a wounded man. I stayed focused on the wounded guy, making sure he didn't do anything stupid.

What is remarkable is the high percentage of under-15s. Two-thirds of Britain's under-24s backed a military campaign. Around 14% of Nigeria's under-fives are significantly malnourished. Over-40s are due to be invited for their first vaccinations against coronavirus from tomorrow, as part of government plans to offer a first injection to all adults in the UK by 31 July.

It is counselling of the sort that alcoholics get from Alcoholics Anonymous. Alcoholism is a disease because alcoholics cannot control their drinking. A failure to identify behaviours symptomatic with alcoholism delays treatment and increases the danger alcoholics pose to themselves and to others.

The crocodile has been so called since at least the time of Herodotus, since the ancients knew the crocodile of the Nile. The ancients strewed sand on the floor of an amphitheatre when combats were held, to soak up the blood. The fact of evolution is not a modern discovery; the ancients understood the slow and evolutionary character of human progress. Modern scientific studies have confirmed the ancients' belief that this plant has good medicinal values. Bacchus: A convenient deity invented by the ancients as an excuse for getting drunk. (A. Bierce) The ancients even lacked words for something as elementary as blue. I threw in a few historical anecdotes and quotations from the ancients.

The doctor says anorexics suffer from a "confirmed negativity condition". Anorexics tend to be affluent, perfectionist and high achievers.

Bilinguals are better at maths, music, computer skills and so on. According to a study from the University of Chicago, bilinguals tend to make more rational decisions.

Better educated and traditionally better treated than blacks, the coloureds worry about being disadvantaged under ANC rule perhaps rightly. Most voters are Coloureds, of mixed race, whose half-way status under apartheid left them with a peculiar contempt for blacks. He was a hero among the country's blacks and coloureds. It took the jury of nine blacks, two whites and one Hispanic less than four hours to reach a verdict. Jazz: A kind of music played by blacks and listened to by whites. (Miles Kington)

What is more, the ability to do well in IQ tests runs in families, and American blacks have an average score 15 points lower than do whites. Violence and the use of illicit violence versus people of color, particularly blacks and Latinos, is as routine in Chicago as traffic lights. Farley also argues that slavery would not have existed in America if blacks had been armed.

In 1835 he and a group of braves murdered Charley Emathla, a chief who was preparing to emigrate with his people, and Gen. Wiley Thompson, the U.S. Indian agent at Ft. King. Many braves, unwilling to accept this life of confinement, broke out repeatedly to raid white travelers and settlers. There he obtained a large canoe and with seven Huron braves proceeded from Lake Huron through the Straits of Mackinac to discover Lake Michigan. Half the guys he knows are degenerates. We hit a million clubs, hang around with criminals and degenerates. I do not negotiate with degenerates.

I guess I am one of the desirables.

The party had become little more than a place for groups of discontents. The very size of the protests – some estimates claim that as many as 14m took to the streets – shows that his opponents were not a small bunch of discontents.

The petite and elegant figure, clad in two-pieces or nicely pressed slacks, was clearly a denizen of the northern suburbs of Johannesburg, where discreet black domestics clipped the acacias and golf was played at weekends. For Egypt's armies of day labourers, street vendors and domestics, employment is pretty tenuous. Victorian and early-20th-century domestics were the largest single group of workers in Britain after agricultural labourers.

There were down-and-outs everywhere. Eduardo was a keen observer of Neapolitan society, with its dramatic and comical sides and its characters of *down-and-outs* and of heroes.

Henri was a worthless alcoholic, and I abhor sloppy drunks. Better order early before those drunks come from across the street. After a while the drunks spilled out into the street.

Anatomical differences between the brains of dyslexics and non-dyslexics were first noticed in 1979. Some non-Chinese dyslexics can master Chinese script more easily than the alphabet. The fact that Chinese and Western dyslexics show brain abnormalities in different brain regions suggests that dyslexia may even be two different brain disorders in the two streams of culture.

Young people see covid-19 as a bigger threat than their elders do. A group of Indigenous leaders and elders has branded as racist the South Australian government's decision to suspend the executive board of traditional landowners and appoint an administrator. For us it's rude [for women] to just get up and talk without permission from the elders. My grandmother taught me to respect my elders. The elders in most societies have traditionally been regarded as the repositories of collective wisdom. They were ready to step into the shoes of their elders as soon as they died.

The chiefs of the different tribes met together as equals. He has few equals in Australia. They treat the children as equals. The early Christians who embraced women as equals were mostly Gnostics. He was the first to talk with them as equals. Not long ago they had been her equals. Marriage in modern times is regarded as a partnership of equals. Of course we want to be seen as equals. I'm left wondering if women will ever be considered equals. {I like pigs. Dogs look up. Cats look down on us. Pigs treat us as equals.} (W. Churchill)

The future belongs to the dandy – it is the exquisites who are going to rule. (O. Wilde)

We can't let the extremists, the terrorists, the fanatics determine our fate. We must show our young people, who may be targeted, that extremists have nothing to offer them. The Hazara are Shia Muslims and are frequently targeted by extremists from among the Sunni majority in Pakistan.

We can't let the extremists, the terrorists, the fanatics determine our fate. Undoubtedly as Islamic fanatics they want to get rid of us. Those are virtues that fundamentalists and fanatics cannot stand.

There remains a huge conservative community which is unwilling to accept gays. "Already, there is a generational difference within the conservative movement about issues involving the treatment and the rights of gays. The majority of Americans, 58%, support the right of gays and lesbians to wed in a recent opinion survey jointly conducted by ABC News and the Washington Post.

His aggressive style reminds many of past Austrian greats like Toni Sailer or Franz Klammer [= ski aces]. Sir George Thomas competed against the greats in chess. Next-door neighbor Café de Flore also saw many literary greats walk through its door. It boasts literary greats such as Tolstoy and revolutionaries like Lenin amongst its most prominent sons.

Tormenting the grown-ups became his favorite thing to do. Smaller children raced among the grown-ups' legs. They look just like the grown-ups.

Heretics are a menace from within: dissenting believers, who question key articles of faith. For 20 years from 1209, they set upon the Cathar heretics in south-western France, following a call to arms by the ill-named Pope Innocent III, whose blessing made this too a crusade. Critics of PSA testing, once regarded as heretics, have gained credibility recently, as a result of two big new studies.

Today some 23.7 million Hispanics are eligible to vote, an increase of more than 4 million since 2008. All three districts are predominantly rural, and have fewer blacks and Hispanics than the national average.

In the 1930s a German geneticist claimed to have found a gene shared by many male homosexuals. Its TV news anchor is Dmitry Kiselev, described as Russia's chief propagandist with a record of attacking homosexuals. Last month nationalist politician Dauren Babamuratov called for a ban on homosexuals serving in the civil service and the army.

Suddenly, we were promotion hopefuls. Half of those erstwhile hopefuls now know that they have no hope. There must have been some one hundred hopefuls on that first day. Other presidential hopefuls are squirming a bit. Speaking on the BBC1's Andrew Marr Show, the shadow home secretary attempted to draw a distinction between her approach and those of the two other main hopefuls, Burnham and Kendall, who have been quicker to distance themselves from some of former leader Ed Miliband's election policies.

I sensed that none of them were hostiles, just a bunch of onlookers. We've got possible hostiles in your vicinity. So we won't really know how many hostiles we're up against.

First identified in humans in 2012, Mers is caused by a coronavirus from the same family as the one that triggered Severe Acute Respiratory Syndrome, or Sars. Because humans are a highly social species, our brains must be designed to function correctly only when they're connected to other brains. Whales and dolphins are often very curious about humans. The virus rarely spread to humans.

Incapables or drunkards get automatically selected for the post. (G. B. Shaw) Incapables are hired without proper adequate vetting and training.

This city is full of robbers and incompetents passing themselves off as chefs and restaurateurs. This is what happens when you employ incompetents. Those incompetents you hired nearly got me killed. They are such incompetents, it is difficult to imagine.

I have a good feeling that many incumbants are going to lose their job come November. Preventing unfair advantage to incumbants is a laudable principle. However, it IS time for him and – I would suggest – most of the congressional incumbants to be voted out. While it IS a bad year for incumbants, there still are some "safe" districts.

Medical men occasionally send their incurables to a quack. (C. Doyle) The alleged plea that incurables are practically put out of existence in large hospitals is simply a libel on the profession and should be resented by us all as such.

They are by no means running as independents. There is still an outside chance that Irish voters could return a new government propped up only by independents from the centre right. All have vowed to serve out their terms as independents. They will seek to cement their reputations as darlings of the independents, the undecideds and the floating voters. Independents are expected to make up 8 to 12% of Democratic primary voters in California.

His mother considered them their social inferiors. He thinks us all his inferiors. He himself sought advice among his superiors, his equals and his inferiors.

Muslims from India have not in general turned up to fight the infidels on the battlefields of Iraq and Afghanistan. But a dedicated core of perhaps 1,000 or so living in the West might be willing to die for their cause by blowing up themselves and as many infidels as possible on the way.

No matter how many innocents die, we are never going to learn. Those people have no regard for innocents. The result is more destruction and the death of innocents. We intervened in Libya alongside a broad coalition, and with the mandate of the UN Security Council, because we had the ability to stop the slaughter of innocents. These terrorists are prepared to kill thousands of innocents. It is still not clear whether any innocents were wounded or killed. The theme of the Massacre of the Innocents was depicted by Rubens several times. Poor innocents that they were, they knew nothing of the plot. Some day, someone will avenge the blood of the innocents. Innocents can sit in jail for months. Only the innocents will be the victims. He didn't want any innocents shot.

In France, in the 1930s, many conservatives took the view that far too many intellectuals were over-sympathetic to the USSR and 'Bolshevism', while in Britain during the same period, a traditional distrust of intellectuals had been reinforced by a belief, again in conservative circles, that the left/liberal intellectuals were undermining the patriotic spirit. Our social conditioning has taught us to respect the authority of intellectuals.

Then Lloyd George went on to promote 'well thought-out schemes' to provide help 'for the sick, for the invalids, for the widowed and for orphans'. Deprived estates have twice as many unemployed and lone parents, and 50% more invalids than the national average. In the long term an ageing population will produce more invalids.

He reckons that once people know the facts and understand the arguments, opposition to the constitutional treaty will be reduced to a hard core of irreconcilables. If the number of potential rebels is to be squeezed down to 25-30 irreconcilables, that is an important first step. What worries security officers most is that, despite the large number of arrests, the terrorist groups, once thought to consist only of a handful of ageing "irreconcilables", are both recruiting new members and improving their technical capabilities.

People "scorn and hate lesbians, and hate and beat gays", said Lena, a 14-year-old from Abakan, a city of 170,000 in Siberia. The majority of Americans, 58%, support the right of gays and lesbians to wed in a recent opinion survey jointly conducted by ABC News and the Washington Post. Times were tougher for lesbians and gay men then.

The liberals won Congress in 1867. As liberals, we applaud the principle of independent research. Both parties include conservatives and liberals, defense hawks and doves.

The malcontents recruited like-minded allies. Nobody can track down society's malcontents like the Left. Many of the malcontents are armed. It is only for the freaks, the losers, the malcontents.

Nearly all primates wander around in mixed bands of males, females and young. We, the public, hate alpha-male politicians, but we don't trust them when they aren't alpha males. In the state of Georgia 48% of people on death row are black males, and in Georgia they make up no more than 15% of the population.

Young marrieds can move into rooms or houses built for them. Today's singletons have as much, if not more, contact with friends and family as the marrieds.

We know from Pepys's diary that after the restoration of Charles II in 1660, members of the class to which the diarist belonged (the aspiring middles and upper middles) were extremely eager to commission noble likenesses of themselves and their families to hang above the mantel. The upper-middles and above regard big designer logos as rather vulgar.

Islamist militants carried out bombings in 1999 in Tashkent. A US drone strike has killed at least six suspected al-Qaida militants in southern Yemen today, officials said. Israel said it killed 10 militants after they crossed the border in tunnels.

We need to find a way for the moderates to reach out and make sure the conservatives know they are included. Some in his own party are concerned the Ukip leader is a divisive character unlikely to win over moderates.

He has read widely from Shakespeare to the moderns. That Neanderthals also shared with moderns the single known genetic component of speech is another clue that they possessed the necessary apparatus for having a good natter. It is therefore a great mistake to believe that the works of the Moderns are clearer, more useful, or qualitatively superior with respect to those of the Ancients.

It promises readers untold riches, an insight into a fabulous world far removed from that of mere mortals. But unlike Cannes, open to "film professionals" only, at Toronto everyday mortals are the festival's lifeblood. They are not keen on rococo corporate structures (cross-shareholdings between units based in assorted offshore jurisdictions, say) which mere mortals can scarcely understand, let alone disentangle in a crisis. Our Tokyo bureau chief told me that "no ordinary mortals" take a taxi from the airport. Yet strange though it seems to lesser mortals, the supreme thirst for power that makes someone wish to lead their country is not easily assuaged.

Those who point out that the world is getting better – even hard-headed analysts who are just reading out the data – may be dismissed as starry-eyed naïfs. Patty and Mildred Hill were no naïfs, either. His most loved characters tend to fall in one of two camps: they're either awful sleazebags or childlike naïfs.

The [American] towns and villages needed names; some came from the natives, others were borrowed from great cities in other lands. Cadell noted on landing that "the natives who had come down on our arrival were much alarmed at the horses". Some locals say immigrants are scroungers; in fact they are less likely to claim benefits than the natives.

8% of newborns in the United States have undocumented parents. She was always first to hold the newborns. The newborns there are too vulnerable to germs visitors might carry. France leads in the number of newborns. Women need to know how to look after their newborns.

Six-year-olds are the only age group to escape national examination. More than half of all 17-year-olds [in Russia] see nothing wrong with looking for a job where they stand a chance of being bribed.

That will teach them to understand others better. Duty is what one expects from others, it is not what one does oneself. (O. Wilde) Vulgarity is the conduct of others (O. Recalcitrants were starved and beaten to death. Mr Kiriyenko still needs to prove he has the political guts and skill to argue his fiscal changes past the Duma's recalcitrants before its session ends next week.

Breakfast is organic and so delicious that many of the locals have become regulars. They have lots of "regulars" who return each year to Mamora Bay and the St James's Club. I'm amazed by how approachable everyone is, whether they're a first-timer, like me, or one of the core of regulars.

"There's a deep tradition in Russia of gender and revolution – we've had amazing women revolutionaries," she said. He met some of the young revolutionaries that led the uprising. He is also a stark and eloquent defender of the Syrian revolutionaries who set out to overthrow Assad back in 2011.

Though he did not seek public attention, he was one of the stalwarts of the Labour party in the north-east, with a reputation for being honest, fair, straightforward and down to earth. Most of its members are either youngish technocrats or party stalwarts who served in cabinets in the 1990s. Shipbuilding, coal mining, and the steel industry have been stalwarts of the economy. There had been an 85% turnover in men – only a couple of stalwarts in each platoon remained.

The generals were stupids. (Stephen Crane) Chris doesn't suffer fools gladly and has had his fair share of arguments with some of the stupids out there, but you have to admit the bloke is a bit of a bloody legend!

Those men are not subversives. Videla and military leaders formed a junta that eliminated political parties, took over unions, censored the media and tortured and killed thousands of "subversives" – actions the junta justified as necessary to fight communism. The House Un-American Activities Committee escalated its campaign against so-called subversives in government, which led to the conviction and imprisonment of Alger Hiss (1950), a former State Department official, on the basis of flimsy evidence.

The military officials passed on the information to their superiors shortly after receiving it. You know the type – he disobeys orders, does things his own way, pisses off his superiors, but, boy, does he get results. Although she harboured doubts when she presented her findings to her superiors, they recognised what she had found, and moved quickly.

Johnson is massively lauded by his party for his ability to attract swing voters and undecideds. The poll also shows a swing of around 4% – again shifting to the Greens or "undecideds". The undecideds are a mixed bag ranging from Chile, one of the front-runners among emerging economies, led by a respected social democrat, to Guinea, one of the most backward of nations, ruled by an ailing despot. If one magnetic individual among the undecideds had come forward to lead, more surely would have followed him. They will seek to cement their reputations as darlings of the independents, the undecideds and the floating voters.

They try to keep the undesirables out. The British National Party complains of "undesirables flooding into Britain". In Nazi Germany Jews and Gypsies were murdered in millions along with other "undesirables" like homosexuals and the mentally handicapped. That attracts drug addicts and other undesirables who are desperate for quick money. They are generally treated like undesirables, or worse, like criminals.

Their bill will provide these unfortunates not only with some sort of formal legal status, but also with the chance to become citizens eventually. To stop many more following, European countries will need to spend heavily to give these unfortunates a good reason to stay closer to what was once home. I did my best to help unfortunates such as her. {Let's be honest with each other, just for a moment. The real thrill of a first- or business-class seat on the airplane doesn't come with the hot towel or the freshly baked cookie. It comes before takeoff, as you nestle into your seat, sip your champagne and pretend not to notice the lumbering hordes of unfortunates squeezing by.}

Much of what deeply influences society comes from the accumulated contributions of countless unknowns. I wanted to get young unknowns to perform the great works of the musical repertoire. As usual, dance on the fringe ranges across the spectrum: from hip-hop to the sacred dances of Tibetan monks, from works by established artists to the hopeful experiments of complete unknowns. Spain's Socialists have a habit of picking relative unknowns to lead them. Angela Merkel also wants a more open Europe, and her policy of appointing dull unknowns to EU posts has hardly been a resounding success. In Europe, political leaders emerge slowly, through party hierarchies; in America, the primaries permit inspirational unknowns to burst into the public consciousness

from nowhere. The real problem is that these candidates, despite their differences, are still basically unknowns. In Baghdad alone, whose vote is decisive in the election, Sadrist candidates, many of them political unknowns, were 6 of the top 12 vote-getters. The five men are not unknowns. Two unknowns named Howlin' Wolf and Ike Turner were among the first musicians he researched.

Gay people are the last of the untouchables. Gandhi was credited with fighting for a free India and for the rights of persecuted classes within the state, including the dalits or "untouchables". He is an important leader of the Dalits, the group at the bottom rung of the Hindu caste-ladder, once known as untouchables.

It took the jury of nine blacks, two whites and one Hispanic less than four hours to reach a verdict. Jazz: A kind of music played by blacks and listened to by whites. (Miles Kington) All minority ethnic groups in the study had a higher joblessness rate than whites, especially those under 25.

It must have been quite a funeral, and all the worthies came. All New York's Democratic worthies were there. Taking a principled stand on behalf of European consumers and industry, and poking a finger in the eyes of European worthies at the same time, could play very well on the local campaign trail.

MERKE: So ein Mehrzahl -s darf man aber nicht beliebig verwenden. FALSCH ist z.B.: Mother Theresa dedicated her life to the poors (RICHTIG: to the poor) in Calcutta. FALSCH ist auch: The purpose of the restaurant is to provide work for blinds. (RICHTIG: The purpose of the restaurant is to provide work for the blind / for blind people.) Andererseits gibt es aber auch Wörter, die man nicht für möglich halten würde: Among the hypnotizables, the visual area of the brain did not become active. Are High Hypnotizables Especially Vulnerable to False Memory Effects?

5.3.2. Es gibt einige Plural-Nomen, die sowohl mit als auch ohne -s auftreten können, z.B.:

Some alcoholics and drug addicts do stop consuming on their own, but this is rare. A failure to identify behaviours symptomatic with alcoholism delays treatment and increases the danger alcoholics pose to themselves and to others. I thought the book was about a bunch of sex-crazed Scottish heroin addicts, alcoholics and criminals.

Daneben: In the United Kingdom, treatment services for the alcoholic have grown up from a variety of voluntary and statutory bodies in an ad-hoc way. Few studies dealing with the children of the alcoholic have been published. {Most of the hospitals and sanatoriums that had treated alcoholics before prohibition had closed when it became illegal to become an alcoholic. By 1933 the opportunities for obtaining medical treatment for the alcoholic were worse than they had been before prohibition.}

Like anorexics, people with orthorexia are preoccupied with food and the state of their bodies. Even some magazines hated her skinny frame, blaming her for spawning a generation of anorexics. Anorexics severely restrict eating and become emaciated, yet see themselves as fat. With all this in mind, a growing number of eating disorder treatment facilities are treating obese patients with and without binge eating disorder in groups with anorexics and bulimics. With all this in mind, a growing number of eating disorder treatment facilities are treating obese patients with and without binge eating disorder in groups with anorexics and bulimics.

Daneben: {People should be cognizant of the various indicators associated with anorexia therapy for faster detection in loved ones. This becomes necessary as it is a known fact that the anorexic are very outstanding at hiding this addiction.} Discussing obesity is considered a shameful practice while the anorexic are labeled as having an eating disorder.

Meanwhile, globalisation is boosting the number of bilinguals. Many bilinguals are not bicultural. Some studies seem to show that bilinguals have smaller vocabularies in each language (at early stages) than monolinguals do.

Daneben: At the same time as managing their attention to this code, its vocabulary and its syntax, the bilingual will be paying attention to the cultural variants between the languages. {Brain plasticity is freaky. If you are bilingual you will recover your ability to speak much faster than someone who isn't after a stroke. The bilingual have many more pathways and the brain just reroutes based on opportunity.}

Eighty-two percent of whites and 87 percent of African Americans thought that blacks missed out on good housing "very often" or "sometimes" because white property owners would not sell or rent to blacks. The blacks are predominantly Xhosa-speaking. Across America blacks are leaving inner-city areas. Blacks were sold and forced into the workforce as slaves.

Daneben: It was the poor, the black and the oppressed who missed Robert Kennedy the most. Black Americans have been declared citizens with all the right guarantees but the black are ridiculed, rejected, and often left without a clear sense of self. {Fear and distrust of the young, the long-haired, and the black have often been reflected at the polls. In 1968, the presidential campaign was heavily flavored by the issue of law and order, and nearly 10 million votes were recorded for George Wallace.}

Zwischen "braves" und "brave" gibt es einen Bedeutungsunterschied: "braves" sind Indianer-Krieger (siehe Eintrag unter 5.3.1.), "the brave" sind dagegen "die Tapferen" generell (siehe Eintrag unter 5.1.).

Modern conservatives don't fear technology, they oppose new technologies that harm their friends. Many conservatives do not agree with it. The conservatives all express skepticism,

Daneben: The problem is the conservative don't really have much to conserve. The Conservative are now the 'party of home ownership'. The Conservative are asking the Ethics Commissioner to launch a new investigation into the ongoing WE Charity scandal.

The headline of the analysis was said to read: "Nowadays, Labour is the party for down and outs, not 'people like me'". Camus spent some time with the down and outs of New York City. It centres on the down and outs of a Canadian trailer park, whose daily struggles include scraping enough money together to buy smokes, repelling cats who piss on their weed plants and trying not to pass out drunk in the street.

Daneben: The camera does not discriminate: the rich and titled are sometimes as lensworthy as the down and out. Determined to shed their image as dank backwaters for the down and out, stores that sell used goods have installed better lights, dressing rooms and even coffee bars. It's a song about the down and out sleeping under the arches of the Thames Embankment, "Underneath the Arches".

He also voiced concern that disruptive behaviour by drunks and their friends poses a risk to other patients. Alcohol is well known to be a contributory factor in incidents of disorder but it is a complex issue and a crackdown on 'troublesome drunks' is too simplistic an answer. In Bogotá, the capital, police have caught 64% fewer drunks at the wheel since the law was put in place.

Daneben: {Red signal jumping is relatively frequent at night, but the virus is spreading. The young and the drunk are more prone to do it.} Could the elderly, the infirm, the drunk have fled so easily? {"God damn it!" Bitty says with the fury and sadness only the drunk have.}

I now have a lot of dyslexics in school and their self-esteem is through the roof because they see a head teacher who is the same as them. Anatomical differences between the brains of dyslexics and non-dyslexics were first noticed in 1979. Albert Galaburda of Harvard Medical School found two sorts of microscopic flaws in the language centres of dyslexics' brains.

Daneben: You can also obtain Microsoft publications from Recording for the Blind & Dyslexic (RFB&D). I can tell you that the dyslexic are usually very, very intelligent, even gifted, sometimes. Thus the dyslexic can't understand and articulate language at the same time.

For this and other reasons, firstborns tend to be more successful than their siblings. A high proportion of eminent scientists and scholars have been firstborns. Firstborns tend to be more conservative and identify more with power and authority, where laterborns tend to question the status quo and become our greatest revolutionaries.

Daneben: The firstborn are always significantly more successful than later-born children. Are the firstborn always jealous of their siblings? The firstborn were the most important, because they were going to inherit everything.

In the 1930s a German geneticist claimed to have found a gene shared by many male homosexuals. Its TV news anchor is Dmitry Kiselev, described as Russia's chief propagandist with a record of attacking homosexuals. Last month nationalist politician Dauren Babamuratov called for a ban on homosexuals serving in the civil service and the army.

Daneben: These theories and hypothesis have come about as a result of men falling under the belief that straight men are 'normal' and the homosexual are 'abnormal'. The fewest objections to the homosexual are found in the very lowest of the social levels, in the best educated groups, and in top society. (Kinsey Report) There were times when the homosexual were persecuted, imprisoned and punished for who they were.

Voters in the state are typically the first Americans to have their say on the country's presidential hopefuls, thanks to the Iowa caucuses. Exercise is not just for Olympic hopefuls or supermodels. He is one of the British hopefuls for the London Olympics.

Daneben: The town hardly seems a destination for the hopeful. It is the migration of the hopeful. The manipulative prevail; the hopeful and decent merely subsist.

A Fox News poll shows 52 percent favor deporting the illegals back to their home countries. The current immigration system is about as badly broken as it can be, with 8m immigrants residing in the United States illegally and another 1m illegals arriving every year. Illegals are often reluctant to call the police; they always ask for a driving licence.

Daneben: {Illegal immigration is a problem we've had for more than a decade. It is unfair to both the illegal and the legal. Somehow the illegal must be brought into our system so they will participate in all our laws.} (Jeb Bush)

He made a particular point of the need to weed out the incompetents. They were just a bunch of incompetents. {"Yet every large concern is employing many of these incompetents," Edison said in a 1921 interview, causing loss to the companies — and, therefore, to the public — of untold millions. If concerns would only get up a little questionnaire and have candidates for positions take this test, at the least the worst of the incompetents could be prevented from being put into positions where their gross inability results in incalculable loss."}

Daneben: Why should I vote for the incompetent? As with any system of competition, it rewards the best teachers, and punishes the incompetent. In doing so, it tended to hamper enterprising farmers and protect the incompetent. The incompetent have an incredible ability to prioritise the least important aspect of any job.

I believe that mass surveillance of innocents — the construction of enormous, state-run surveillance time machines that can turn back the clock on the most intimate details of our lives — is a threat to all people, everywhere, no matter who runs them. We intervened in Libya alongside a broad coalition, and with the mandate of the UN security council, because we had the ability to stop the slaughter of innocents. When innocents in Bosnia and Darfur are slaughtered, that is "a stain on our collective conscience".

Daneben: The innocent deserve protection. "Why must the innocent suffer?" we ask. It is sacred ground that's been stained in the blood of the innocent.

Then Lloyd George went on to promote 'well thought-out schemes' to provide help 'for the sick, for the invalids, for the widowed and for orphans'. Most cannot afford an education: without government assistance, thus far feeble, they will remain intellectual invalids. Officials are investigating whether the men are homeless invalids or military veterans who were forced to hand over their welfare money.

Daneben: Later, carts designed for the elderly and the invalid were introduced successfully. Men without limbs, the walking wounded, and those left in homes for the invalid were daily reminders.

It's surprising how many of those old ideas have come back and are actually being discussed now again, even by self-professed (European) liberals. Contemporary political theory is preoccupied with a debated between liberals and communitarians. Liberals focus on a different key characteristic—personal autonomy.

Beide Formen in einem Kontext:

{What if the pious and the liberal were to become more understanding of each other? What if liberals were to become as known for their humility, respect of others, and personal prudence as they are known for their social concern? What if conservatives were to define family values widely enough to include the welfare of the poor and of all races?}

Daneben: And of all virtuous people the liberal are perhaps the most beloved, because they are beneficial to others. (Aristotle) The liberal are becoming illiberal in their liberalism, the tolerant intolerant of ideas.

So far he has sought to buy off the malcontents. The malcontents may also represent a generational shift among migrant workers. The interesting adults are always the school failures, the weird ones, the losers, the malcontents. Thus, at his death, the malcontents placed Bayezid on the throne, discarding the sultan's favourite son, Cem (Jem), and initiated a reaction against Mehmed's policies. His family properties sequestered, he later led the Hungarian Protestant resistance to the continuing repressive Habsburg policy and in 1680 was elected commander in chief of the malcontents. Aldous Huxley: "Advancement makes people indebted to the malcontents."

Beide Formen in einem Satz: It is often thought that geniuses are malcontents, especially in fables, where a Tiny Tim comes along to melt the heart and make the malcontent see reason.

Daneben: Of course many Tory MPs are retiring at the next election, but if the Tories win a new term, the ranks of the disillusioned and the malcontent will begin to swell again. Most leaders are plotted against at some point and all leaders must handle discontent, but there is an intensity to the malcontent among Tories that is particular to that party. One of the main targets of the malcontent is Caius Martius, a haughty general who makes no secret of his disdain for plebeians.

The decision privately welcomed by moderates within the party. The ceasefire will give relative moderates both within the regime and among the opposition an opportunity to reassert themselves. Some are concerned the Ukip leader is a divisive character unlikely to win over moderates. After that, the gates may just open wide enough to allow the "moderates" to come back in and fill the space in which ordinary policy-driven politics actually gets done.

Daneben: {I want to believe in collaboration, but policies of appeasing the moderate are far from ideal. Consistent "settling" never has been or will be coherent with a consistent change in any arena of politics.} {"In the beginning, they were afraid; now there is trust," he continues. "They know who the moderate are. And who is not."} The ideas of the extremist and the moderate are at the heart of the War on Terror.

Sufficient hygiene is particularly important with newborns. Jaundice can lead to brain damage in newborns. The newborns are blind and usually weigh around 1kg. By morning, three newborns were already dead.

Daneben: Lions like to live in a stable family group and yet the young ones, especially the newborn, are always vulnerable. In Sweden, the newborn are quickly examined a day or two after birth for dislocation of the hips, a not too uncommon finding in female infants.

Young people have always rolled their eyes at the received wisdom of the olds. {At our last family camping weekend, there were 21 of us – that's three generations of crooners all with very different ideas of what campfire songs should be. I was a Girl Guide in my youth, so my repertoire of campfire songs generally suit the tastes of both the olds and the little 'uns.} Looks like some of the olds can keep up with the times, like the Pope who has his YouTube channel and supports social media. I certainly wouldn't want to feel like I'm forced to talk to someone when I'd rather be quiet, and I doubt you oldies are any different, seeing as how the olds are often rude and cranky.

Daneben: The old know loneliness and isolation, even depression. Because the old know they are closer to death, she argues, they grow better at living for the present. She is pleased that cosmetics for the old have improved. Where the old have moved inland, to cathedral cities like Lichfield, high house prices have followed.

Jesus favoured the outcasts of his time. For the outcasts, this can mean losing tribal housing, education, welfare and sometimes cash payments, not to mention identity and community. Slaves and outcasts such as butchers, shamans and prostitutes did not have the luxury of a family name.

Daneben: Be like Christ: identify with the outcast. God is present when and where the oppressed are liberated, the sick are healed, the outcast are invited in. The outcast are welcomed into God's kingdom first.

{Napoleon's dealings with the Church of Rome followed a much tortuous course. His instinct for religious conciliation, which has seen at work in Italy and Egypt, led him to open his term as first consul with a series of gestures toward the 'recalcitrants', priests who had never accepted the Civil Constitution of the Clergy.} Certainly, for the recalcitrants there is safety in numbers; they may be aware that the police cannot arrest or charge all of them.

Daneben: {As is often the case, when modern architecture meets ancient heritage, discussions raged between supporters and detractors of the tower, even if after years of construction, it now seems to have "entered the landscape" of Arles. "The desire is that people come and take over this place and that the recalcitrant can also come and see what is happening there," said Maja Hoffmann, Swiss patron, who sees the building as a "beacon".} {In 1718, the repentant pirate Woodes Rogers was sent to the island as governor by the English Crown to restore order to the city [= Nassau] and establish a proper administration. He offered to buy the pirates' surrender and many of them accepted. The recalcitrant had to retreat to neighbouring islands. Piracy was officially stopped.}

But though he did not seek public attention, he was one of the stalwarts of the Labour party in the north-east, with a reputation for being honest, fair, straightforward and down to earth. Already, hopeful young faces are replacing some of the old stalwarts who long ran the place. Most of its members are either youngish technocrats or party stalwarts who served in cabinets in the 1990s. The president appointed a new prime minister, sacked several ministerial stalwarts, and brought in a new economic team.

Daneben: Only the stalwart are game enough to explore the fishing at Devil's Creek. The towers stand in flames, the church is overturned, the town hall lies in ruins, the stalwart are hacked to bits, the maidens are deflowered, and everywhere we look: fire, plague and death oppress the heart and soul. Only the stalwart have ventured there. {The ranks of the stalwart have now been weakened. Who will stand up? Who will take his place?}

This is what the Republican Party looks like without any moderates to buffer the crazies and the stupids from the rest of the world. This is an auto-bio about/by a pretty and smart girl named Susie who exists in a world of ugly stupids who don't appreciate what a great person she believes she is. People who deface or ruin statues are criminals and belong in jail with the other stupids.

Daneben: The fundamental cause of the trouble is that in the modern world the stupid are cocksure while the intelligent are full of doubt. (Bertrand Russell) The stupid are invincible. (A. Einstein) {The stupid are paragons of consistency, acting at all times with unyielding idiocy. This makes stupid people dangerous.}

Will the undecideds stay home? What I'm concerned about is the undecideds. All the undecideds went someplace else. Critical to Tuesday's election, then, are the undecideds. But it's also not necessarily the case that the undecideds will split evenly. And the voters who are less intense, the undecideds, are probably not watching. Late last week, I noted that there were signs that the undecideds were breaking to the Republicans.

Daneben: More than 60% of the undecided are Syriza voters. Energize the base or court the undecided? Her performance provided relief for her supporters and a potential lure for the undecided. Political animals often generalize about the undecided, describing them as "low-information" voters. "Battle for the Undecided," was the headline in The Albuquerque Tribune, the city's afternoon daily. It's the older ones, the undecided, we've been trying to convince.

Thousands of passengers were left stranded and one planeload of unfortunates spent eight hours sitting on the tarmac, with precious little food or drink to sustain them. The bill will provide these unfortunates not only with some sort of formal legal status, but also with the chance to become citizens eventually. To stop many more following, European countries will need to spend heavily to give these unfortunates a good reason to stay closer to what was once home.

Daneben: Giving what we have to care for the unfortunate will be a source of blessing. {Cyber security will remain an issue. The vulnerable will still be duped and the unfortunate will be hacked.}

Most of the brave ones are dead. For too long we have relied on those who have experienced violence to be

the brave ones to speak out, stand up, and fire back. The people who choose to get involved are the brave ones. For millions of years, the conflicts between the hunter and the hunted have driven life's evolutionary course. Biologists think the seals' eyes are sensitive to the faint bioluminescent light emitted by their prey, but a new study has found that the hunted have a way of turning that to their advantage. {The theme of inhumanity and cruelty is presented at the beginning of the story as Whitney and Rainsford discuss the sport of hunting. To Whitney, the hunted have feelings, even if it is only the fear of pain and death.} *(In diesen Beispielen wird "the hunted" allgemein verwendet, ohne Einschränkung.)* ≠

One thing is for sure however: in 2011 we will be the hunted ones, not the hunters anymore. To find out, they compared the behavior of lionfish in different Bahaman coral reefs — eight of which had been culled every few months for two years prior to the study, and the rest of which were untouched — to see if the hunted ones

Mr Erdogan would do better this time if he worked with the opposition to produce a constitution that met the wishes of all Turks, not just pious ones. Some have permitted the cutting of nails, but the more pious ones have found it difficult to allow. *(“Ones” bezeichnet hier ein Teilgruppe aus einer größeren Gruppe.)*

The rich will get richer, and the poor will suffer. The poor are invisible. The poor have fewer options. *(Das sind allgemeine Aussagen.) ≠*

{It was easy enough to tell the stable-hands and butcher-boys from the guardsmen and the other well-off ones. Their clothes marked them. The men who earned more wore silver and brass on their collars and their cuffs. The poor ones couldn't afford to.} Foreigners are alright as long as they're big businesses; it's only the poor ones we don't like. Among children born in 2000, the poor ones with a good vocabulary at age three had fallen back

just two years later; meanwhile, rich but less verbally adept ones made up ground. (*Hier sind die Armen aus einer Gruppe von Menschen gemeint.*)

The quiet know that there are, of course, some genuinely special things going on in the world, but they do not let the obvious signs of glamour be their guide to these. Alea Hotel & Suites: Great for the quiet and lazy - See 230 traveler reviews. The quiet know that there are, of course, some genuinely special things going on in the world, but they do not let the obvious signs of glamour be their guide to these. (*"The quiet" sind hier ruhige Menschen allgemein.*) ≠

Seminare and workshops tend to be dominated by a few students while the quiet ones do very little. Always keep an eye on the quiet ones. Unlike Mr. Mobutu, who had skillfully co-opted his political opponents, Mr. Kabila simply ignored the quiet ones and clamped down on the troublemakers, creating adversaries at home. (*Hier sind nur einige aus einer Gruppe gemeint.*)

Robin Hood took money from the rich and gave it to the poor. (*Hier sind "rich" und "poor" verselbständigte Adjektive und bezeichnen Arm und Reich allgemein.*) The rich get richer and the poor get poorer. ≠
{A man I know solved the problem of too many visiting relatives. He borrowed money from the rich ones and loaned it to the poor ones. Now none of them came back.} (*Hier sind nur Teile einer Gruppe gemeint, nämlich der Verwandten des Mannes, nicht Arm und Reich allgemein.*) Ebenso: His disciples multiplied and the rich ones donated money. (*Hier ist eine Teilgruppe der "disciples" gemeint.*)

Even the sane are driven by compulsions. Mad people can see the world in ways that the sane are blind to. A theme of the work is how indistinguishable the sane are from the insane. (*Hier werden "the sane" allgemein gesehen.*) ≠

{We want a few mad people now. See where the sane ones have landed us.} (G. B. Shaw) It looks as if the children are the only sane ones in the picture. Amid this drama, however, it's worth remembering that even the sane ones are pretty much off the deep end, all too willing to buy into crazy conspiracy theories. (*Hier ist von Teilen einer Gruppe die Rede.*)

Local hospitals help the sick. The sick must fight to get into clinics or seek care elsewhere, as in urgent care centers or emergency rooms. Governments do not insist that the homeless must have a shelter, or that the sick must have the services of a doctor. (= *Kranke Menschen allgemein*) ≠

All the ship's passengers were from the United Kingdom, and all the sick ones had flown to Florida on the same charter flight. (*Hier geht es um die kranken Passagiere innerhalb einer Gruppe.*) Private-sector health care can't work without some sort of mandate that healthy people as well as sick ones must carry insurance. (*Hier sind die "sick ones" eine Teilmenge der Bevölkerung.*)

The unemployed will search for jobs online. Unemployment obliterates the world of the unemployed. (*Hier sind Arbeitslose allgemein gemeint.*) Benefits for the unemployed are extended for another year. ≠
Socially, youth unemployment is not only of concern to the unemployed ones but also to the whole society. (*Hier wird auf einen Teil [= die Arbeitslosen] einer Gruppe [= die Jugendlichen] Bezug genommen.*) Food supply, prices, and in the end the fear of starvation became emotional political issues between farmers and industrial workers, in particular the unemployed ones. (*"The unemployed ones" sind ein Teil der "farmers and industrial workers".*)

In war the weaker have always recourse to negotiation. (David Hume) (*Hier ist kein Teil einer Gruppe gemeint, sondern eine ganze Kategorie.*) ≠

We had to abandon the weaker ones – we couldn't even bury the corpses. (*Hier ist von einem Teil einer Gruppe die Rede.*)

Many officers were among the wounded. The wounded were lying in corridors awaiting treatment. (*Hier bezeichnet "the wounded" eine [nicht unterteilte] Gruppe.*) ≠

{About 1,200 people remained in the yard. The Germans took away the ones who managed to get up. I was told later that they were taken to a prisoner camp in Pruszkow 20 km from Warsaw. The Germans assumed that we, the remaining group of the wounded ones, were civilians. Of course, no one was rushing to tell them the truth.} (*Hier sieht man, dass mit "(wounded) ones" ein Teil aus einer Gruppe bezeichnet wird.*)

Dieser Unterschied zwischen allgemeinen Begriffen und konkreten Einschränkungen ist aber nicht in Stein gemeißelt, manchmal findet man Inkonsequenzen sogar innerhalb eines einzigen Satzes:

"The innocent will be let go and the guilty ones will be incarcerated and go to trial," he said on the ABC broadcast. (Nach "the innocent" steht hier kein "ones", obwohl die Unschuldigen eine Teilmenge aus derselben Gruppe sind, aus der auch "the guilty ones" stammen.) Analog: The strong will survive and the dumb ones will die. Let us punish the guilty ones and let us reward the innocent. (Song text)

Im nächsten Beispiel steht kein "ones", obwohl es sich um eine Teilmenge aus einer Gruppe handelt: {On 26 September 1941, German and Lithuanian policemen surrounded the Ariogalos and Veliuonos streets in the ghetto. Jews were taken out of their flats and the selection of the condemned began.} *Daneben aber auch:* {On 12 December 1943, the commandant of the Akmenė Jewish camp (this camp belonged to the Šiauliai Ghetto) ordered the arrest and extermination of eight children and one woman. The condemned ones were shot by ROA members inside the camp for all to see.}

Auch in den vier folgenden Beispielen würde man ein "ones" erwarten, weil es sich um eine Teilmenge aus einer Gruppe handelt: Compliant clergy members are rewarded with health care benefits, pensions and television sets; the recalcitrant are sometimes expelled from their monasteries [in Tibet].

{The Houston Methodist hospital group had given them until June 7 to prove they had received their dose [of Corona vaccine]. After the deadline, an internal hospital note specifies that the recalcitrant are suspended for two weeks without being paid, then dismissed if they still do not comply with the employer's requirement.}

The two girls were among the lucky. You should count yourselves among the lucky.

FALSCH sind aber jedenfalls Sätze vom Typ: In the Middle Ages, books were unavailable for the poor ones. (*RICHTIG: ... for the poor.*) *Die Armen gelten hier als eigenständige Gruppe und nicht als Teilmenge der Gesamtbevölkerung.*

7. In den Kapiteln 1-6 war stets von Menschen (oder konkreten Dingen) die Rede. Es gibt aber auch abstrakte Begriffe, die aus Adjektiven oder Partizipien abgeleitet sind. Oft lassen sie sich 1:1 vom Deutschen ins Englische übersetzen:

Once again, with his matchless homing instinct for the funniest and quirkiest, his unerring eye for the idiotic, the endearing, the ridiculous and the scandalous, Bryson gives us an acute and perceptive insight into all that is best and worst about Britain today. [About: Billy Bryson, "The Road to Little Dribbling"]. Rewarding the mediocre and the conventional, while overlooking the scrupulous and the innovative, amounts to playing the short game. {In man, the animalistic and the beastly have evolved alongside the strictly human. Whatever is animalistic in us is not confined to our prehistoric past.} For a mixture of the modern and the mediaeval, of the practical and the wildly fanciful, I think this is surely the limit. Whenever the internal and subjective becomes confused with the external and objective we may speak of projection. This newspaper column thrives on the bizarre, the trivial and the perverse. His account of the journey is full of the obscure, the unlikely and the delightful. The answer lies in our stubborn obsession with the real, concrete and factual. This collection of photographs interweaves the professional and the personal, the public and private, in startling ways. The maps created there range from the useful to the fanciful and from the simple to the elaborate. His personal tastes were for the exotic, artistic and classical. Politics is not the art of the possible – it consists of choosing between the disastrous and the unpalatable. (J. K. Galbraith) A taste for the difficult, the unconventional, the ugly has often been seen as a mark of sophistication. It's usually profitable to stick with the easy and obvious than it is to resolve the difficult. (Warren Buffett) There seems to be a national trend towards the unclear, the imprecise, the vague and the equivocal. Is there an excessive emphasis on the new, the unusual, the sensational, or the dramatic? {My misgivings started then. Wasn't Lady Gaga an artist already? Born Stefani Germanotta, she has certainly worked like one, mingling the generalized and the personal, the accessible and the inexplicable, the market-savvy and the strange.} For Thoreau, only the essential, the simple and the natural are worth living. Many people have a strong preference for the natural over the synthetic or artificial. Hear the good, the bad, and the surprising about living in this giant metropolis. The bare, naked truth: the good, the bad and the surprising about sex in British history, from the Middle Ages to the twentieth century.

Es folgt eine alphabetische Liste von Adjektiven bzw. Partizipien, die typischerweise von "thing" gefolgt werden. Ein solches "thing" kann man als "prop word" interpretieren analog zu "one" in den Kapiteln 1.1. und 1.2., weil es dazu dient, eine Leerstelle auszufüllen, die zwar im Deutschen, nicht aber im Englischen zulässig ist: The moment he pulled the trigger, there was near-universal agreement that President Obama had done the inevitable thing, the right thing and, best of all, the bold thing.

The all-important thing was that he should reach New York at the earliest possible moment. The all important thing for me is that our clients get the best value they can from their credit insurance policy.

The amazing thing is how fast it all happened. The amazing thing in the USA is the highways. Wouldn't that be the most amazing and beautiful thing if we could pull it off? (R. Dahl)

She says the most appalling thing she has ever seen in a restaurant was a Caesar salad stuffed into a hole hollowed in a country loaf. The appalling thing about fascism is that you've got to use fascist methods to get rid of it.

The most astonishing thing about the whole operation was that everyone was confident that it would be successful. The really astonishing thing was that nobody seemed to care. The astonishing thing was that he regarded me as his teacher.

Perhaps the most beautiful thing about her was her voice. Going into Euro 2016 we are massive underdogs, but the most beautiful thing about football is that anything can happen. The beautiful thing is that people have learned about jobs that we do that they didn't know anything about.

She saw the game was up, and did the bold thing – took me into her confidence. (A. Christie) I knew that the bold thing for me to do at that point, even though I still didn't have a clue about how to go about it, was to "step out" of my "box," take a huge leap and do what I could to become a speaker, coach and author.

The truly chilling thing about it is how familiar it all seems. The sense of inertia is sometimes the most chilling thing in the South African political landscape.

"Why don't we start doing the clever thing and follow the money," he said, attacking alleged Turkish and Saudi involvement in ISIS funding. The clever thing about the agreement is that it disguises some of its worst aspects in a language that is so dense and impenetrable that it is difficult, at first, to know what it means.

The critical thing is to be able to purchase those vaccines. "The critical thing about the governor is that nobody believes him," one Republican budget expert said. Mr. Gargano said the critical thing to do now was to identify the size and location of the memorial park.

And then the curious thing happened. The curious thing is that not one front-rank politician ventures a word of criticism. The curious thing about these lessons is that they last only 30 minutes. The curious thing was that, while it was hard to do without sweets at home, it wasn't nearly as hard when we went out to eat. The curious thing about the British is that we made fun of ourselves from a position of power.

The depressing thing about tennis is that no matter how good I get, I'll never be as good as a wall. (Mitch Hedberg) The depressing thing about this city is that the artists are even more bourgeois than the fucking bourgeoisie.

The most difficult thing in the world is to know how to do a thing and to watch someone else do it wrong without comment. (T. H. White) The difficult thing was that we had to keep it a secret.

That, to me, is the disappointing thing about this whole episode. We still haven't played as well as we can and that's the disappointing thing. The disappointing thing is the manner of the goal conceded. And then the disappointing thing was we were all sent home.

The disarming thing about Grierson's argument is that he admits that he is a propagandist. The disarming thing about Parr's music is how familiar it all sounds.

It was the most disgusting thing I have ever seen in my life. The most disgusting thing I've ever eaten was a zebra-meat jelly.

"To me, the most dramatic thing I did was to expose the illegal contract," she said. PISA showed that a lot of those kids forgot all they learnt in elementary school ... and the most dramatic thing was they couldn't learn any more.

{Giving up smoking is the easiest thing in the world. I know because I have done it thousands of times.} (Mark Twain) To be fired at and attack the enemy is not the easiest thing in the world. "There are so many ways to rationalize doing the easy thing.

The eerie thing was how silent it was. The eerie thing, I guess, is that they never take their eyes off of you.

The most exciting thing to me was the assignment I had received – I was to be a fighter pilot! "The exciting thing will be to see the response," he said.

The extraordinary thing is, many thousands of Americans are ready to do just that – to believe Donald Trump. The extraordinary thing about Woodstock was that there was very little trouble; even when the rains came, the crowd responded by caring for each other. The extraordinary thing is that for the first time in 25 years, there is new Arts Council money available to do it with. I think the most extraordinary thing about my life is how ordinary it was.

That's the fascinating thing about the sport, isn't it? The fascinating thing about power is that when you have it, you don't need to raise your voice. The combination of the two forces must have some effect in pushing up productivity, and the fascinating thing will be by how much it does so. The fascinating thing is that archaeologists have determined it was made from a hunk of jade near the top of a mountain — even though an equally beautiful ax could have been made from more accessible material at the base.

The frightening thing is that it is all in the hands of the politicians. The really frightening thing about the figures, however, is the way in which they had to be massaged to avoid being even worse. Is it true that stand-up comedy is the most frightening thing in the world?

The most fundamental thing that we need to do in Iraq is establish the rule of law. The fundamental thing that separates life from non-living chemistry is information.

The funny thing is that I brought this through customs, and they didn't say anything. "The funny thing was that everyone took it seriously," he said. The funny thing is that it was only the beginning.

But the good thing is that everybody else is tired. The good thing about Broadway is they love to perform. "That's the good thing about it," Jackson said. The good thing about asteroid impacts is that they are both rare and avoidable.

The hard thing was that nobody understood her predicament. "The hardest thing for a head coach when you aren't winning games is breathing energy into everybody," Edwards said.

He would do the honourable thing and resign long before anyone thought of sacking him. I tried to do the honourable thing with my ex-wife – alimony, child support, giving her both houses. Don't you think the honourable thing would be to tell Berta? {At Nagelberg Bernard, we don't take a fee until your case is won or settled. We think this is the only honorable thing to do.}

That is the most idiotic thing I have ever heard. "In hindsight, it was the most idiotic thing that could have been done," he said. The Weekly Standard's John McCormack called it "the most idiotic thing a politician has ever said".

The important thing is to put the matter right. The important thing is that students be involved in something. We knew that the important thing was to keep the hijackers talking. The coronavirus made them realize their life is the most important thing they have. You have to remember that the most important thing in my business is to open in the right location. What do you consider the most important thing about yourself? He said it was the most important thing that he had done in his life. The most important thing about a business is the quality of people who work in it.

The most incredible thing about miracles is that they actually happen. It's the most incredible thing that's ever happened to me. This was the most incredible thing I've ever seen, and I'm not exaggerating. The fact that he survived is the most incredible thing.

The interesting thing is that all patients are women. He only describes the most interesting things about his life on the island. The only interesting thing about him is that he wears a bow tie. The most interesting thing in the classroom is the other children. And yet – here's the interesting thing – history suggests otherwise.

The intriguing thing is that the grim news has scarcely registered here. The intriguing thing to me about working in agricultural biotechnology at this moment is watching how a multitude of subdisciplines such as plant physiology, biochemistry, genetics, molecular biology, bioinformatics, and molecular and conventional breeding are blending into one big continuum where the lines begin to blur.

The incredible thing is that he was right. It is always the incredible thing that happens.

The irritating thing was that the answer was there – somewhere. Her grin is the most irritating thing about her, the color of her hair an unwelcome reminder that we are indeed related.

The main thing was to dodge enemy troops. The main thing is not to think too much. The main thing of being famous is that when you bore people at dinner parties they think it is their fault. (H. Kissinger) The public doesn't want new music; the main thing it demands of a composer is that he be dead. (Arthur Honegger) The main thing is the economy.

But then occurred the most marvellous thing of all. He said to me that the marvellous thing about working in England is the standard of the actors. The marvellous thing about Wagner's operas is that many single acts can stand on their own as dramas.

The truly memorable thing was the service. The memorable thing about the characters in Ms. Quatro's subtle, sexy and reflective stories, though, is how open they are to emotional and intellectual experience.

The miraculous thing for me was the collaboration. "The miraculous thing about Ginnie is she would recognize us, even by our voices, many years later," Mr. Doyle said.

We all think she did the natural thing. It seemed like the natural thing to do around the holidays. Did breast-feeding feel like the natural thing to do? Moving on is the natural thing to do after a breakup.

The nice thing about it was that there was a compatibility. Ms. Garren said: "That's the nice thing about house concerts. "Going to court is not the nice thing to do," Mr. Hemel says.

The obvious thing to do is to exploit that technology. It just seemed like the obvious thing to do. The obvious thing, of course is to say no. That got their attention, and I told them the obvious but necessary thing: "Likely, our target will be wearing a suicide vest or have one close by."

The odd thing was that I couldn't see any sign of devastation. And the odd thing is, they were right. The odd thing is that nobody has even asked Germany, or most other Europeans, to take part in strikes against Syria.

He failed to do the one thing that might have changed her mind. There seemed to be only one thing to do. At last, he asked for the one thing that I could not give. There is one thing that I'll never understand. The one thing you didn't want was an accident.

The only thing that got her through that experience was the dream of going to America. Procreation isn't the only thing that counts. Education is the only thing that lasts. The only thing that should matter is what works. His popularity is not the only thing that has dropped. The only thing he hurt was my pride.

The only really original thing about them was their name. But museums should be devoted to the original thing. When a writer describes a painting, or a photograph, or a scene from a movie, or the particularly graceful act of a dancer or an athlete, we want to see the original thing.

The puzzling thing is that such promotions don't happen more often. The puzzling thing for anyone outside America is the conservatism and docility of the American working people. It's a classic sign of a heart attack, but the puzzling thing was that she didn't suffer from coronary heart disease.

When he invited her to his flat, she did the only reasonable thing: she said that she needed to wash her hands and in the loo she phoned her parents to pick her up. That would be the reasonable thing to do, even though reason is in short supply in today's Washington. The reasonable thing to do was to leave the car in Detroit and let my brother take care of it.

The most reassuring thing he told me was that it is impossible to grow without conflict. The reassuring thing about Mitt Romney is that for most of his life he probably wouldn't have voted for today's Mitt Romney. The reassuring thing is that most of these labels survive somehow.

The most rewarding thing of all is to have someone confide his fears in me and be able to reassure him. I think the rewarding thing is being able to involve her in everything that everyone else is doing. For us, the rewarding thing isn't fame or money.

That's the most ridiculous thing that I have ever heard. But the ridiculous thing was it was our own supporters who were hating us. What's the most ridiculous thing he bought?

We knew that it was the right thing to do. I hoped I had done the right thing. It was the right thing to do, wasn't it? You want to be sure that you did the right thing? I believe that he is doing the right thing. She is convinced that having her first child at 18 was the right thing to do. Thank goodness President Bush has now said the right things and promised that the US would lead in the relief efforts. So he set about doing what he thought was the right thing. Buying Google shares would have been the right thing to do. He still believes that he did the right thing. There are times when doing the right thing means not playing it safe. You did the right thing by ending the abuse. We trust them to do the right thing.

The sad thing was that he was well aware of his failing mental health. The sad thing was that we didn't even know his name. This is the saddest thing, but I see no way out.

That would be the safest thing to do. She felt that the safest thing she could do would be to get out of the way. We decided that the safest thing to do was abide by the embassy warning and go home.

Twenty-two out of twenty-six did the selfish thing and chose option two. The ways we have of failing each other of doing the selfish thing, of letting each other down!

That would have been the sensible thing to do. They knew they were doing the sensible thing.

The most shocking thing about the insurrection is how quickly Donald Trump betrayed his most fervent followers. "The shocking thing is that the teachers wouldn't do anything," Ms. McCray said. I think the shocking thing you learn right away is that it's all about *them* — it's suddenly not about you and your career.

The strange thing is that they refused to say anything. The strangest thing that has ever happened to me was back when my neighbors invited me to their evangelical church. Then the strange thing happened which made so wonderful a change in his life. The strange thing was that he never appeared again. The strange thing was how quiet they were. The strange thing was that we regular officers were forbidden from joining political parties. The strange thing was that he was more relaxed now, after being told the news.

The most stressful thing is coping with being disabled. The most stressful thing I've ever had to do was Tabitha's hair and make-up at her wedding. Whenever we ask women about the most stressful thing in their lives, housework is at the top.

The stupefying thing is that this seems to be the way most people want it. The stupefying thing about the NFL's treatment of Brady's case is that it fit into a bewildering pattern. The stupefying thing is that the other euro governments accepted this clause even though it was financially dangerous and certain to be rejected by the populace and its representatives.

I suddenly understood the terrible thing that I had done. {But Macbeth suffers from none of these perceptual shortcomings. The most terrible thing about his tragedy is that he goes to it with his eyes wide open.} She hadn't really seen him angry before now, but she had heard the most terrible things about his temper.

The most tiring thing of the whole evening was the crowd who flocked into the dressing room before I could escape. (C. Doyle) The tiring thing is that you have to continuously explain and prove that it also has value for the developers. The huge amount of travelling we do is the tiring thing," he said.

The most tough thing is that I can't see my children anymore. The tough thing about a semi-final is that one of two top teams has to go – this time we had the better end. The tough thing is, when I'm sitting at home some days, I'm like, there's no way I can do this again.

The most tragic thing in the world is a sick doctor. The tragic thing is that I think there is nothing anyone can do to stop this from growing in the future. "Isn't that the tragic thing about the world we live in?"

The unfortunate thing is that Helen tends to make snap decisions. But the unfortunate thing is that the recovery is losing momentum, the rate of growth is slowing. The unfortunate thing is people disregard him.

{The Pope says homosexuality is unnatural. Surely the most unnatural thing in the world is not having sex at all.} (Andy Parsons) How does one make sense of the most unnatural thing possible? They toss Coke cans and cigarette butts into the street like it's the natural thing to do when it's so obviously the unnatural thing to do.

In cases such as [this] it is the usual thing to go over the culprit's career to find premonitions in his earlier life of how he behaved later. (Peter Medawar) For this project, we let the women choose, and that is not the usual thing. Most of the people he went up to did the usual thing of recoiling slightly and looking away.

Truth is the most valuable thing we have – let us economize it. (Mark Twain) "The valuable thing about Kickstarter is the community," he said. In this day and age, the valuable thing isn't necessarily people's dollars as much as it is their e-mail addresses and their loyalty.

Here's the weird thing: I actually kind of enjoyed them! Here's the weird thing about the Murdoch family. The weird thing is, my firstborn son has that same break in his finger. The truly weird thing about my upbringing was my parents' gift for making their weirdness seem absolutely normal and natural.

The whole thing was over before I could react. The whole thing was absurd. He must have felt the whole thing was too much for him. The whole thing hinges a good deal on the testimony of Janet Mackenzie. She laughed as though the whole thing were a joke. We knew that the whole thing had been a disaster. The whole thing was very complicated. There were allegations that the whole thing was a political stunt. Had he really seen the whole thing? She had watched the whole thing from her window. Eventually the whole thing was called off.

This is the wonderful thing about music. But the surprising and wonderful thing is that human minds are quite easy for others to read. The wonderful thing about email is its immediacy.

Perhaps I have said the wrong thing? Will you tell me any wrong thing that he has done? Don't make them ever angrier by doing the wrong thing now. He was afraid I might say the wrong thing. I think she must have been very strictly brought up, she's so desperately anxious to do the wrong thing correctly. (Saki)

Wie so oft in der Linguistik gibt es auch in der Frage der Verwendung von "thing" in diesem Zusammenhang keine klare Trennlinie:

For me, the most important is to take care of the residents as if they were part of my family to solve the problems properly and quickly. (*Dieser Satz stammt aus einer untadligen idiomatischen Quelle, üblicher wäre trotzdem: For me, the most important thing is to take care of the residents ...*)

Es gibt aber auch Fälle "andersrum", wo ein "thing" ungewöhnlich erscheint:

The big unknown is what happens if there is no agreement. *Man sollte meinen, dass "The big unknown thing is what happens if there is no agreement" genauso idiomatisch wäre, aber dem ist nicht so: "The big unknown thing is" ergibt 4 (!) Google-Treffer, dagegen "the big unknown is" 4509.000 (!) (Stand Juli 2021)*

The impossible was happening: the TITANIC was sinking! *Man sollte meinen, dass "The impossible thing was happening: the TITANIC was sinking!" genauso idiomatisch wäre, aber dem ist nicht so: "The impossible thing was happening" ergibt 6(!) Google-Treffer, dagegen: "the impossible was happening": 210.000 (!) Treffer.*

Bei manchen Adjektiven (z.B. bei "same") gibt es eine Zone der Überlappung, wo beides möglich ist – sogar innerhalb ein- und desselben Textes:

{Near the end of the Gospel of Matthew, Jesus shares the Parable of the Two Sons. He says, "A man had two sons, and he came to the first, and said, 'Son, go work today in my vineyard.' He answered, 'I will not,' but afterward he changed his mind, and went. He came to the second, and said the same thing. He answered, 'I'm going, sir,' but he didn't go." (Matt. 21:28-30).

In the initial context, this follows the religious leaders' question about Jesus' authority. In the text, there is a man who has two sons. He says the same to both, "Son, go work today in my vineyard." The first son rejects his father's command. He says, "I will not." Afterward, he changes his mind and goes to the vineyard. He initially disobeys his father, but he repents and does what he was told.

The father says the same to his second son. He answers correctly. "I'm going, sir," but he does not follow through with action. He lies, and does not work in his father's vineyard.}

Einmal "the same thing", zweimal nur "the same" ohne "thing". Goggelt man "says the same to", erhält man ca. 1,5 Mio. Treffer, dagegen gibt es fast 8 Mio. Treffer für "says the same thing to". (Stand Juli 2021)

Weitere Beispiele für "same":

What if she had said the same to my Asian American friend? ≠ He added that he had said the same thing to my father.

{But it's not just about Obama. They would have done the same to Hillary Clinton. They did the same with Bill Clinton.} Why don't you do the same? ≠ Many of the older generation have done the same thing. I would do the same thing under similar circumstances today.

It's the same with my husband, Clyde. ≠ I found out that it's the same thing with my husband.

She vowed not to let the same happen to her other children. ≠ Lisa and Malik were determined not to let the same thing happen to them.

As a co-op, everyone ate the same, everyone was paid the same. South of the border, Mexicans can expect to toil for three centuries to earn the same. The same happened earlier in England. Mr. Libby responded that he had heard the same. ≠

Many farmers told me the same thing. German journalists told me the same thing happened to them. Everywhere Mr. Brennan went, he heard the same thing: Come back in a week. What we noticed is that fraud schemes are moving globally, so if you see something happening in Eastern Europe you will see the same thing coming to the U.K. in 3 months. We don't want the same thing happening here.

Nach diesen Beispielen mit "same" folgt eine (alphabetische) Liste mit weiteren Adjektiven, die sowohl mit als auch ohne "thing" verwendet werden können:

annoying:

The most annoying is when you try to get something urgent resolved and whatever department of the property you're trying to reach simply isn't answering. {The most annoying is when my eight-year-old, who is lolling on the sofa whilst I rush around the house, asks me to get him a glass of water. He will not get himself one even when he is on the edge of dehydration.} {The most annoying was the glass window they have from the room into the hallway with a motion sensor light right at it. Every time someone walked on the hallway in the middle of the night the light would go on and wake us up.} ≠

"The most annoying thing about being homeless is that you get judged without people knowing your story. The most annoying thing, he told me, is when people refer to him as "handicapped". For me, the most annoying thing about Carol is that I can't help liking her, even admiring her, despite it all.

best:

For now, it's probably the best you can do. A prolonged convalescence is the best that can be expected. What's the best that can happen? ≠

The best thing would be to try to contact some of the crew. It was probably the best thing that happened to me. Sometimes buying at online auctions isn't the best thing after all. It's the best thing any of us has said tonight.

first:

The first I learned was that there is a difference between speech and language development. {We were behind in our rent, but my boyfriend didn't tell me that. The first I learned was when the sheriff arrived to evict us.} {I came in today because my asthma got worse. The first I was told was that it'd take 5 hours and 28 minutes to be finally

seen by a doctor.} ≠

The first thing I thought of was, I know what the end of the world looks like, and this is not it. When I saw that goal, the first thing I said was, 'You won't see a goal like that ever again.' Visit almost any school in Great Britain and the first thing you'll notice is the school uniform. The first thing he did was take off his coat.

last:

That was the last we saw of them. The killers were picked up by a couple of marshalls and that's the last I heard of them. This is not the last that she has seen of me. ≠

Democracy is the last thing that al-Qaeda want. What was the last thing that made you laugh so hard you cried? Such a crisis is the last thing that was expected. A police car is the last thing that you would want to see.

latest:

The latest I heard about him was he successfully completed his high school and went to college. The latest I was told is that Lake Regional has directed their physicians to spend no more than 15 minutes per patient. What's the latest on what we know about how you can catch COVID-19? ≠

Now the latest thing is that bacon is bad for you, another killer. Americans tend to be always just interested in the latest thing. The latest thing I was told by Audi UK was that there will be a fix in future models.

least:

The least we can do is listen. This is surely the least that can be done by a humane society. That's the least that we deserve. ≠

The least thing I wanted was to hurt or offend anyone. Once, I passed a girl a note during class and Sister Josephine, the discipline nun, intercepted it and said someone my age doesn't know the least thing about love and shouldn't use that word the way I did. It never occurred to me that my obsession with eighteenth-century New York had the least thing to do with 9/11.

next:

{“I was asleep,” the witness said. “I didn’t hear nothing. The next I heard was she was dead.”} One minute, Ryan and I were checking email, and the next I remember I was on my feet scrambling as the floor tipped sideways. And the next he said was, “Really? I never felt that.” ≠

The next thing I hear was Doc Spencer’s voice. The next thing she heard was the gunshot. The next thing she remembered, she was on the ground. I was surprised, then, when the next thing she said was that abortion increases a woman's risk of breast cancer. The next thing I thought of was my mother.

opposite:

In short, we have been doing the opposite. Actually, the opposite is true. Instead, the opposite is happening. ≠

For each "expert" or nugget of conventional wisdom, you can find someone doing the opposite thing to equal or more success. "This is a myth, because actually quite the opposite thing happens," said Dr. Kjell A. Salvesen. It's an old jibe against economics that it's the only field where two people can win the Nobel for saying exactly the opposite thing.

remarkable:

I realized that his particular sex educator had done the remarkable: he had made sex boring. The remarkable is that, in protecting the water for the beer (and the lake of course), the farm is now more productive than it used to be. The remarkable is that none of all possible five-year holding periods during the period 1994-2019 had a negative or even close to zero average annual return. ≠

The most remarkable thing about the car was its engine. Perhaps the most remarkable thing about the Battle of Britain was that it took place at all. The remarkable thing about the human mind is its range of limitations. (Celia Green) The remarkable thing about Shakespeare is that he really is very good, in spite of all the people who say he is very good. (Robert Graves) The remarkable thing about television is that it permits several million people to laugh at the same joke and still feel lonely. (T. S. Eliot) The really remarkable thing about it is that I've dreamt it two nights running. (Saki)

striking:

The most striking about modern industry is that it requires so much and accomplishes so little. (E. Schumacher) Oswald Sallaberger has long chosen a land without frontiers, that of the passion for making and sharing music, and that generosity is certainly the most striking about him. This Barcelona side has achieved a lot, and perhaps

the most striking about it all is that Messi, Neymar and Luis Suarez – three players who might have been rivals in other times – have teamed up to such great effect. {In his first letter to the Corinthians, Paul includes four strategies that help believers to remain steadfast in trying times. The striking about this teaching is the concept of intentionality. Paul seems to operate from the premise that victory is a choice.} ≠

The most striking thing was that most of them would start smoking again. {The striking thing about the stock market speculation of 1929 was not the massiveness of the participation, wrote John Kenneth Galbraith. Rather it was the way it became central to the culture.} The most striking thing about the factory is the silence. The striking thing about the outskirts of Baghdad is how green everything is. The most striking thing about the current migration is how much bigger it could still get.

surprising:

To me the surprising was how inspirational the keynote speakers were. {My favorite was the blueberry peanut butter smoothie I had in the cafeteria in Building C. It doesn't sound good, but it certainly was. The surprising was the color; I expected warm brown, instead I got a deep purple, not at all what I associate with peanut butter.}

{I think the most surprising about me is, that I do a lot of different things at the same time. My interests and skills go in a lot of different directions and that makes my life inspiring.} ≠

The most surprising thing about the tragedy is how upbeat the survivors prove to be. Perhaps the most surprising thing about Baghdad is that people still find ways of having fun. The surprising thing about her was her power. The surprising thing for me was that the enemy had not been put off by our presence. But the surprising and wonderful thing is that human minds are quite easy for others to read.

unexpected:

She did the unexpected when she married Commander Boring. "My esteem for the flying achievements of my father rose somewhat after that, especially since he had been testing purely experimental aircraft with untried new engines which could be very dangerous when they did the unexpected. {Among the unexpected was seeing people who had unfortunately ingested foreign bodies or otherwise inserted objects in various orifices. Anyone with children will likely have experienced the toddler who announces with some pride that they have placed an object in their ear or nose.} In such cases he trusted in the unexpected. Travelling by taxi can offer a touch of the unexpected. I adore Roald Dahl's "Tales of the Unexpected". I like to break a few rules and do the unexpected. My life here is punctuated by the unexpected. The unexpected doesn't occur very often. Travelling by taxi can offer a touch of the unexpected. It's the unexpected that always happens, isn't it? My mother loved adventures and the unexpected. The inevitable rarely happens, the unexpected often does.

Spawned by Stanford's creative writing program, Slate did the expected thing and edited the distinguished little magazine *The Chowder Review* for 15 years. At the Grammys, he and his band did the unexpected thing and played music – with the New York Metropolitan Orchestra, it so happened. Doing the unexpected thing is the safer choice. The unexpected thing is that we learn about ourselves too. But the unexpected thing happened, the Covid-19 pandemic was discovered and quickly spread around the world, adversely affecting the economy. Debutante Presentations, through years of experience, realise that no matter how well organised we can be there's always the unexpected thing that can go wrong like the heel of the shoe breaks, the zip pops out of the dress, we brush up against the tyre of the limousine leaving a black mark on the dress and of course the girl who was definite that she wanted a strapless dress but then on the night is distraught as her dress keeps falling down.

worst:

This is akin to claiming that the Holocaust wasn't all bad and saying that the worst that happened was they got tattoos. "It seems to me the worst that you could say is that Donald Trump lied back in 2017. The worst we could do as a society is to overreact. Competition brings out the best in products and the worst in men. (David Sarnoff) There is just a possibility that the worst might happen. I'm afraid you must prepare for the worst. During their trip they saw some of the best and worst of the continent. The worst has been averted. What is the worst that can happen? We didn't know that the worst was yet to come. ≠

The worst thing that happened was that I learnt to hate. Overstyling is the worst thing for hair. Then the worst thing imaginable happened: the Japanese bombed Pearl Harbor. And what is the worst thing you can do? What is the worst thing anyone's said to you? What's the worst thing about running? The worst thing is getting injured. The worst thing was the uncertainty. The worst thing was the walking. That's the worst thing they can do. "To be forgotten would be the worst thing," he said.

In manchen Fällen besteht ein Bedeutungsunterschied:

That ride in the cattle truck was the worst I've ever had. (*Gemeint ist: was the worst ride = "der schlimmste"*) ≠
That ride in the cattle truck was the worst thing I've ever had. (*Gemeint ist: the worst experience = "das Schlimmste"*)

The article remains the most controversial I have ever written. (*Gemeint ist: the most controversial article = "der umstrittenste Artikel"*) ≠

The article remains the most controversial thing I have ever written. (*Gemeint ist: "das Umstrittenste"*)

Why do so many of us end up doing the stupid? (= *allgemeint gemeint*) ≠ I'm doing the stupid thing of throwing myself out of a plane for charity on the 14th May 2010 at Hinton Airfield, Brackley and I need YOUR kind donations to make it bearable! (*Hier ist eine konkrete dumme Sache gemeint.*)

You must be prepared for the unexpected. (= *allgemein gemeint*) ≠ Please watch and wait for the unexpected thing that happens towards the end of the video. (*Hier ist eine konkrete Szene gemeint.*)

Dieser Bedeutungsunterschied kann auch klein sein:

His critics forget to mention the good that he has done for his country. ≠ His critics forget to mention the good things that he has done for his country.

The big unknown is what happens if there is no agreement. ≠ The big unknown thing is what happens if there is no agreement.

His lies have ranged from the annoying to the sleazy.

The novel displays a love of the arcane and esoteric.

{They are quite content with the mere appearance of beauty. That is to say, they show no talent whatever for differentiating between the artificial and the real.}

We try to unravel the ideological from the authentic. The tourists come here looking for the authentic.

[Henry] called out the maternal in Lou, and to some extent the avuncular in Raymond. (Muriel Spark)

On balance, the good outweighs the bad. Few buyers can tell the good from the bad. These changes brought good and bad to those in uniform. Iraq is on the way to becoming a normal Middle Eastern country, with all the good and the bad that that implies. We have served with him through the good and the bad and always with great admiration. Men feel the good less intensely than the bad. (Livy) The good of genetic tests outweighs the bad.

It came down to the beautiful versus the beastly.

The beautiful and the ugly are not opposites, but aspects of the same thing. It came down to the beautiful versus the beastly. In a matter of seconds, the beautiful is made hideous.

The story is precariously balanced between the believable and the unbelievable.

Expect only the best from these performers. We wish your family only the best. Competition brings out the best in products and the worst in men. (David Sarnoff) They can say that they did their best. When tragedy strikes, it can bring out the best in people. During their trip they saw some of the best and worst of the continent. I am going to do my best in this case.

{Nevertheless, I've taken the bitter with the sweet. Like my granddaddy used to say, "It takes sugar and lemons to make lemonade."}

The expressions range from the conventional to the bizarre. Dogmatic beliefs of any kind range from the benignly bizarre to the frighteningly dangerous. In recent years, Britons with a taste for the slightly bizarre have paid very high prices for a variety of quite unusual properties. I am afraid our sense of fashion at the time bordered on the bizarre.

The ensuing comments ranged from the comical to the blood-curdling.

The book is an odd mixture of the absolutely brilliant and the slightly inept.

The French, in accordance with their high regard for the cerebral, have long cultivated a love of wordplay.

The clandestine and the unknown have always caught his attention.

Proximity and competition seem to bring out the clever in us.

Linen ranged from the coarse to the fine.

She has fine sense of the comic and the ridiculous.

The ensuing comments ranged from the comical to the blood-curdling.

The decadent society affords its inhabitants sufficient leisure to divert themselves from the essential and the commonplace. Success is not doing the unusual, but doing the commonplace unusually well. There is nothing so unnatural as the commonplace. (C. Doyle)

Biological evolution is about change from the simple to the more complex.

Those experiences are forever implanted in both our conscious and unconscious.

{When looking for the appropriate outfit, research the company and what people wear to work. You want to look like you are already a part of the company. Our experts suggest to lean [sic] on the conservative, don't wear anything too revealing, and close-toed shoes with heels or even flats for women is appropriate.}

The expressions range from the conventional to the bizarre.

With success has come behaviour that spills over into the criminal. You will recognize how often the grotesque has deepened into the criminal. (C. Doyle) It is, however, unfortunately impossible to separate the sensational from the criminal. (C. Doyle)

The film is a rejection of the cynical and tawdry.

Dogmatic beliefs of any kind range from the benignly bizarre to the frighteningly dangerous. Companies have been caught in frauds ranging from the nauseating to the dangerous.

Tom Cruise will be remembered for his odd mix of the dashing and the dogged.

The point is that the new, the different, is almost by definition scary. Love of the new and different seems to be a built-in feature [in the US].

Over time I began to relish the difficult rather than the easy.

My father decided to ignore the letter; he was rather good at turning away from the disagreeable.

They use mind-altering drugs to communicate with the divine. Hindu philosophy says that everyone has a spark of the divine in them. Sacred spaces invoke the absolute and the divine.

Heather T., a full-time mother, sticks to doable.

Tom Cruise will be remembered for his odd mix of the dashing and the dogged.

He is a director with a flair for the dramatic. Watson here will tell you that I can never resist a touch of the dramatic. (C. Doyle)

Over time I began to relish the difficult rather than the easy.

Goethe had a strong liking for the enigmatical, which frequently interferes with the enjoyment of his works. Cool and lucid as I can be at times, I have always had an inclination for the enigmatical, the unknown.

Any literature that connects to the sensual or erotic is banned. An aura of the erotic still clung to the place.

The novel displays a love of the arcane and esoteric.

The decadent society affords its inhabitants sufficient leisure to divert themselves from the essential and the commonplace. Let me try to separate the essential from the accidental. (C. Doyle) His task was to sort the essential from the incidental.

Haruki Murakami, the Japanese novelist, writes books in which the everyday and the fantastic fuse strangely. During a session in the Australian Senate Chamber this month, Senator Larissa Waters put herself at the center of the world's attention simply by doing the everyday: breastfeeding her daughter, Alia.

In the end, good triumphs over evil. Non-cooperation with evil is as much a duty as is cooperation with good. (M. Gandhi) The evil overrides the good in certain situations.

He seems unable to distinguish the exceptional from the mundane.

Napoleon never did the expected.

Gladstone never forgot the supremacy of the moral over the expedient.

The novel is a perceptive examination of both the mundane and the extraordinary.

It is a commonplace human tendency to prefer the familiar to the unfamiliar. Given the choice between the familiar and the unfamiliar, most people will go with what they know. When one returns from these escapades away from the familiar, the returning does not give a sense of completion. Moving home after many years away is an odd blend of the comfortingly familiar and oddly unknown. She searched for dozens of photos, her eyes scanning for the familiar. Mr Bird says the campaign is trying to change perceptions by presenting both the familiar and the surprising about Britain.

They said they had drawn up 19 plans to save the lake, from the sensible (educating farmers in new irrigation technologies) to the fanciful (seeding clouds to increase rainfall).

Haruki Murakami, the Japanese novelist, writes books in which the everyday and the fantastic fuse strangely. His orders now verge on the fantastic.

Londoners have always had a reputation for pragmatism, so that in marriage is no surprise that the financial often took precedence over the romantic.

Linen ranged from the coarse to the fine.

The following is a synopsis. The following is an excerpt of Mr. Edwards's remarks. Which of the following is the more innovative route? {Under the May 2016 Wall Street Journal headline "Islamic State Bombings Kill Dozens in Baghdad," we read the following: "The first bomb struck a crowded market in the predominantly Shiite Muslim neighborhood of Sadr City, killing at least 62 people and wounding 86, mostly women and children."}

The new bridge is a beautiful mixture between the functional and the aesthetic.

Sometimes the author uses the particular to illustrate the more general. They prefer to go from the particular to the general. The English language makes a point of distinguishing the particular from the general. People are often reluctant to infer the particular from the general.

Custer's operation held nothing of the glorious and spectacular. This seesawing between the glorious and the grim is the backbone of this travelogue.

Now it is time to act for the common good. They put individual rights above the common good. Often the pursuit of individual interests prevails over the common good. You can't sacrifice everything for the collective good. It looks as if some good had come out of all this. On balance, the good outweighs the bad. Some good has come out of it. At least we had achieved some good – we had given them something to agree on. They talked and wrote about their political work as a struggle between good and evil. Few buyers can tell the good from the bad. Some good has come out of it, but was it worth it? Some good might come out of the enterprise. In the end, good triumphs over evil. We do this in a desire for the good of mankind. Non-cooperation with evil is as much a duty as is cooperation with good. (M. Gandhi) Families are not sticking together as they used to, and no social good can come of that. Some good may come from the debate. The evil overrides the good in certain situations. There is nothing in the world so bad you cannot find some good in it. These changes brought good and bad to those in uniform. He could see only good in the old man who had so few friends. (F. H. Burnett) An ambassador is an honest man sent abroad to lie for the good of his country. (Sir Henry Wotton) Iraq is on the way to becoming a normal Middle Eastern country, with all the good and the bad that that implies. We have served with him through the good and the bad and always with great admiration. Men feel the good less intensely than the bad. (Livy) The good of genetic tests outweighs the bad.

This seesawing between the glorious and the grim is the backbone of this travelogue.

There is but one step from the grotesque to the horrible. You will recognize how often the grotesque has deepened into the criminal. (C. Doyle)

The results range from the sobering to the hilarious.

In the public acts of worship, the range and depth of the religious tradition are represented and affirmed; the power of the holy is made the more palpable. This is not to say that revelation is not of this world or does not take place in this world, nor does it mean that the holy is not experienced in a finite object such as a religious icon or a finite person.

There is but one step from the grotesque to the horrible.

In Africa diamonds are mined in conditions that range from the orderly to the horrific.

I got interested in the hybrid, the impure, the sense of eclectic mixture that lies at the heart of so much of twentieth-century creation.

Laughter bordering on the hysterical broke out.

Real life to most of us is a perpetual compromise between the ideal and the real.

We try to unravel the ideological from the authentic.

I think it borders on the idiotic.

They are part of an economy that exists somewhere between the illegal and the ignored. The illegal we do immediately; the unconstitutional takes a little longer. (H. Kissinger)

For some hysterical people the imagined becomes reality.

Both the immoral and the moral contributed to America's greatness.

We risk confusing the urgent with the important.

He characterizes the story as "between the improbable and the impossible". This man has been doing the impossible for half a century. In his book he attempts the seemingly impossible. They managed to achieve the impossible. When you take away the impossible, you are left with the truth. You can't do the impossible, can you? The only way of discovering the limits of the possible is to venture a little way past them into the impossible. (A. C. Clarke) Unity makes the impossible possible and division makes the possible impossible. People have always wanted to experience the impossible. When you have eliminated the impossible, whatever remains must be the truth. (C. Doyle) We the unwilling led by the unknowing are doing the impossible for the ungrateful. (Bumper sticker)

He characterizes the story as "between the improbable and the impossible". The names of Britain's 70,000 or so pubs cover a broad range, running from the inspired to the improbable. I have learned that the improbable is perfectly likely to happen.

I got interested in the hybrid, the impure, the sense of eclectic mixture that lies at the heart of so much of twentieth-century creation.

His task was to sort the essential from the incidental.

The tobacco companies have spent decades defending the indefensible. They are trying to defend the utterly indefensible. It's a dilemma for any diplomat to bring the right balance between defending his government and not defending the indefensible.

There was a cacophony of colourful suggestions, ranging from the lewd to the indescribable.

His memos quickly developed from the inquiring to the indignant.

The author's subtly ability to summon the individual to elucidate the whole without resorting to stereotype or simplification makes this book so memorable.

Politics is the art of making the inevitable seem planned. (Quentin Crisp)

The book is an odd mixture of the absolutely brilliant and the slightly inept.

I never knew if my appearance had precipitated the inevitable. Life at sea had taught him to accept the inevitable philosophically. They have little choice but to accept the inevitable. Every man looked upward in expectation of the inevitable. This blunder only hastened the inevitable. They have come to accept the inevitable. We should not waste time lamenting the inevitable. We resigned ourselves to the inevitable. Then the inevitable happened: they fell in love with each other. The inevitable rarely happens, the unexpected often does. I had learned the wisdom of bowing to the inevitable. Finally he bowed to the inevitable and agreed that he needed a private car.

It's a pathetic attempt to excuse the inexcusable.

They help us to explain the inexplicable. How to explain the inexplicable?

After silence that which comes nearest to expressing the inexpressible is music. (A. Huxley) Human words cannot attain to expressing the inexpressible. (William James) It is not easy to express the inexpressible. (C. Doyle)

Music brings us nearer to the infinite. (Thomas Carlyle)

The schemes for escape ranged from the ingenious to the insane.

His memos quickly developed from the inquiring to the indignant.

The schemes for escape ranged from the ingenious to the insane. He'd flown missions that were often bordering on the insane.

This discrimination may range from the overt to the insidious.

The names of Britain's 70,000 or so pubs cover a broad range, running from the inspired to the improbable.

The abstract, the theoretical, and the intellectual are all extremely practical—if we understand them and the role they play in our lives. They are not satisfied by the purely intellectual. As I became a serious student, I gravitated to the academic and the intellectual.

This approach to education balances the rational with the intuitive.

The poet is the priest of the invisible. (Wallace Stevens)

Science can never grapple with the irrational. (O. Wilde) It is hard to beat the collective preference for the irrational over the rational. His fidelity borders on the irrational. It's hard to beat the collective preference for the irrational over the rational. Science can never grapple with the irrational.

This technology sorts out the relevant from the irrelevant.

In trading the known for the unknown, we are having the adventure of a lifetime.

What really distinguishes the lasting from the transient is how strongly the memory is engraved in the brain.

The child was dark-eyed and golden-haired, a wonderful mixture of the Saxon and the Latin.

There was a cacophony of colourful suggestions, ranging from the lewd to the indescribable.

There was a strange mixture of the terrible and the ludicrous in our situation. (A. R. Wallace) A keen sense of the ludicrous was another trait I found endearing in him.

His stories have a touch of the macabre. {I would describe his style as Steven King meets Alfred Hitchcock. Recommended for fans of the macabre.} I try to offset any tendency toward the macabre with humour. (A. Hitchcock)

[Henry] called out the maternal in Lou, and to some extent the avuncular in Raymond. (Muriel Spark)

Can we do better than rely on the miraculous?

The ancient and the modern combine in a lively mix in the Alsatian capital.

Gladstone never forgot the supremacy of the moral over the expedient.

He is a writer with a penchant for the morbid.

Tomorrow I must do the mundane: wash clothing. He seems unable to distinguish the exceptional from the mundane. The novel is a perceptive examination of both the mundane and the extraordinary.

Always an avid collector of paintings, George liked the primitive and the naïf.

Companies have been caught in frauds ranging from the nauseating to the dangerous.

Their first experiences were a mixture of the positive and the negative. You see only the negative instead of the positive. How does one weigh the negative against the positive? The media often focus on the negative. While we fail to notice the positive, our brains naturally emphasize the negative.

The point is that the new, the different, is almost by definition scary. Poke around and you'll come across the impressively old (dinosaur teeth!), the bizarrely new (last month's TV guide) and the just plain weird. America is addicted to progress, it loves the new as impartially as it loves the old. Love of the new and different seems to be a built-in feature [in the US]. Francis Bacon got some things right and some things wrong, and on the whole he was much better at criticising the old than at forecasting the new. We didn't learn much new in today's hearing. Caught between the old and the new, many of them are confused. Sometimes the old is superior to the new.

He tends to mistake the unknown for the non-existent.

Last Tuesday the normal turned to nightmare.

Call me a dabbler in the obscure if you like. We're looking for the obscure as well as popular favorites. By writing about the obscure, Olsen, ironically, became a celebrity.

He pointed out the obvious to us: the fugitives needed food. One member pointed out the obvious. Women can discover everything except the obvious. (O. Wilde) A reminder of the obvious is needed from time to time. Nobody dared to say the obvious. They seem to be ignoring the obvious. We failed to see the obvious. Why couldn't they appreciate the obvious? From the look on his face I could see I didn't have to tell him the obvious.

The past decade has seen a burgeoning interest in the occult.

Simone's dream is a mixture of the old and the new. The old and the new exist side by side. Our concern is the striking contrast between the old and the new in Greece, and what it implies about the potential for economic development. Poke around and you'll come across the impressively old (dinosaur teeth!), the bizarrely new (last month's TV guide) and the just plain weird. America is addicted to progress, it loves the new as impartially as it loves the old. He spoke with the scorn of the modernist for the old-fashioned. (A. Christie)

In Africa diamonds are mined in conditions that range from the orderly to the horrific.

At the beginning of anything out of the ordinary, the mass of the people always dislike it.

The oppression against Dalits ranges from the subtle to the outrageous.

This discrimination may range from the overt to the insidious.

Sometimes the author uses the particular to illustrate the more general. They prefer to go from the particular to the general. The English language makes a point of distinguishing the particular from the general. People are often reluctant to infer the particular from the general.

We remain more interested in the personal than the political. We had to perform a balancing act between the personal and the political. They have learned to differentiate politics from the personal. Like all drunken conversations ours spiralled down to the embarrassingly personal.

The differences between Bruges [= Brügge] and other cities is that in the latter you look about for the picturesque, while in Bruges, assailed from every side by the picturesque, you look curiously for the unpicturesque, and don't find it easily. (Arnold Bennett)

That is not within the realm of the plausible.

We remain more interested in the personal than the political. We had to perform a balancing act between the personal and the political.

Their first experiences were a mixture of the positive and the negative. You see only the negative instead of the positive. How does one weigh the negative against the positive? He points to the positive, like a 40 percent surge in exports. While we fail to notice the positive, our brains naturally emphasize the negative.

The only way of discovering the limits of the possible is to venture a little way past them into the impossible. (A. C. Clarke) Aviation has changed us: it has shrunk the planet, altered our sense of the possible, made the strange familiar. Unity makes the impossible possible and division makes the possible impossible. The original phrase is "Politics is the art of the possible", which means, "It's not about what's right or what's best. It's about what you can actually get done". If politics is the art of the possible, research is surely the art of the soluble.

Martha is famous for mixing the pretentious and the practical with almost hilarious indifference. Paul has a very intriguing mix of the practical and the academic.

When it comes to the bedroom, tastes here tend toward the safe and predictable.

Martha is famous for mixing the pretentious and the practical with almost hilarious indifference.

We are easily distracted by the pretty and trivial.

Always an avid collector of paintings, George liked the primitive and the naïf.

Marxism tends to prioritise the public over the private. She is an expert in balancing the public and the private.

Her cover story was a masterful fabrication of the probable and the uncheckable.

He mocks the sacred and ridicules the profane.

His costume was a peculiar mixture of the professional and the agricultural. (C. Doyle)

Marxism tends to prioritise the public over the private. She is an expert in balancing the public and the private.

In Shintoism the home represents the sacred and the pure.

This year's entries range from the second-rate to the sublime.

Within many businesses, this culture of the rational is pushed to the extreme. It's hard to beat the collective preference for the irrational over the rational. This approach to education balances the rational with the intuitive. It's the experience that transcends the rational.

I couldn't tell the real from the unreal. Youngsters may shuttle more easily between the visual and the real. Real life to most of us is a perpetual compromise between the ideal and the real. {They are quite content with the mere appearance of beauty. That is to say, they show no talent whatever for differentiating between the artificial and the real.}

I suspected her of having a taste for the abstruse and the recondite.

This technology sorts out the relevant from the irrelevant. The studies ranged from the marginally relevant to the wholly ridiculous.

Some suggestions border on the ridiculous. She has fine sense of the comic and the ridiculous. The studies ranged from the marginally relevant to the wholly ridiculous.

Londoners have always had a reputation for pragmatism, so that in marriage it is no surprise that the financial often took precedence over the romantic. Is it the romantic in German art that the Americans are interested in – the dark, the unfathomable?

We took the rough and smooth together for a year of hard fighting. (C. Doyle)

Their lives were poised between the sacred and the profane. In Shintoism the home represents the sacred and the pure.

The effects range from the serious to the sad.

When it comes to the bedroom, tastes here tend toward the safe and predictable.

The child was dark-eyed and golden-haired, a wonderful mixture of the Saxon and the Latin.

The remark was considered to border on the scandalous. (Saki)

The ending verges on the schmaltzy.

In avoiding the sensational, I fear that you may have bordered on the trivial. (C. Doyle) The media play with our thirst for the sensational.

They said they had drawn up 19 plans to save the lake, from the sensible (educating farmers in new irrigation technologies) to the fanciful (seeding clouds to increase rainfall).

Any literature that connects to the sensual or erotic is banned. It is, however, unfortunately impossible to separate the sensational from the criminal. (C. Doyle)

The effects range from the serious to the sad.

Biological evolution is about change from the simple to the more complex.

His lies have ranged from the annoying to the sleazy.

We took the rough and smooth together for a year of hard fighting. (C. Doyle)

The results range from the sobering to the hilarious.

If politics is the art of the possible, research is surely the art of the soluble.

Custer's operation held nothing of the glorious and spectacular.

Madonna has joined a long line of women drawn to the spiritual in their middle age. You may have noticed how extremes call to each other, the spiritual to the animal, the caveman to the angel. (C. Doyle)

Aviation has changed us: it has shrunk the planet, altered our sense of the possible, made the strange familiar.

The whole scene turned from the sublime to the ridiculous. The sublime and the ugly are all in there. This year's entries range from the second-rate to the sublime. Martin Luther King's intelligence and oratory touched the sublime.

The oppression against Dalits ranges from the subtle to the outrageous.

I need facts, not stories of the supernatural. He was not inclined to believe in the supernatural. The fascination with the supernatural is strong. He believes in the possibility of the interference of the supernatural in the affairs of men.

Mr Bird says the campaign is trying to change perceptions by presenting both the familiar and the surprising about Britain.

{Nevertheless, I've taken the bitter with the sweet. Like my granddaddy used to say, "It takes sugar and lemons to make lemonade."}

There was a strange mixture of the terrible and the ludicrous in our situation. (A. R. Wallace)

The abstract, the theoretical, and the intellectual are all extremely practical—if we understand them and the role they play in our lives. He has a flair for the theatrical.

The community let the traditional be swept away in the name of progress.

What really distinguishes the lasting from the transient is how strongly the memory is engraved in the brain.

He was a classical bureaucrat, threatening the trivial and the vital with the same leaden seriousness. We are easily distracted by the pretty and trivial. In avoiding the sensational, I fear that you may have bordered on the trivial. (C. Doyle)

The beautiful and the ugly are not opposites, but aspects of the same thing. The sublime and the ugly are all in there.

Our company offers the ultimate in safety and service.

Today in Syria, the abnormal is now normal, the unacceptable is accepted.

Now she has achieve the unachievable.

They search in vain for the unattainable. Men always want the unattainable. The art of life is the avoidance of the unattainable. (Saki)

Now the unbelievable happened right in front of his eyes. The story is precariously balanced between the believable and the unbelievable.

Her cover story was a masterful fabrication of the probable and the uncheckable.

Sigmund Freud opened a window on the unconscious. The thing about the unconscious is that it just keeps producing. The unconscious can lead us astray if we are not aware of its influence.

The illegal we do immediately; the unconstitutional takes a little longer. (H. Kissinger)

The English country gentleman galloping after a fox – the unspeakable in full pursuit of the uneatable. (O. Wilde)

The Japanese people heard the emperor acknowledge that they were “enduring the unendurable and suffering the unsufferable.” Rumors and wisecracks helped men endure the unendurable.

I have always been fascinated by the unexplained, the darker side of life.

There we come to the edge of the unexplored. (C. Doyle)

He has trouble accepting the unfamiliar and adjusting to the unforeseen. Given the choice between the familiar and the unfamiliar, most people will go with what they know.

Fathoming the unfathomable by definition seems unfathomable. Is it the romantic in German art that the Americans are interested in – the dark, the unfathomable?

Wisdom should reckon on the unforeseen. (G. K. Chesterton) Gold coins are a good hedge against the unforeseen. He has trouble accepting the unfamiliar and adjusting to the unforeseen. The unforeseen happens – it just does.

{Then the unfortunate happens. Someone trips in your bar, and suddenly you have an injury on your hands.}

Now the unimaginable has happened: Fidel Castro is really gone.

The formula for complete happiness is to be very busy with the unimportant. (A. E. Newton)

The most severe mistake made in life is to mistake the unintelligible for the unintelligent.

The most severe mistake made in life is to mistake the unintelligible for the unintelligent.

It was an attempt to justify the unjustifiable.

The American pioneers were men and women who were not afraid to go forward into the unknown. The clandestine and the unknown have always caught his attention. The lack of information and the fear of the unknown have long been seen as a barrier for people with mental illness as well as all those involved in the process, such as family and the medical team. Cool and lucid as I can be at times, I have always had an inclination for the enigmatical, the unknown. Curiosity and a willingness to experience the unknown are vital for anyone with a serious interest in gastronomy. So how does he feel now that his bold journey into the unknown has come successfully to an end? It was a leap into the unknown. There is a fear of the unknown. The American pioneers were men and women who were not afraid to go forward into the unknown. It will be a trip into the unknown. They were afraid to go forward into the unknown. They had the courage to probe the unknown. Here's a comforting thought for anyone facing the unknown: "You need to start getting comfortable with being uncomfortable." From 1490, brave Europeans ventured out into the great unknown. Each of these projects was a step into the unknown. In trading the known for the unknown, we are having the adventure of a lifetime. Moving home after many years away is an odd blend of the comfortingly familiar and oddly unknown. I watched as their dark grey silhouettes moved into the unknown.

Our goal is to do what makes sense for Berkshire's customers and employees at all times and never to add the unneeded. (Warren Buffett)

The unnerving has become everyday life in his city, he says.

I couldn't tell the real from the unreal.

In his willingness to say the unsayable and to take on the pillars of the establishment, Bolsonaro took his cues from the U.S. President – so much so that international media nicknamed him the Trump of the Tropics.

I often think of those victims who survived the unspeakable. The English country gentleman galloping after a fox – the unspeakable in full pursuit of the uneatable. (O. Wilde)

The Japanese people heard the emperor acknowledge that they were “enduring the unendurable and suffering the unsufferable.”

At one point they even contemplated the unthinkable – dropping the captain from the team. At the end of May, they did the unthinkable and relinquished their titles. The Barings Bank disaster and similar scandals teach us to think the unthinkable. From the start, he did the unthinkable. Can the unthinkable occur here, too?

Success is not doing the unusual, but doing the commonplace unusually well. For the first time they became aware that they lived in conditions where the unusual might be dangerous.

We risk confusing the urgent with the important.

There was precious little useful that we could do.

I'd like the usual, please.

We are doing our utmost. I was going to do my utmost to pull the mission off. I am going to do my utmost in this case.

There is something deeply impoverished about a culture fixated on the visual. Youngsters may shuttle more easily between the visual and the real.

He was a classical bureaucrat, threatening the trivial and the vital with the same leaden seriousness.

Poke around and you'll come across the impressively old (dinosaur teeth!), the bizarrely new (last month's TV guide) and the just plain weird. The book is a collection of tales about the weird and wonderful.

Everybody realized that his contribution was essential for the success of the whole. Everyone in society has some kind of responsibility for the whole. The author's subtly ability to summon the individual to elucidate the whole without resorting to stereotype or simplification makes this book so memorable. Patriot: One to whom the interests of a part seem superior to those of the whole. (A. Bierce) We would think that the whole had been fixed up for theatrical effect if there wasn't a dead man in the middle of it. (C. Doyle) Things got better, people felt comfortable, and then they destroyed the whole thing.

When the wonderful happens, we commonly exclaim it was "just like a fairy tale". The book is a collection of tales about the weird and wonderful.

They had done no wrong. If we tell the truth about the wrong we've committed, we are often punished.

Russia has long looked East with a trepidation bordering on the xenophobic.

Manchmal ergeben sich Berührungspunkte zu 4.7.:

The ensuing comments ranged from the comical to the blood-curdling. *Durch das "the" davor sind "comical" und "blood-curling" dem Bereich Nomen zuzuordnen, also dem 7. Ebenso: His lies have ranged from the annoying to the sleazy. They looked up at him with expressions ranging from the amused to the amazed. The expressions range from the conventional to the bizarre. They said they had drawn up 19 plans to save the lake, from the sensible (educating farmers in new irrigation technologies) to the fanciful (seeding clouds to increase rainfall). The results range from the sobering to the hilarious. In Africa diamonds are mined in conditions that range from the orderly to the horrific. There was a cacophony of colourful suggestions, ranging from the lewd to the indescribable. His memos quickly developed from the inquiring to the indignant. The schemes for escape ranged from the ingenious to the insane. There was a cacophony of colourful suggestions, ranging from the lewd to the indescribable. Companies have been caught in frauds ranging from the nauseating to the dangerous. The effects range from the serious to the sad.

Ein grammatikalischer Hinweis: Solche aus Adjektiven oder Partizipien gebildete Wörter können z.B. als Subjekt auftreten:

Both the immoral and the moral contributed to America's greatness. *Was liegt also näher, als sie als Nomen zu identifizieren? Im Deutschen schreibt man auch "das Moralische" und "das Unmoralische" groß – weil es sich für Nomen so gehört.*

Auf den zweiten Blick ist die Sache nicht so klar: Like all drunken conversations ours spiralled down to the embarrassingly personal. *Wenn "the personal" hier wirklich ein Nomen ist, wieso steht dann ein Adverb davor? Wieso "the embarrassingly personal" und nicht "the embarrassing personal"?*

Es sieht so aus, als ob die englische Sprache die Transformation Adjektiv ⇒ Nomen nicht konsequent zu Ende geführt hätte.

Es gibt auch (aus Adjektiven oder Partizipien stammende) konkrete und abstrakte Begriffe, die auf ein Mehrzahl -s enden (können):

Antibiotics change the normal gut flora very quickly – wiping out the indigenous, harmless bacteria and leaving the patient susceptible to resistant bacteria such as *Clostridium difficile*. It is madness allowing so many factory farms to use antibiotics when there is a risk of bacteria becoming immune. Antibiotics were the twentieth century's miracles.

A generation ago, basics (housing costs, health insurance, transportation, education, and taxes) accounted for fifty-four per cent of the average family's income. They are learning the basics of financial literacy and savings. Once you've mastered the basics, you can play around with the recipe to your heart's content. It is right that if we are to improve our performance in maths and ensure that our students are equipped with the maths skills needed to succeed in a global marketplace, we have to start from the basics at primary level. I think we must get back to basics.

Let bygones be bygones.

Some believe the weather is already being shaped by "chemtrails" – aeroplane contrails deliberately laced with toxic chemicals. The Label Act will require shops to display where their goods are made, which chemicals were used in production, and whether the factory is unionised. After having litres of cancer-killing chemicals injected into my bloodstream, I decided not to follow the haematologist's advice and went back to the UK to try to live a normal life again.

Newspapers may be selling more ad pages, but classifieds remain in the dumps. Such a gun cannot, of course, be registered to you, but one bought privately (through the classifieds, for example). {The internet breaks the grip that local and regional newspapers once held over their advertising markets. Typically, a local newspaper would expect to get some 80% of its revenue from advertising, of which around two-thirds would come from classifieds.} Regional newspapers, more reliant on classifieds, are in worse shape. I found a 1999 Polo in the classifieds which had 75,000 miles on the clock.

Collectibles have outperformed stocks over the past decade, with some, like rare coins, doing a lot better, according to The Economist's valuables index. Since capital-gains tax on the sale of art and collectibles is taxed at a higher rate than that of stocks and bonds, the benefits of donating art and claiming a tax deduction have never been more attractive. In April, two French anti-racism groups sued Yahoo! to remove collectibles such as swastika flags and Nazi uniforms from its American website, because French law prohibits the display or sale of objects that incite racial hatred and the site can, of course, be reached by French users.

Team work, professionalism, communication skills and public speaking are just some of the desirables for your CV. The list of desirables is long, admittedly – it includes, for example, a central database, a comprehensive web platform and standardised teaching materials.

She cannot afford to replace her 50-year-old electrics.

When choosing between two evils, I always like to try the one I never tried before. (Mae West)

He dropped to all fours and crawled in. I got down on all fours like a cat. Some species were bipedal, whereas others walked on all fours. Everybody crawled forward on all fours in a human chain. I negotiated the worst 10 feet on all fours. The baby moved surprisingly fast on all fours.

The beneficial effects of hallucinogenics (mainly pot and acid) on our culture are now a widely acknowledged fact. It was the time of the sexual revolution and the quest for spiritual harmony through the use of Zen meditation and hallucinogenics. You could purchase a galaxy of different stimulants, hallucinogenics, opiates and prescription drugs.

He finds little solace in such hypotheticals. Well, as long as we're on hypotheticals, who should be your boyfriend? I have a distaste for hypotheticals just the same as you have a distaste for speculation. Be selective (don't take

down every single note): take down the main points of the lecture or discussion; write down examples or hypotheticals, especially in math and science classes. Most of these hypotheticals wouldn't stand up to scrutiny in any self-respecting forum, of course. In other words, while researchers attempt to grasp complex, real-world situations, students are pondering unrealistic hypotheticals.

My grandmother survived World War II barefoot, scavenging Eastern Europe for other people's inedibles: rotting potatoes, discarded scraps of meat, skins and the bits that clung to bones and pits. On a trip with GOP Senator Richard Lugar in 2005 to the former Soviet Union, the Americans were served an array of inedibles, including a fish encased in gelatin.

Knowledge and information are, therefore, among the most valuable intangibles of companies that, being difficult to imitate, represent an important source of value and give companies competitive advantages. It notes that "intangibles" such as knowledge networks and open business models now make up much of the value of firms in rich countries. This is worth highlighting because intangibles, like the quality of teaching, rarely get captured in rankings that use quantitative measures. Intangibles such as values and identity matter too.

They were denied liquids and food.

We've got to turn our negatives into positives. For all practical reasons its negatives outweigh the positives. She knows nothing of the negatives. Equally websites have positives and negatives. False negatives are more serious than false positives, although both are undesirable. Let me start with the negatives - the limitations.

{Ask anyone who is currently single or has recently left a long-term relationship and they're clear on their must haves and nonnegotiables. They'll tell you *exactly* what they won't tolerate in a relationship and how they plan on handling any situation if they feel their boundaries are being crossed.} {These seven nonnegotiables are the basics for the solid Christian life, and if any of them are neglected, we will be the ones to pay, not God. Now that you know what the nonnegotiables are, why don't you sit down in a quiet place and meditate on the areas where you are taking good care of your spiritual life, and then ask the Lord to show you the areas where you need help.]

It put the perishables in the refrigerator.

Their health card which offers discounts on pharmaceuticals. A rising affluent class of consumers in markets like China and India snap up luxury cars, western foods and pharmaceuticals. The group includes companies from a wide range of industries including defence, financial services, energy and pharmaceuticals.

After decades of demonization, psychedelics are on the cusp of entering mainstream psychiatry. Numerous studies have shown that classic psychedelics like LSD and psilocybin are not addictive. Researchers were using psychedelics to help alcoholics stop drinking and cancer patients cope with end-of-life anxiety.

It is hard to find positives in such stories of child abuse. We've got to turn our negatives into positives. Today, I'm trying to focus on the positives. For all practical reasons its negatives outweigh the positives. The positives – precision, top quality, reliability – outweigh this aspect, however. Some people focus solely on positives, discretely ignoring unpleasanties.

The vivid reds, oranges and yellows of autumn had faded. People who are sociable and outgoing tend to dress in an extrovert way, preferring brighter or more dazzling colours – yellows, bright reds and so on.

The dramatic rise of renewables over the last few years has hurt oil producing countries as much as fracking. 'Fossil fuels out, renewables in' – that's what it boils down to. And yes, renewables are an indispensable part of the future energy mix. We're in a unique position in this country to use wind power, solar power, and other renewables. We have a target – to generate 15% of our energy from renewables by 2020; this is challenging but achievable. The law mandates that 15 percent of China's energy come from renewables by 2020. The aim is to replace all fossil fuels with renewables. How much difference do renewables make to global climate change? Analysts warn that the wind and solar industries could collapse as the government shifts subsidies away from renewables. The Trump administration boosts coal at the expense of renewables.

The rights and wrongs of the battle of Little Bighorn have been much discussed. The day when one person could dictate the rights and wrongs of language is long past.

Dazu gibt es auch eine Singular-Form: Two wrongs don't make a right.

Brown repeatedly said he did not recall specifics about altering the cabinet minute or who instructed him to change it. This is an ongoing police inquiry so will not comment on the specifics. The Conservative manifesto is brief on both energy and environment, but contains some specifics.

There are so many unknowns in this current outbreak [of Covid], especially the true number of infected individuals. Given all the other risks and unknowns, environmentalists point out, it is all the more important to make sure the whales are safe in their summer home at least. Among these unknowns, one thing is more certain: the housing market is about to enter a long period of transition. But there are still plenty of unknowns between now and the election. There are a lot of unknowns – the fact is, the tail fell off the airplane. There were a few unknowns in the calculation. Chemical weapons, guerrilla warfare and urban combat are some of the unknowns that lurk ahead. There are so many unknowns. We learn that there are a lot of unknowns. Ration decision making is difficult when there are many variables and unknowns.

These are some of the big unresolveds that we face. Most poems seem heavily based in the poets' dreams, and heavily loaded with his personal angst and "unresolveds." It's most likely when they pinned him they pinned unresolveds on him too, which inept police agencies do all the time with high-profile killers. {All the unresolveds are finally being concluded. I can't tell you how good that feels.} {With energetic testing we can accomplish a lot and especially with energetic treatments. But it has to be at a very deep level, where emotional and inherited unresolveds are not overlooked. I think they play a huge part in who we are today.}

{Untranslatables do not prevent translation: they are on the contrary its fuel, and we are lucky to have them. We translate thanks to, and in spite of, the untranslatables.} Therefore, any language is inadequate, incomplete, full of "untranslatables" and yet necessarily given to translating, in the manner of a promise and of an unaccomplished project.

The criminals made off with some valuables. Check that the door is locked and do not leave valuables in view inside the car. The tombs contained no gold or valuables, which safeguarded them from tomb raiders throughout antiquity. When accosted by a stranger, be careful and guard your valuables.

Ration decision making is difficult when there are many variables and unknowns.

The rights and wrongs of the battle of Little Bighorn have been much discussed. Two wrongs don't make a right. He perceives it to be his mission to undo all the "wrongs" that were perpetrated by the last Administration. The day when one person could dictate the rights and wrongs of language is long past.

Dazu gibt es auch die Singular-Form: He is often more passionate than his wife when he perceives a wrong.
